Vol. XLVII] No 27 - E. J. POLLARD, Editor and Proprietor.

NAPANEE, ONT., CAN

Fisher's Music Store.

AN ODE.

WALL PAPERS, did you say?
Come on, you'll bless the day,
You did a visit pay
To Fisher's.

The Summer now we greet,
To read in cool retreat
We've BOOKS that can't be beat,
At Fisher's.

POST CARDS to write your friend
We've got them without end,
The Choicest you can send
Are Fisher's.

The Sweetest Music too,
Greatest old Songs and new,
There's no such stock on view
As Fisher's.

At the request of several customers it is intended to have Mr. Fielding, the Gerhard Heintzman tuner here again shortly. Those who wish to secure his services will please notify us early as possible.

FIRE = FIRE = FIRE
PROTECT YOUR PROPERTY WITH
THE CAMERON

Steel Ladders and Fire Escapes.

It is practical. It is made of Bessemer Steel. It is permanent. It is inexpensive. It is always ready for use. It is indestructible. It costs less than any fire escape and is without a competitor. Ice and snow will not adhere to it. No rot as in the case of wooden ladders. It should be on all

Churches, Schools, Hotels, Private Houses, Barns
and Out Buildings.

This flexible steel ladder is made in two sizes of selected Bessemer Steel. 2 for dwellings, barns, outbuildings, and 7 1/2 for fire escapes.

When adjusted to the wall they are as firm as the wall itself. They have been commended among many others by the following:—

D. R. NOONAN—Chief of Fire Department, Perth, Ont.
J. P. QUIGLEY— " " Syracuse, N. Y.
E. J. JEWHURST— " " Auburn, N. Y.
C. M. HOGG— " " Binghampton, N. Y.
J. H. ESPEY— " " Elmira.
G. F. McDONALD—Sec'y Fire and Light Committee, Ottawa, Ont.

and hundreds of others. Completely successful wherever introduced.

Sole Agent for Napanee, Deseronto and District.

CHAS. FISHER, = NAPANEE.

TOWN COUNCIL.

Council Chamber,
June 15th, 1908.

Council met in regular session Mayor Meng presiding.

Councillors present: Symington, Alexander, Steacy, Simpson, Kimmerly, Osborne.

Minutes of previous meeting were read and adopted.

A communication was read by the clerk together with a list of patients in the Asylums of the Province, said to be residents of the town of Napanee, containing the names of Jane Loucks and J. H. Lowry. Communication was ordered filed and the clerk was instructed to return the necessary schedules.

Communication from county clerk re county rate, showing the amount payable by the town to the county to be \$3200. Filed.

Communications from Wood, Gandy & Co re debentures for sale by the town, advising the town of the sale of the \$10,000 debentures at par. Filed.

Communication from Alexander Bruce, K. C., asking for declarations re Debentures. On motion the clerk was instructed to fill in and forward the necessary documents.

Communication from Sir Richard Cartwright claiming partial exemption from taxation on several parcels of land. Filed.

A petition for cement walk was received from Messrs Chas Stevens and C. W. Guess. Referred to Streets Committee to investigate and report.

Rev. T. P. Connor and others petitioned for a cement walk around the R. C. Church property. Referred to Streets Committee to report.

The Street Committee reported that they had taken the levels for the cement walk around the St. Mary Magdalene church and found that everything worked out satisfactorily. They also reported that Mr. John Wilson had again complained of a flooded cellar.

A by-law was passed appointing Ira Janes, pound-keeper for the town of Napanee, at a salary of \$2.50 per week and one-half the poundage.

Moved by Coun. Osborne, seconded by Coun. Steacy, that the motion disposing of the petition of the Citizens' Band, placed before the council at its April session, be reconsidered.

Councillors Osborne, Steacy, Simpson and Kimmerly voted for the motion, and Reeve Symington and Alexander did not vote.

Mayor Meng declared the motion lost, claiming that a motion to reconsider must have a majority of the members of the whole council.

On motion of Councillors Osborne and Simpson, the Streets Committee were instructed to remove the rubbish and have the road repaired on that portion of the street south of the swing bridge, running west along the Rathbun property.

Moved by Coun. Simpson, seconded by Coun. Osborne, that the Citizen's Band be granted the sum of \$99, provided they give their usual concerts in the Harvey Warner Park during the summer season.

Mayor Meng declared the motion out of order.

Councillor Simpson then rose to his feet and said that if that was the ruling of the Mayor he would take advantage of clause 5 of By-law No. 407, and appeal to the council against the ruling of the chair.

Councillors Simpson and Osborne

Satisfactory Clothes...

—Clothes made to order and made to satisfy.

—Don't overlook the word "satisfy."

—It's a pledge that culminates in performance here.

—We take a genuine and sincere interest in each and every order that goes on to our books.

—Come in for a look at the handsome spring and summer woolens.

—We'll show you all the new style kinks, and quote you prices that you will be willing to pay.

J. L. BOYES,

DESMOND.

On Monday evening, the 1st of June, a very pleasant event took place at the beautiful home of Mr. and Mrs. J. N. Switzer, Desmond, when their eldest daughter, Marie Coral, was united in marriage to Charles Leslie Quinn, of Lansdowne. The couple stood under an arch of evergreens interposed with white flowers and tastefully decorated with a large floral bell, and white satin ribbon. The ceremony was performed by Rev. Arthur Whattam, of Woodville, cousin of the bride, assisted by Rev. E. Allin, of Enterprise. The bride was attired in a charming dress of white silk with chiffon veil and wreath of bridal roses and carried a shower bouquet of white carnations and maiden hair fern. She was assisted by her sister, Miss Bessie Peryl, who wore dainty dress of white silk.

The groom was attended by his brother, Williard C. Quinn. After congratulations had been offered, the guests, about fifty in number, retired to the dining room, and partook of a sumptuous repast. The groom's gift to the bride was a handsome gold crescent brooch set with pearls, to the bridesmaid, a beautiful gold pin, and to the groomsman, a gold tie pin. The bride will be greatly missed here, both in social and church circles, as she has efficiently filled the position of organist in the Methodist church and Sunday school for some time and has been an active worker in those.

The many useful and beautiful gifts testify to the high esteem in which the young couple are held by their many friends. The bride's going-away gown was of light grey broadcloth with hat to

RATES VERY MODERATE.

Students may enter any time of the year as all instruction is individual in character. No time like the present; write to-day.

T. N. STOCKDALE, Principal.

Lamps and lamp goods we have a full line, they are always handy at BOYLE & SON.

Coughs, colds, hoarseness, and other throat ailments are quickly relieved by Crescendo tablets, ten cents per box. All druggists.

Mayor Meng declared the motion out of order.

Councillor Simpson then rose to his feet and said that if that was the ruling of the Mayor he would take advantage of clause 5 of By-law No. 407, and appeal to the council against the ruling of the chair.

Councillors Simpson and Osborne then moved appealing against the ruling, but Mayor Meng refused to put either this motion on the previous one before the council.

The following accounts were ordered paid:

Lax-ets 5 C Sweet to Eat A Candy Bowel Laxative.

Montreal City Council wants the Street Railway Company to water the streets and clear off the snow in return for the privilege of carrying freight within the city limits.

The Famous Pedestrian

Gentlemen:—

"I was a martyr to catarrh of the head, throat and stomach. I was so bad the doctors feared consumption. I tried many physicians and medicines. A friend suggested Psychine. I tried it and it was the only thing ever did me any good. I am now perfectly well. It is the greatest remedy the world has ever known. I do not need it for my health now but I use it as a strengthener for my walking matches. I owe much of my physical endurance to Psychine."

JAMES REYNOLDS,

Port Hope, Ont.

Psychine is the greatest cure for catarrh of the head, throat or stomach in the world. It is a wonderful tonic and strengthener of run down system, acting directly on all the vital organs, giving youthful vigor and strength to the system. At all druggists 50c. and \$1, or Dr. T. A. Slocum, Limited, Toronto.

ganist in the Methodist church and Sunday school for some time and has been an active worker in those. The many useful and beautiful gifts testify to the high esteem in which the young couple are held by their many friends. The bride's going-away gown was of light grey broadcloth with hat to match. The happy couple left for Peterboro, and other points west to spend their honeymoon. On their return they will reside in Lansdowne.

STELLA.

The farmers are rejoicing after a fine rain, which was badly needed, as the ground was getting very dry.

Potatoes, roots and corn are being planted.

A few attended the moonlight excursion from here to Picton on Saturday evening, on the Steamer Aletha.

J. B. Gibson and A. Spears, had barn raisings last week.

A. McDonald has erected a new stable and driveshed for Rev. Lindsay.

The English church held an ice cream social on Stella Point, on Friday evening.

W. D. Sanders and John Filson attended grand lodge, P.A.P.B., in Trenton last week.

Mr. and Mrs. H. S. Patterson are spending a few days at Niagara Falls and Buffalo.

Mr. and Mrs. J. Sanders have returned from a trip to Montreal.

J. Tugwell, butcher, made his first round on Saturday with his meat wagon.

Mrs. A. Cobbie, Kansas, who has been visiting her mother, Mrs. D. H. Preston, has returned home.

Visitors; P. C. Filson and M. Lemmon, Kingston, spent Sunday with friends here; Mrs. G. E. Sanders and son, Kingston, at John Sanders'; Miss Agatha Stevenson, Colorado, visiting her mother, Mrs. A. Stevenson; Dr. and Mrs. W. W. Thompson, Brooklyn, N. Y., at J. S. Neilson's; Miss Kathleen Neilson has returned home from Brooklyn; C. E. Gibson, Kingston, is spending a few days with his parents; Capt. H. Bolton, Kingston Mills, at W. H. Moutray's; W. H. Allen, Tweed, is spending a few days at his home.

Mr. and Mrs. H. Filson have returned home from Deseronto.

Hugh Marshall has secured a position in Kingston.

For Auto Boats, Automobiles and Electric Machines

Try "Calypool" lubricating oil. This oil is imported from Russia and is specially prepared for complicated and delicate machinery. It is highly filtered, light colored, contains small percentage of carbon, and has a high degree fire test. The Medical Hall—Fred L. Hooper, sole agent for Napanee. Ask us for "Anti Friction" cup grease.

DESERONTO ROAD.

Mr. William J. Roach has greatly added to the appearance of his farm by placing a new iron fence on the east side of his residence. He has also shingled his house across the road.

Mr. Levi Sagar has about completed his new barn which adds greatly to the appearance of his place.

We understand that a Mr. Lansing from Prince Edward visited friends on this road over Sunday.

Mr. S. B. Mason has secured a new tenant for the east end of his house near the railroad track, which was recently vacated by Mrs. Loyst.

Mr. Dan Walker is planting a piece of land, this spring, on shares with Sidney Hearns.

Mr. Bert Bowen has a new track laid from his barn to his milk stand for the purpose of running his milk can to the road. He also intends building a new Silo the coming summer.

EE EXPRESS.

\$1 per Year in advance: \$1.50 if not so paid.

NADA—FRIDAY, JUNE 19th, 1908

VIOLET.

Baby George Robson has been suffering with a large abscess behind his ear.

Corey Card and bride are the guests of his father, Chester Card.

Mr. and Mrs. Galbraith have been visiting at A. Allen's for a few days.

Miss F. Asselstine is spending a week in Gananoque.

Mrs. M. Huffman is still confined to her bed.

Things Are Getting Whiter.

Because so many people are painting their houses with Sherwin-Williams Gloss White, especially prepared for outside painting. It will not chalk off like lead and oil. One gallon covers 300 sq. ft., two coats in every can carries the guarantee of the maker. The Medical Hall—Fred L. Hooper, sole agent for Napanee.

SELBY.

Mr. Hooper occupied the pulpit on Sunday night in the absence of Rev.

NEWS NOTES.

A shock of earthquake was felt at Cornwall.

Some damage is reported from frost in Western Ontario.

There have been ten thousand murders in Macedonia in the last four years.

Joseph Hutchinson, an inmate of the Essex House of Refuge, has inherited a million dollars in Manchester.

C. F., the 10 year-old son of Dr. Newton, of Deseronto, was drowned while bathing in the mill pond on Monday.

Ada Baker, of Thamesford, took poison at a London hotel, and then turned the gas on. She may die, but her little boy will recover.

Two women, a man and a child were drowned in New York when an automobile in which they were riding plunged into the Hudson River.

Luisa Vandes, a white child, was killed in Cuba by a band of negro wizards who wanted the child's blood to cure an old negress of consumption.

Hammocks, Hammocks, we sell Palmers, all the new weaves and best quality made.

BOYLE & SON.

Evelyn Thaw and her husband have become reconciled and will not be separated, according to a statement made by Daniel O'Reilly, Evelyn Thaw's counsel.

In the case of William H. Bradshaw charged with arson in burning his uncle's barn in the township of Tyendinaga, who was tried in the county court at Belleville, the jury disagreed. Bradshaw was admitted to bail.

William Duesden, a tramp, was given shelter in the barn of Mr. John J. Lyons, on the Dundas road, near Hamilton. During the night the barn was burned and Duesden aroused the family and declared his ignorance of the origin of the fire.

The news comes from Brockville that Gordon H. Manhard, of Manhard, Ont., has just finished an official test of a few of his cows, one of which Pannet Topsy Clothilde, has broken the Canadian record. She made in seven days 30.21 lbs of butter, and in 30 days she made 117.96 lbs. from 2372 lbs of milk. Her best day was 86.65 lbs of milk from which was made 1.57 lbs of butter. This is reported to be the best showing ever reported in Canada for seven or thirty days.

Capt. Christie, of Picton, has purchased the steamer Brockville and will shortly put her into commission on the Bay of Quinte. It is said the price paid was in the neighborhood of \$10,000. The Brockville is said to be a commodious excursion steamer beautifully fitted up, and fit with electricity, and as there is at present a scarcity of excursion boats on the bay, Capt. Christie's investment will no doubt be a profitable one.

A leading conservative stated that if the liberals protested W. F. Nickle's election, the conservative association would, in all probability, arrange that the member-elect resign, and not allow the protest to go to trial. Mr. Nickle, they say, would not wish to get his supporters into trouble, and would no doubt acquiesce to their wishes. The Tories realize that their actions, in this campaign were very vigorous, and have no desire to go to prison. —Kings-

NEW LUMBER YARD

BOYLE & SON,

ODESSA.

Election passed off very quietly here on Monday. Odessa gave M. S. Malone a majority of fifteen.

Mrs. Robert Bennett is very ill with a severe cold.

On Wednesday afternoon, Horace Wilson, a home boy, was brought to the village, suffering from a broken and badly fractured arm, the result of a kick from a horse of E. Mohan's at Sharptop.

W. W. Smith went to Cobourg last Monday to attend the funeral of his sister-in-law, Mrs. Prescott.

Rev. J. A. McCanus, returned on Tuesday from Lindsay, where he was attending conference.

Robert Cairns, who was hurt while playing football, is much better.

C. Hartman has bought the mail route from S. W. Clark.

Mrs. Wyott, of Watertown, N. Y., is visiting her son, W. Wyott.

A quiet wedding was solemnized at Cataraqui on Wednesday, June 10th. The contracting parties were Miss Lena Smith, only daughter of Miles Smith, of this place, and Roy Walker, of Florida.

Sperry Babcock and bride, of Toronto, are spending their honeymoon here.

On Friday evening the public library lawn social was held at James F. Dawson's, when an address was read by the president, J. H. Gardiner, thanking Mrs. George L. Hamm, of Mexico City, for her very generous gift of \$1,250 for the Odessa public library, to which W. S. Herrington, Napanee, replied on behalf of the donor.

The latest rumor in political circles is that Premier Whitney will be urged to retire from provincial politics and throw in his lot with the federal conservatives.

NINETY DEATHS

Bear Silent Witness to the Ravages of Kidney Disease.

An alarming fact—but statistics show that in post mortem examinations 49 to death from all causes, that in over 90 per cent. of such cases kidney disease is present. This almost incredible statement is borne out by years of comparison by most eminent medical men. A warning to humanity that the percentage of those not cured with kidney taint is very small. South American Kidney Cure relieves in six hours—is nature's preventive—clears the clogged parts—heals and permanently cures. (8)

Sold by T. B. Wallace

would, in all probability, arrange that the member-elect resign, and not allow the protest to go to trial. Mr. Nickle, they say, would not wish to get his supporters into trouble, and would no doubt acquiesce to their wishes. The Tories realized that their actions, in this campaign were very vigorous, and have no desire to go to prison.—Kingston Whig.

Mr. B. R. Hepburn has purchased a new power boat, which, it is expected, will be able to trim anything of her class in Eastern waters. She is about 33 feet over all and 4 foot beam. The boat was built at Gananoque and has not as yet been fitted with an engine. It is the intention of the owner to put in a motor which will drive the shell at a rate of about 23 or 24 miles per hour. The new speed boat will be in commission in the near future and will take part in the regatta at Chaumont Bay in August. Here's success to the "Yellow Kid." Picton Times.

FAIR VIEW.

The continued dry weather is causing the pasturage to turn brown. Grain is looking fairly well, but it also needs rain.

Miss Nellie Madden is spending the week with her parents, Mr. and Mrs. R. Madden, York Road.

John Bennett, milk drawer, had a breakdown on Monday and had to get Mrs. Gordonier's waggon to take his load to the factory.

Mrs. Glenn is spending the week with Mrs. Huffman, Deseronto Road.

Mrs. William Fretts, Mrs. Fretts, Jr., Mrs. H. Milling and little daughter were guests of Mrs. J. Milling on Friday.

Miss Sarah Lund has returned home after spending several weeks with friends at Peterborough and Madoc.

Mr. Henderson is preparing to build a new house on his farm, York Road.

Mrs. McTaggart is out again and almost recovered from her broken ankle.

Mrs. F. Thompson has also recovered from her recent illness.

Mr. Allister has his new barn almost finished.

Mr. Hodson is going to pull down and rebuild his house on Victoria st.

John Milling, county road engineer, has taken the stone crusher near Olden and has a gang of men busy.

WHEAT

A House of Mystery

OR, THE GIRL IN BLUE

CHAPTER XIII.

The face of Mabel Anson, my new-found friend and idyll, had in that instant changed. Her countenance was pale as death, while the hand holding the small pencil trembled.

"Whence did you obtain this?" she demanded in an awe-stricken tone, which showed plainly that she recognized it. She held her breath in expectancy.

What could I reply? To explain the truth was impossible, for I had pledged my honor to Edna to preserve the secret. Besides, I had no wish to appear her by the strange story of my midnight adventure. Hence a lie arose involuntarily to my lips.

"I found it," I stammered.

"Found it? Where?"

"I found it when groping about during the time I was blind, and I've carried it ever since, wondering whether one day I should discover its owner."

"It is extraordinary!" she gasped—
"most extraordinary."

"You appear to recognize it," I observed, much puzzled at her attitude. "If you can tell me to whom it belongs I will return it."

She hesitated, and with a quick effort regained her self-control.

"I mean it possesses an extraordinary resemblance to one I have seen many times before—but I suppose there are lots of pencil-cases of the same shape," she added with affected carelessness.

"But there is a curious, unintelligible cypher engraved upon it," I said. "Did you notice it?"

"Yes. It is the engraving which makes me doubt that I know its owner. His

I find it is older, much more battered, and bears initials which have evidently been engraved several years."

"Where did your friend lose his?" I inquired, reflecting upon the lameness of her story. The mere recognition of a lost pencil-case would never have affected her in the manner that sight of this one had if there were not some deeper meaning attached to it.

"I have no idea. Indeed, I am not at all sure that it is not still in his possession."

"And how came you to be so well acquainted with its aspect?" I asked, in eagerness to ascertain the truth.

She hesitated for a few moments. "Because," she faltered—"because it was a present from me."

"To an admirer?"

She did not answer, but even in that dim lamplight I detected the tell-tale flush mounting to her cheeks.

Then, in order, apparently, to cover her confusion, she added—

"I must really go. I shall be late for dinner, and my mother hates to wait for me. Good-bye."

Our hands clasped, our eyes met, and I saw in hers a look of deep mystery, as though she held me in suspicion. Her manner and her identification of that object extracted from the pocket of the dead man were very puzzling.

"Good-bye," I said. "I hope soon to have the pleasure of meeting you again. I have enjoyed this walk of ours immensely."

"When we meet—if ever we do," she answered with a mischievous smile, "remember that I have promised to wear the mask. Good-bye." And she twisted

not—I had been sent to that particular seat to wait. I had remained there in vain, smoking a dozen cigarettes, reading through my paper even to the advertisements, or impatiently watching every person who approached, yet the moment I rose I encountered the very person for whom I had for days past been in active search.

Had Mabel's presence there any connection with the mysterious order which I had obeyed? Upon this point I was filled with indecision. First, what possible connecting link could there be between her natural movements and the letter from that unknown hand? As far as I could discern there was absolutely none. I tried to form theories, but failed. I knew that Mabel attended at the Royal Academy of Music, and what was more natural than that she should cross the Park on her way home? Her way did not lie along the path where I had kept such a watchful vigil and had I not risen and passed towards Grosvenor Gate at that moment we should not have met. There, indeed, seemed no possible combination between the request I had received from my unknown correspondent and her presence there. In my wild imaginings I wonderer whether she were actually the woman whom in my blindness I had known as Edna, but next instant flouted the idea.

The voice, the touch, the hand, all were different. Again her personal appearance was not at all that of the woman described by West, the cabman who had driven me home after my strange adventures.

No; she could not be Edna.

As the train roared through the stifling tunnels Citywards, I strove to arrive at some decision. Puzzled and perplexed at the various phases presented by the enigma which for ever grew more and more complicated, I found any decision an extremely difficult matter. I am not a man given to forming theories upon insufficient evidence, nor jumping to immature conclusions, therefore I calmly and carefully considered each fact in its sequence as related in this narrative. The absence of motives in several instances prevented any logical deduction. Nevertheless, I could not somehow prevent a suspicion arising within me that the appointment made by my anonymous correspondent had some remote connection with my meeting with the woman who had so suddenly come into my life—a mere suspicion, it is true, but the fact that no one had appeared to keep the appointment strengthened it considerably.

Whenever I thought of Mabel, recollections of Channing's strange admonition arose within me. Why had he uttered that warning ere I had been acquainted with her a few hours? To say the least, it was extraordinary. And more especially so as he refused to give any explanation of his reasons.

The one dark spot in my life, now that I had recovered my sight, was the ever-present recollection of that midnight tragedy. Its remembrance held me appalled when I thought of it. And when I reflected upon my own culpability in not giving information to the police, and that in all probability this neglect of mine had allowed the assassin to escape scot-free, I was beside myself with vexation and regret. My thoughts for ever tortured me, being rendered the more bitter by the reflection that I had placed myself in the power of one who remained concealed, and whose identity was inviolable.

As I declared in the opening of this narrative, it seems almost incredible that in these end-of-the-century days a man could find himself in such a plight, surrounded by mysterious enemies, and held in bondage by one unknown and unrevealed. Laboriously I tried to unravel the tangled skein of events and extricate myself, but, tired with the overtask, I found that the mystery grew only more inscrutable.

The woman I loved—the woman to whom I had fondly hoped some day ere long to make the declaration of the secret of my heart—had discovered in my possession an object which might well be viewed as evidence of a foul and cowardly crime. I feared—indeed, I felt assured—that her sweet sympathy had, in an instant been turned to hat-

INDIGESTION

CAN BE CURED

Dr. William's Pink Pills Succeed After Other Remedies Fail.

There are twenty drugs to help your digestion for a time, but there is only one medicine that can positively cure your indigestion for good. To any one with indigestion a half dozen boxes of Dr. Williams' Pink Pills are worth all the purgatives and mixtures in the country. After all these things have failed Dr. Williams' Pink Pills have cured the worst cases of indigestion by going straight to the root of the trouble in the blood.

You can take a purgative to tear through your bowels and make a clean sweep of your food, whether it is digested or not. You can take stomach bitters to create a false appetite—if you don't care what happens after you swallow your meal. You can drug your stomach with tablets and syrups to digest your food for you—if you don't care how soon you ruin your system altogether. You can do all these things—but don't call it "curing your indigestion." There is only one way to cure indigestion, and that is to give your system so much good, pure, red blood that your stomach and liver will have strength enough to do their natural work in a healthy and vigorous way. That is why Dr. Williams' Pink Pills cure indigestion—they actually make new blood. Here is the proof. Mr. R. McCorkell, St. Thomas, Ont., says:—"About a year ago my system became generally wrecked. My stomach was always in a state of nausea. The sight of any kind of food often turned my stomach and I would arise from the table without eating. Doctors advised different medicines which I took with cut benefit. Finally I became so run down that I had to quit work. For two months I tried to build myself up with the aid of doctors, but as time went on and my condition did not improve I became much discouraged. Then a friend told me he thought Dr. Williams' Pink Pills would help me, and I began their use. In three weeks time I was so improved that I went back to my work, but I continued using the pills until I had taken twelve boxes, and now my stomach is strong, and I am ready for a good meal three times a day, and life now really seems worth living."

It is because Dr. Williams' Pink Pills make new, red blood that they cure such common ailments as anaemia, with all its headaches and backaches, rheumatism, neuralgia, St. Vitus' dance, partial paralysis and the secret ailments from which women and young girls suffer so much. You can get the pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

CRIMINALS MEN OF SCIENCE.

To Outwit Them Detectives Must Make Use of Modern Methods.

The methods employed by criminals have "improved." They have become scientific, most scientific. The criminal of to-day handles chloroform, opium, morphia, with all the cleverness of a physician.

Again, the tools used by the modern jailbird are unrivaled masterpieces. One amazing proof of the scientific knowledge of the modern criminal and his keenness in keeping abreast of modern discoveries lies in the following fact: Recently in Marseilles the huge safe of a bank was rapidly opened by means of a complicated apparatus which had only been invented by a prominent engineer ten months previously!

But the detective also avails himself of scientific discovery. Formerly in cases of forgery, for instance, a drop of water was placed on the forged words. If the paper had been scratched and its size

my resemblance to one I have seen many times before—but I suppose there are lots of pencil-cases of the same shape," she added with affected carelessness.

"But there is a curious, unintelligible cypher engraved upon it," I said. "Did you notice it?"

"Yes. It is the engraving which makes me doubt that I know its owner. His initials were not these."

"You speak in the past tense?" I observed. "Why?"

"Because—well, because we are no longer friends—if you desire to know the truth," and she handed me back the object, which, with the dress-stud, formed the only clue I had to the identity of the unfortunate victim of the assassin.

There was something in her manner which was to me the reverse of convincing. I felt absolutely certain that this unimportant object had, in reality, been identified by her, and that with some hidden motive she was now intentionally misleading me.

"Then you do not believe that this really belonged to your friend?" I asked, holding it up to her gaze.

"No," she answered quickly, averting her face as though sight of it were vexious. "I feel certain that it did not, its resemblance is striking—that's all."

"It would have been a remarkable coincidence if it really were the property of your friend," I said.

"Very remarkable," she admitted, stopping regarding me strangely. "Yet the truth saying that 'The world is small' is nevertheless very true. When I first saw it I felt certain it belonged to a gentleman I knew, but on closer examination

the dead man were very puzzling.

"Good-bye," I said. "I hope soon to have the pleasure of meeting you again. I have enjoyed this walk of ours immensely."

"When we meet—if ever we do," she answered with a mischievous smile, "remember that I have promised to wear the mask. Good-bye." And she twisted her skirts gracefully, entered the cub, and a moment later was driven off, leaving me alone on the kerb.

I hesitated whether to return home by bus or Underground Railways, but, deciding on the latter, continued along the High Street to the station, and journeyed to the Temple by that sulphurous region of dirt and darkness known as the "Inner Circle."

The reader may readily imagine how filled with conflicting thoughts was my mind on that homeward journey. Although I adored Mabel Anson with a love beyond all bounds, and would on that evening have declared my passion for her had I dared, yet I could not disgorge from myself that sight of the pencil-case I had taken from the dead unknown had wrought an instant and extraordinary change in her.

She had identified it. Of that fact there was no doubt.

Her lame explanation that it bore a resemblance to the one she had given to her friend was too palpably an afterthought. I was vexed that she should have thus attempted a deception. It was certainly true that one gold pencil-case is very like another, and that a Birmingham maker may turn out a thousand of similar pattern, yet the intricate cypher engraved on the one in question was sufficient by which to identify it. It was these very initials which had caused her to deny that it was really the one she had purchased and presented; yet I felt convinced that what she had told me was untrue, and that those very initials had been placed upon it by her order.

Again, had she not spoken of its owner in the past tense? This, in itself, was a very suspicious circumstance, and led me to the belief that she was aware of his death. If he were dead, then certainly he would no longer be her friend. Her sudden and abject amazement at seeing the pencil in my hand; her exclamation of surprise; her eagerness to examine it; all were facts which showed plainly that she knew that it remained no longer in his possession, and was yet dumbfounded to find it in my hand. Had she not also regarded me with evident suspicion? Perhaps, having identified her present, she suspected me of foul play?

The thought held me petrified. For ought I knew she might be well aware of that man's tragic end, and the discovery of part of his property in my possession was to her evidence that I had committed murder.

My position was certainly growing serious. I detected in the rather formal manner in which she took leave of me a disinclination to shake my hand. Perhaps she believed it to be the hand of the murderer. Indeed, my declaration that I had found that incriminating object was in itself sufficient to strengthen her suspicion if, as seemed quite probable, she was aware of her friend's tragic end. Yet I had really found it. It was no lie. I had found it in his pocket, and taken it as a clue by which afterwards to identify him.

Now, if it were true that the man who had been struck dead at my side was actually Mabel's friend, then I was within measurable distance of elucidating the mystery of that fatal night and ascertaining the identity of the mysterious Edna, and also of that ruler of my destiny who corresponded with me under the pseudonym of "Avel."

This thought caused me to revert to that hour when I had sat upon the seat in the Park, keeping a tryst with some person unknown. Seated in the corner of the railway-carriage I calmly reflected. More than a coincidence it seemed that at the moment my patience became exhausted, and I rose to leave the spot my mysterious correspondent had appointed for the meeting, I should have come face to face with the woman whose grace and beauty held me beneath their spell. For some purpose—what I knew

The woman I loved—the woman to whom I had fondly hoped some day enough to make the declaration of the secret of my heart—had discovered in my possession an object which might well be viewed as evidence of a foul and cowardly crime. I feared—indeed, I felt assured—that her sweet sympathy had, in an instant been turned to hatred.

I loved her. I adored her with all the strength of my being, and I knew that without her my life is, the future must only be an aimless blank. In the sweetest natures there can be no completeness and consistency without moral energy, and that Mabel possessed it was plainly shown. In her confidences with me as we traversed the Park and Kensington Gardens she had shown, with the most perfect artlessness, that she had that instinctive unconscious address of her sex which always renders a woman doubly charming. Persons who unite great sensibility and lively fancy possess unconsciously the power of placing themselves in the position of another, and imagining rather than perceiving what is in their hearts. A few women possess this faculty, but men never. It is not inconsistent with extreme simplicity of character, and quite distinct from that kind of art which is the result of natural acuteness and habits of observation—quicker to receive the foibles of others, and as quick to turn them to its own purpose; which is always conscious of itself, and if untried with strong intellect, seldom perceptible to others.

In her chat with me she had no design formed or conclusion previously drawn, but her intuitive quickness of feeling, added to her imagination, caused her to half-confide in me her deepest secret. Her compassionate disposition, her exceeding gentleness, which gave the prevailing tone to her character, her modesty, her tenderness, her grace, her almost ethereal refinement and delicacy, all showed a true poetic nature within, while her dark, fathomless eyes betrayed that energy of passion which gave her character its concentrated power.

Was it any wonder, even though she might have been betrayed into a momentary conversation, that I bowed and worshipped her? She was my ideal; her personal beauty and the tender sweetness of her character were alike perfect. Therefore my love for her was a passion—that headlong vehemence, that fluttering and hope, fear and transport, that giddy intoxication of heart and sense which belongs to the novelty of true love which we feel once, and but once, in our lives.

Yet I was held perplexed and powerless by her unexpected and unacknowledged indentification of that clue to the unknown dead.

(To be continued.)

A SPLENDID PRESCRIPTION.

For Rheumatism, and all Kidney, Liver, Bladder and Urinary Affections.

An eminent physician informs us that he has used the following prescription in his practice for a number of years and found it very successful in the treatment of kidney, liver, bladder and urinary affections, and is unsurpassed for the cure of rheumatism, driving the uric acid entirely from the system. He claims that a very few doses will relieve the most severe pains in the back arising from disordered kidneys and impure blood.

The prescription is one ounce of sweet spirits of nitre, one ounce of compound vinoosa and four ounces of syrup of rhubarb, taken in dessert-spoonful doses in water, after meals and at bedtime. These ingredients are harmless and inexpensive and can be obtained at any reliable drug store and mixed together at home.

SAFE MEASURE.

Wise Father (to married son)—"You're living very comfortably, I see, but are you saving any money?"

Wise Son (whispering)—"Yes; but don't tell my wife."

rapidly opened by means of a complicated apparatus which had only been invented by a prominent engineer ten months previously!

But the detective also avails himself of scientific discovery. Formerly in cases of forgery, for instance, a drop of water was placed on the forged words. If the paper had been scratched and its size removed the water was immediately stuck in, if the paper had not been scratched the drop remained for a while on the top. This process was primitive and spoiled the document.

Nowadays the suspicious paper is photographed and on the proof the marks of scratching are easily detected by clear differences in the color. Photography is used also in the case of forgeries made by means of chemicals.

When a heap of burned documents is found in the fireplace thin sheets of glass are inserted between the burned papers. As soon as one sheet is on the glass it

CHILDHOOD DANGERS.

No symptom that indicates any of the ailments of childhood should be allowed to pass without prompt attention. The little ailment may soon become a serious one, and perhaps a little life passes out. If Baby's Own Tablets are kept in the house minor troubles can be promptly cured and serious ailments thus avoided. And the Tablets can be given with equal safety to the new born babe or to the well grown child. Mrs. H. Gendron, Martville, Que., says: "I have used Baby's Own Tablets and have found them in every way satisfactory. I always feel safe when I have them at hand." Sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

CAPTURING AN ENGINE.

How a Plucky Engineer Overtook a Runaway on English Railway.

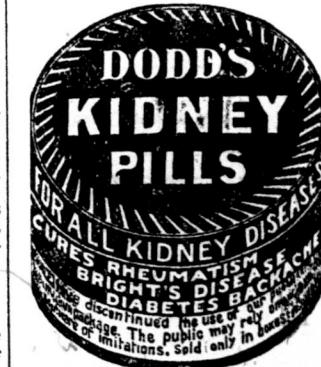

One of the finest stories in the history of the railways centres round a runaway engine on the Stockton and Darlington line, says the London Standard.

The engine was observed by the driver of another and more powerful one. Seeing the fugitive speeding in the direction of Darlington he uncoupled his own engine, crossed the points and set out in pursuit on the same line. It was a long chase, but the pursuer, driven at top speed, gradually overhauled the runaway.

At last it came near enough for the driver to crawl to the front of his engine and drop a stout chain over the tender hook of the other. He returned to his footplate, shut off steam and screwed down his brake.

This staid the one in front and so retarded its pace that the driver was able now to creep from his own engine on to the runaway, put on the brake, and bring it to a standstill, almost in the crowded Darlington Station.

Most men fire up when you throw cold water on their schemes.

CURIOS MARRIAGE CUSTOMS.

Among the Indian Gonds a bride is carried on her brother-in-law's back to the house of her friends, and is made to weep with each of them, while they give her small presents of money. When the ceremony is about to be performed at the bridegroom's house the bride hides in another house, and calls "Coo!" and the bridegroom's brother-in-law searches for her. As she enters the bridegroom's house two spears are planted before the door to make an arch, and the bridegroom pushes her through the girl hanging back. On the day after the wedding the bride and bridegroom throw mud at each other for sport. Among the Marars, all the women of the bridegroom's party are shut up in a house with the bride's sister's husband. They all set upon him, and beat him, so that he is usually glad to escape as soon as possible.

NO SCOOP ON A.A.

"Millie," said the young man, as he slipped the engagement ring on her finger, have you told your mother about this?"

"O, you innocent!" exclaimed Miss Millie. "Why, Clarence, mamma knew it six months before you did."

"THE NEW FOOD"

Have you tried a package of "THE NEW FOOD"? It is made of the Choicest White Wheat, then steam-cooked and flaked. No kitchen can produce a better made or cleaner article for human consumption. In order to introduce

"THE NEW FOOD"

a prize has been placed in every package. Already THIRTY-SIX Blue Cards calling for LADIES' GOLD WATCHES, have been redeemed, and SEVENTY-FIVE Red Cards. Each one of these cards has been found in package of "THE NEW FOOD."

The Red Cards give the finder the choice of the following articles:

Boys' Nickel Watch.
"Our Pride" Gold Nib Fountain Pen.

Bureau Cover, Duchess Pattern, Four Pieces.

Table Cover, One Yard Square, Damask.

Baby Ring, Solid Gold.

Sideboard Covers, Two Yards Long.

to jar it out of kilter; and my boys are just as likely to drop their watches on the sidewalk as they are to drop them at home, and they've simply got to have watches, and so a good part of my income goes in keeping them thus supplied.

"Yes, I've thought of buying stock of the company whose watches I buy for my boys' use, and thus, through the dividends, getting the watches practically at a lower cost; but while this would be saving something, still it would only be a sort of makeshift position. What I want is a watch that won't break when it is dropped; and I have given this subject some thought.

"It seemed to me at first that maybe an outer case or covering of some sort would do, a case cushioned all around inside, in which the watch could be carried when worn, the interior cushioning being designed to break the shock on the watch when it fell and so preserve the machinery from derangement. And I thought that this would do all right, and I think so still, but the trouble about it would be that a watch with such an outer protection case around it wouldn't look like the other fellers' watches, and I am afraid that would be fatal objection; the boys wouldn't carry them; and so I have given up that idea, and what strikes me now as the thing is this:

"You want a watch having all around the works, out of sight with the usual regular case, a series of springs, these springs to be sufficiently elastic and yet sufficiently strong to serve as shock absorbers, and so arranged that they would save the watch wherever and in whatever way you dropped it. That's what we want—a watch that shall look outwardly like any other watch, but that won't break when you drop it.

"And don't you think you see something in this? Don't you know that there are millions of fathers now even buying for their boys from four to twelve watches a year who would snap, fairly snap, at a chance to buy a watch that wouldn't break when dropped?

"I tell you that there's money—van loads of money—waiting for the man that invents a boy's nonbreakable watch. All he'll have to do will be to put the watch on the market and cart the money away."

A. J. PATTISON & CO. REPORT.

June 3rd, 1908.

COBALT ORE SHIPMENTS.

Following are the weekly shipments from Cobalt camp, and those from Jan. 1 to date:

	Week end	
May 30. Since Jan. 1.	Since Jan. 1.	Ore in lbs. Ore in lbs.
Buffalo	610,810
Canigas	62,030
Cobalt Lake	505,560
Crown Reserve	246,455
Cobalt Central	40,000

Temiskaming	599,000
Tiethewey	325,390
Watts	997,456
Watts	124,850
Watts	180,430

The total shipments for the week were 919,020 pounds, or 455 tons. The total shipments from Jan. 1 to date are 14,128,248 pounds, or 7064 tons. The total shipments for the year 1907 were 28,081,010 pounds, or 14,040 tons, valued at \$6,000,000. In 1904 the camp produced 158 tons, valued at \$130,217; in 1905, 2144 tons, valued at \$1,473,196; in 1906, 5129 tons, valued at \$3,900,000.

HEADACHE, WEAKNESS, HEART TROUBLE

"I Suffered With for Years—Peru-na Cured Me Entirely."

Miss Albina Chauvin, No. 50 Rue Agnes, St. Henri, Montreal, Can., writes:

"I consider Peru-na better than any other remedy, as it cured me when nothing else could. I suffered for years and years with heart trouble, headache and weakness. I never expected to find anything to cure me. I saw one day, in "La Presse," that Peru-na was excellent and I tried it. One bottle produced a change in me and if the price had been \$100 a bottle I would have paid it gladly. I have taken six bottles and am entirely cured. Please accept my thanks and best wishes for your Peru-na."

"Please Accept My
Thanks and Best
Wishes For Your
PE-RU-NA."

ALBINA CHAUVIN

Many cases of heart trouble are caused by reflex disturbances.

Derangements of the stomach and liver produce symptoms of heart trouble.

Catarrh of the stomach is a very frequent cause of sympathetic heart disease.

Palpitation, shortness of breath and bloating after meals are the most prominent symptoms.

Manufactured by Peruna Drug Manufac-

Such a condition of the stomach is also liable to produce headaches of the worst sort.

Medicines that palliate the symptoms will never lead to a cure.

It is the effect which Peruna has upon the stomach, healing the mucous membranes and restoring the natural function of the stomach, that causes Peruna to bring such prompt relief.

Manufacturing Company, Columbus, Ohio, U.S.A.

HARMONIZED.

Papa Tilerox—"What! You want to become engaged to that measly little Simpkins? Why, he isn't a bit of use."

Tottie Tilerox—"Why, papa, he is perfectly lovely. His hair and complexion match my new spring suit exactly, so there!"

In Abyssinia, the house and its contents belong to the wife.

TONS OF IRON consumed each year in medicine. In "Ferrovim," the best tonic, it is so cleverly manipulated that the weak and sickly get all possible nourishment and benefit from it.

DIVERGING.

Husband—"I'm afraid I'm becoming cross-eyed, my dear."

Wife—"The ideal! Why do you think that?"

Husband—"This thing of trying to look at my income and our expenses at the same time is slowly but surely getting its work in."

SELFISHNESS.

"Why do you say that Brown is selfish?"

"Because he always wants the things that I want myself."

Corns cause intolerable pain. Holloway's Corn Cure removes the trouble. Try it, and see what amount of pain is saved.

RIGHT.

Teacher—"If a vehicle with two wheels is a bicycle, and one with three wheels a tricycle, what is one with one wheel?"

Scholar—"A wheelbarrow."

The Demon, Dyspepsia.—In olden times it was a popular belief that demons moved invisibly through the ambient air, seeking to enter into men and trouble them. At the present day the demon, dyspepsia, is at large in the same way, seeking habitation in those who by careless or unwise living invite

Ask your grocer for a package of
"THE NEW FOOD."

STILL POSSIBLE.

Clara—"When Tom proposed to me he
admitted that he had more money than
brains."

Maude—"Well, I've no reason to doubt
it, although I understand he hasn't a dol-
lar to his name."

A Magic Pill.—Dyspepsia is a foe with
which men are constantly grappling
but cannot exterminate. Subdued, and
to all appearances vanquished in one, it
makes its appearance in another direc-
tion. In many the digestive apparatus
is as delicate as the mechanism of a
watch or scientific instrument in which
even a breath of air will make a varia-
tion. With such persons disorders of
the stomach ensue from the most trivial
causes and cause much suffering. To
these Parmelee's Vegetable Pills are re-
commended as mild and sure.

TRUE.

Use your precious time as you knew
the value of it—which means that you
should not crack nuts with your gold
watch.

PANGO.

Is highly recommended as affording in-
stant relief from pain—Neuralgia, Head-
ache, Gout, Rheumatism, Catarrhal
Colds. Sample, 50 cents. All druggists
or Lyman Bros. & Co., wholesale drug-
gists, Toronto.

Sometimes a woman after paying \$20
for a hat tells her friends it cost \$30, and
her husband that it cost \$10.

LAZY OLD SORES, painful and disfiguring,
will not linger long after treatment with Weaver's
Cerata has been begun: Also, cleanse the blood
with Weaver's Syrup.

Mrs. A—"Men are so queer after the
honey-moon. If you tell them your love
is growing cold they don't even glance
up from their newspapers." Mrs. X.—
"No; but tell them the soup is growing
cold and they jump about ten feet."

The superiority of Mother Graves'
Worm Exterminator is shown by its
good effects on the children. Purchase
a bottle and give it a trial.

CALL FOR A NEW WATCH.

Namely, One That Won't Break When
Dropped on the Sidewalk.

"You know, I think," said the father
of two boys, "that there's a large chance,
a great chance, for a man who should
invent a watch that wouldn't break
when you dropped it. I think so."

"Of course, watches are not intended
to be dropped; they are intended to be
carried in the pocket; and so nobody
has thought of inventing an anti-break-
able-when-dropped watch; but of the
great call for one every father of boys
knows anyway, and to his great cost.
"I have two boys, each of whom car-
ries a watch, and they drop their watch-
es, indoors and out, on an average, I
should say, of three times a month; and
while from the height at which a small
boy carries it you can drop a watch on
a thick rug perhaps without serious
injury to it, to drop it even from that ele-
vation on the sidewalk is almost certain

shipments from Jan. 1 to date are 14-
12, 248 pounds, or 7064 tons. The total
shipments for the year 1907 were 28,-
0,101 pounds, or 14,040 tons, valued at
\$6,000,000. In 1904 the camp produced
158 tons, valued at \$130,217; in
1915, 2144 tons, valued at \$1,473,196; in
1906, 5129 tons, valued at \$3,900,000.

HER DREAM.

Lady (engaging cook)—"Why did you
leave your last place?"

Bridget Maloney—"Who, mum, the
mistress said she couldn't do without me,
so I came to the conclusion that I was
worth more than she was givin' me, and
left at wanst!"

PANGO.

Money paid will be refunded where
Pango fails, when applied as directed,
to relieve pain. Specially recommended
for Neuralgia, Headache, Rheumatism,
Gout, Catarrhal Colds, etc. For sale 50
cents at all druggists or Lyman, Knox
& Clarkson, wholesale druggists, To-
ronto.

CHINESE TO SAVE FORESTS.

School of Forestry Soon to be Opened
—Where Wood is Scarce.

The Chinese are saving their forests.
The almost worldwide movement to pro-
tect and establish forests has reached
the Celestial Empire, and the first Chi-
nese school of forestry shortly will be
opened in Mukden.

The Chinese realm sometimes is pointed
out as the worst example among
modern nations of forest destruction.
The floods which periodically are poured
down from the denuded mountains are destructive beyond comparison with
those of any other country, and the want
of forests is assigned as the chief cause.

Wood is scarcer in China than in almost
any other inhabited region of the
world, although the country is well
adapted to the growing of trees. In the
establishment of a forest school the Chi-
nese Government gives evidence that it
realizes the need of beginning its re-
forestation in a scientific manner.

It is the Farmer's Friend.—The farmer
will find in Dr. Thomas' Electric
Oil a potent remedy for wounds or
pains in the body or for afflictions of
the respiratory organs and for house-
hold use generally. He will also find it
a convenient friend in treating injured
horses, cattle, etc., or relieving them
when attacked by colds, coughs or any
kindred ailments to which they are sub-
ject.

POOR PASTURE.

Student—"Something is preying on my
mind."

Professor—"It must be very hungry."

PANGO.

Will afford instant relief from pain
caused by Neuralgia, Headaches, Gout,
Rheumatism, Catarrhal Colds. Sample
50 cents. All druggists or National
Drug Co., London.

GREAT RELIEF.

The other day, when Mr. Avery mar-
ried Miss Small, a sub-editor headed the
report of the ceremony "Avery-Small
Wedding," but the compositor knew bet-
ter and set it up, "A very Small Wed-
ding."

**Black
Watch** Remark-
able for
richness
and
pleasing
flavor. The big black
plug chewing tobacco.

2287

Husband—"I'm afraid I'm becoming
cross-eyed, my dear."

Wife—"The ideal! Why do you think
that?"

Husband—"This thing of trying to look
at my income and our expenses at the
same time is slowly but surely getting
its work in."

The change of dietary that comes with
spring and summer has the effect in
weak stomachs of setting up inflammation,
resulting in dysentery and cholera
morbus. The abnormal condition will
continue if not attended to and will
cause an exhaustive drain on the System.
The best available medicine is Dr.
J. D. Kellogg's Dysentery Cordial.
It clears the stomach and bowels of irrit-
ants, counteracts the inflammation and
restores the organs to healthy action.

DELAYED.

She (in evening costume)—"Is not my
dress becoming, dear?"

He—"Well, it may be coming, but is
not some of it rather late?"

The Demon, Dyspepsia.—In olden
times it was a popular belief that de-
mons moved invisibly through the am-
bient air, seeking to enter into men
and trouble them. At the present day
the demon, dyspepsia, is at large in the
same way, seeking habitation in those
who by careless or unwise living invite
him. And once he enters a man it is
difficult to dislodge him. He that finds
himself so possessed should know that a
valiant friend to do battle for him with
the unseen foe is Parmelee's Vegetable
Pills, which are ever ready for the trial.

GOOD CROPS AND ECONOMY

Two Things Mr. Byron E. Walker Says Canada Needs.

A despatch from Toronto says: "What Canada needs is a good crop and a year of economy. That will bring us back to normal."

This was the statement Mr. Byron E. Walker, President of the Bank of Commerce, made on Wednesday, regarding the outlook this year. The bank has received crop reports from all over the west, and the outlook is said to be particularly hopeful.

"A good crop would not alone be sufficient," continued Mr. Walker, "and perhaps it is because we have not been badly enough punished that we do not fully realize that. The West may think that the depression was caused by a bad crop. As a matter of fact the bad crop was only an incident. The depression would have come without it. In the States they had good crops, got more for their cereals, and their cotton before, but they had worse trouble financially than Canada had."

The real cause of depression was the tendency and the practice of people in living ahead of themselves. If there is a splendid crop and Canadians have not learned their lesson, they will start cutting the same wide swath of over-expenditure. Then there will be the same inevitable trouble following. The country needs a year of economy.

The natural result of a good crop will be that money will be easier. Municipalities will find themselves able to sell their bonds. Some of them, per-

haps, will take advantage of this to plunge into improvements on the old large scale. This will not be justified, for the country needs caution as well as crop."

A despatch from Montreal says: In an interview Sir George Drummond, President of the Bank of Montreal, spoke in generally favorable terms as to the outlook of business throughout the country. Sir George said that he did not expect to see a complete recovery of trade conditions in a very near future, but with good crops the Dominion would surely experience complete renewal of its trade activities.

"A great deal," continued Sir George, "necessarily depends on the success of our next harvest, and from present indications there is every reason to expect bountiful crops. There is as much money in Canada to-day as ever; but one sees a certain lack of present confidence, which, however, will gradually disappear. In some quarters people are asking for cheaper money, but I do not expect to see lower rates in Canada, at least for the present."

"I am of the opinion that speculation in stocks or business generally should be discouraged, as present business conditions do not warrant it. However, I fail to see any reason for uneasiness, as all signs indicate that there will be steady and certain recovery in all lines of products and industries."

BREADSTUFFS.

Toronto, June 16.—Ontario Wheat—No. 2, white and red in rather free supply, between 86c and 87c outside; No. 2 mixed, a little lower on same basis.

Manitoba Wheat—Dull market; quotations at Georgian Bay ports, No. 1 northern, \$1.09; No. 2 northern, \$1.06; No. 3 northern, \$1.03%.

Oats—No. 2 white, comparatively steady, between 46c and 47c outside; No. 2 mixed, 44c.

Corn—No. 3 yellow, offering lower at 79c to 80c, but still above the market; no business.

Flour—Manitoba patents special brands, 86c; seconds, 85.40; strong bakers', 85.30; winter wheat patents, easier, offering now at 83.30.

Barley—No. 2, fairly plentiful at 55c to 58c.

Peas—No. 2, practically all gone; nominal price 92c.

Rye—No. 2, some inquiry, but none offering; quotation about 88c.

Buckwheat—No. 2, market pretty well cleaned up; nominally quoted 64% to 65c.

Brani—Prices begin to decline; offered outside at \$18.50 to \$19; about \$20.50 track here.

Shorts—\$21 outside.

COUNTRY PRODUCE.

Wholesale quotations are:—

Eggs—New-laid, 17c to 17%.

Honey—Strained steady at 11c to 12c per pound for 60-pound pails, and 12c to 13c for 5 to 10-pound pails. Combs at \$1.75 to \$2.50 per dozen.

Butter—The market is steady, but prices are not yet down to a storage or export level.

Creamery, prints 21c to 22c
do solids 19c to 20c

Dairy prints, choice 18c to 19c
do prints, ordinary 16c to 18c
do tub 17c to 18c

Inferior 15c to 16c

Potatoes—Prices of Ontarios are about 10c lower. Very few Delawares are coming through now; Ontarios, 70c to 80c; Delaware, 90c to 95c in car lots on track here.

Beans—\$1.90 to \$2 for primes, and \$2 to \$2.10 for hand-picked.

Cheese—Per pound, 11% to 12c.

Baled Straw—At 87.50 to \$8.50.

Baled Hay—Timothy is quoted at \$11 to \$12 per ton in car lots on track here.

PROVISIONS.

Pork—Short cut, \$22 to \$22.50 per barrel; mess, \$18.50 to \$19.

Lard—Tierces, 11%c; tubs, 12c; pails, 12%.

Smoked and Dry Salted Meats—Long clear bacon, 10% to 11c; tons and cases; hams, medium and light, 13%c to 14c; hams, large, 11% to 12c; backs, 16c to 16%c; shoulders, 9%c to 10c; rolls, 10c to 10%c; breakfast bacon, 14c to 15c; green meats, out of pickle, 1c less than smoked.

MONTREAL MARKETS.

Montreal, June 16.—Flour—Manitoba spring wheat patents, \$6.10 to \$6.20; second patents, \$5.50 to \$5.70; winter wheat patents, \$5.25 to \$5.75; straight rollers, \$4.25 to \$4.50; in bags, \$2 to \$2.15; extra, \$1.50 to \$1.75.

Rolled Oats—\$2.75 in bags of 90 pounds.

Oats—No. 2, 52c to 53c; No. 3, 49c to 50c; No. 4, 48c to 48%c; rejected, 46% to 47c; Manitoba rejected, 48c to 48%.

Commeal—\$1.75 to \$1.85 per bag.

Millfeed—Ontario bran in bags, \$21 to \$22; shorts, \$23 to \$24; Manitoba bran in bags, \$23; shorts, \$24 to \$25.

Butter—is quoted at a wide range, 20c to 22% per pound.

Fashion Hints.

FADS AND FANCIES.

This is a day and a season of costs. Bows of lace now have a touch of colored embroidery.

There is nothing English about new fashions; they are altogether French.

Noisy accessories as a rule accompany the quietest of the new tailor made.

Parasols of pink lined tan linen with white tips and handles are pretty and fashionable.

The long coat is called the paletot. The prettiest variation of it is in colored muslin.

A necklace and bracelet of cameos, connected with gold chains, have ear-rings to match.

Two silver quills, caught with a rosette of tulle, can be arranged in many different ways in the hair.

One of the smartest fashions of the summer is the long, half-loose, ornate coat worn over thin lingerie gowns.

The noisy waistcoat and hat are worn with the quietest and neatest of suits. In fine black or navy or gray herring-bone serge.

The turn over collar is as fashionable as ever with a shirt waist or shirt waist suit, but it does not belong to the jumper.

The guimpe for summer dresses will be pretty made of embroidered filet net, of embroidered batiste or swiss, or of sheer lawn with a lace finish.

Driving gloves of gray suede and soft brown leather are useful. The leather palm is stitched to prevent the fingers from wearing out the gloves.

It was natural that as soon as all the coral tones became the ultra-fashion, the revival of coral jewelry would begin; it is now in full force.

The new conventional sailor is a little higher in crown than formerly, but the brim is about the same. The new sailor is a special feature.

Narrow silk caravals, with long fringed ends of small silk covered acorns are frequently the magnet to attract the eye to a modish confection of net and lace.

Some of the hats have such balloon, bomb, tymbal and cone-shaped crowns of such enormous dimensions that the brims look dwarfish in comparison with them.

The college colors in stripes have disappeared and a ribbon the width of the crown has a plain foundation with the colors woven in a design not unlike those seen in Japanese matting.

There seems to be a good many mistaken ideas about the materials used for guimpes. They are made of silks, chintz, or taffeta, or embroidered cashmere, or tucke lansdowne or lined net.

The hat itself need not be the same color as the coat, but it should have ribbon to correspond. As many of the new straw hats are faced with colored satin, this idea is used to carry out the color scheme.

All over lace or wide lace insertion are used as guimpes for handsome linjer jumper frocks worn in the afternoon, but even then the guimpe is more suitable and really prettier when made of lace, inserted with muslin.

There is a rivalry between fluffy and soft trimmings, with regard to the new models, with a tendency towards the latter, such as wings, birds' breasts, golden pheasants, parrots' tails, and quills. This is true of hats of the simpler type.

The fine, smooth herringbone serge of which the grain is so fine that one cannot distinguish the warp and the weft are being made up by the smartest tailors; it is impossible to have anything finer for the tailored suit than the fine faced cloth for the frock.

Most of the firms are now showing inexpensive but pretty waistcoats of coarse colored linen, bound with braid or a contrasting linen, and these are so nice for morning wear, with a tailory set to match, just as the brocade waist-

THE EVIL OF IMPURE MILK

Causes the Death of 15,000 Children in Canada Yearly.

A despatch from Ottawa says: A number of valuable papers on subjects relating to the medical profession were given at Wednesday's sessions of the Canadian Medical Association. Dr. C. J. O. Hastings of Toronto, in a paper on the importance of pure milk, read before the section on public health, declared that impure milk was primarily responsible for the loss of 15,000 of the

30,000 children who die annually in Canada. He strongly urged a more stringent inspection of the milk supply in every municipality, and he emphasized the paramount importance of the proper pasteurizing of milk in all dairies. At the conclusion of the paper a committee was appointed to wait on the Government with a view to securing more stringent regulations governing municipal inspection.

ANCIENT SHIP ON ARCTIC HILLS.

Klondike Miner Brings Word of Strange Craft.

A despatch from Seattle, Wash., says: Practical confirmation of a weird story growing out of the earlier days of the Klondike gold stampede, of the finding of the hull of a ship high upon the hills within the Arctic circle, is furnished by N. J. Brown, a well-known miner, just arrived at Dawson. Brown located the strange craft, which, he says, is still in a fair state of preservation, on a hill-side overlooking a chain of lakes from 40 to 50 miles from the head of the Chandalar River and possibly 200 miles from the Arctic circle. Brown says the big structure has crude doors and windows in the upper works similar to those of a ship, and bears letters or hieroglyphics which baffle translation by those who have seen it. Russians and

MAN DEAD, WIFE MAY DIE.

Brutal Murder Committed in Vancouver on Saturday.

A despatch from Vancouver, B. C., says: A waterfront murder of a most brutal type occurred early on Saturday morning. The victim was an Irish fisherman named Pat O'Brien. His throat was cut from ear to ear. He had been dead probably ten hours when the police became aware that a crime had been committed. The dead man's Indian wife was also frightfully injured. Her throat is cut and gashed, and though she was taken to the General Hospital and is still alive, it will be almost a miracle if she recovers. A negro, name unknown, is suspected of the terrible crime. The killing followed a row in which liquor played a prominent part. The police on Saturday night arrested a negro named James Moor, who has

is cut and gashed, and though she was taken to the General Hospital and is still alive, it will be almost a miracle if she recovers. A negro, name unknown, is suspected of the terrible crime. The killing followed a row in which liquor played a prominent part. The police on Saturday night arrested a negro named James Moor, who has been identified as the man seen hanging around the scene of the murder.

TWO BROTHERS DROWNED.

Their Boat Upset While Fishing at Cornwall.

A despatch from Cornwall says: Two young Englishmen, James and Albert Lillie, aged respectively 18 and 12 years, were drowned in the St. Lawrence here on Saturday afternoon. The Lillies came here about a year ago from Elgin, England, and although unfamiliar with the currents and eddies of the St. Lawrence they were fond of fishing. They were in a boat about 75 yards from shore when the current from the by-wash at lock 17 upset their craft. The older boy held on to the boat till he saw a lad named Archambault coming to Alfred's assistance, when he let go. Archambault, fearing that the two drowning boys would pull him under, turned back. Neither of the Lillies could swim, and they soon disappeared.

DIED IN HIS CHURCH PEW.

Sudden End of Daniel McIntosh, an Aged Man.

A despatch from Toronto says: While sitting in his pew in Chalmers Presbyterian Church on Sunday morning, Mr. Daniel McIntosh, an aged member, and an elder of the church, suddenly fell over dead. He had walked to the church from his home at 135 Beatrice street, and upon his arrival there had complained of shortness of breath. He was not in his seat more than a few moments when he expired. Rev. Mr. McPherson, the pastor, was so much affected that when news came from the vestry, to which Mr. McIntosh had been removed, that death had followed the attack, he dismissed the congregation.

A MONTREAL MOONSHINER.

A Whiskey Still Was Found in the Heart of the City.

A despatch from Montreal says: An illicit still has been found in the factory of A. L. David, Visitation street, this city, by inland revenue officers. Two hundred gallons of "moonshine" whiskey and a still were seized. David was arrested and will be tried.

site overlooking a chain of lakes from 40 to 50 miles from the head of the Chandalar River and possibly 200 miles from the Arctic circle. Brown says the big structure has crude doors and windows in the upper works similar to those of a ship, and bears letters or hieroglyphics which baffle translation by those who have seen it, Russians and natives alike.

DEATH BY GASOLINE FUMES.

Italian Suffocated While in Pit at Stratford Shops.

A despatch from Stratford says: An extraordinary fatality occurred at the G. T. R. shops here on Friday afternoon when Antonio Pasquale, an Italian workman, was asphyxiated by gasoline gas while working at the bottom of an underground reservoir pit. A companion, who was with him at the time drawing gasoline, was also rendered unconscious, but was finally resuscitated. The rescued man says Pasquale complained of a headache and sat down. He seated himself beside him, but could not get up. Pasquale's head dropped and then he fell in a heap. At this stage he himself lost consciousness and his memory was a blank until he opened his eyes in the outer air.

EARLY AND GOOD.

Fine Sample of Growing Wheat From Springhill District, Man.

A despatch from Neepawa, Manitoba, says: Wheat 21 inches high was brought into the registry office on Saturday by Sparke Ward of Springhill district. It shows the shot blade plainly and the head is at the lowest joint. It was pulled from a field of summer fallow, which from this indication should ripen about August 4th. Apparently an average season from now till harvest will bring an excellent crop of wheat, ripe not later than August 10th.

MUST PAY TO FISH.

New York State Will Charge Canadians a Fee.

A despatch from Albany, N. Y., says: State Forest, Fish and Game Commissioner Whipple on Wednesday announced that the State would exact a fee from all Canadian fishermen fishing in New York State waters along the border line. The tax will be \$5 for a single rod, and \$10 for a family rod. This action is taken as a result of the Canadian Government imposing a similar fee upon American fishermen using Canadian waters.

Oats—No. 2, 52c to 53c; No. 3, 49c to 50c; No. 4, 48c to 49c; rejected, 46c to 47c; Manitoba, rejected, 48c to 49c. Cornmeal—\$1.75 to \$1.85 per bag. Millfeed—Ontario bran in bags, \$21 to \$22; shorts, \$23 to \$24; Manitoba bran in bags, \$23; shorts, \$24 to \$25.

Butter—is quoted at a wide range, 20c to 22c per pound.

Eggs—Selected, 18c; No. 1, 16c to 17c, and No. 2, 14c per dozen.

Flour—Choice spring wheat patents, \$6.10; seconds, \$5.50; winter wheat patents, \$5; straight rollers, \$4.50 to \$4.75; do., in bags, \$2.12 to \$2.25; extra, \$1.70 to \$1.80.

Provisions—Barrels short cut mess, \$8.25 to \$8.50; half barrels, \$11.50; clear fat backs, \$23; dry salt long clear backs, 11c; barrels plate beef, \$17.40; half barrels do., \$9; compound lard, 8c to 9c; pure lard, 12c to 13c; kettle rendered, 13c to 13c; hams, 12c to 14c, according to size; breakfast bacon, 14c to 15c; Windsor bacon, 15c to 16c; fresh and salted abattoir-dressed hogs, \$9.25 to \$9.50; live, \$6.75.

UNITED STATES MARKETS.

Milwaukee, June 16.—Wheat—Quiet; No. 1 Northern, \$1.09 to \$1.11; No. 2 Northern, \$1.07 to \$1.08%; July, 86c to 87c. Rye—No. 1, 79c. Barley—Dull, No. 1, 57c; sample, 47 to 58c. Corn—No. 3, 71c; July, 67c, asked.

Minneapolis, June 16.—Wheat—No. 1 hard, \$1.07 to \$1.08%; No. 1 Northern, \$1.05 to \$1.06%; No. 2 Northern, \$1.03c to \$1.04%; No. 3 Northern, 99c to \$1.02%; July, \$1.02; Sept., 87c to 87c. Bran—In bulk, \$19.75 to \$20.00. Flour—First patents, \$5.45 to \$5.60; second patents, \$5.30 to \$5.45; first clears, \$4.25 to \$4.35; second clears, \$3.55 to \$2.65.

Buffalo, N. Y., June 16.—Wheat—Spring, easy; No. 1 Northern, \$1.07 in carloads; Winter, steady; No. 2 red, 96c. Corn—Cash, lower; No. 2 yellow, 76c; No. 2 white, 77c. Oats—Steady; No. 2 white, 55 to 55c; No. 2 mixed, 51c. Barley—60c. Rye—88c; No. 1 on track. Canal freights, Wheat, 5c to New York.

New York, June 16.—Wheat—Spot easy; No. 2 red, 98c elevator; No. 2 red, 99c spot f.o.b. afloat; No. 1 northern Duluth, \$1.15c f.o.b. afloat; No. 2 hard winter, \$1.04c f.o.b. afloat.

LIVE STOCK MARKET.

Toronto, June 16.—Quite a number of very select exporters were on the market, and for these from \$6 to \$6.40 was paid. A few very choice butchers' sold at over \$6. Good cows were rather hard to get, and were in strong demand. In some cases as high as \$5.25 was paid for specially good ones. The poorer grades, however, were weak, selling down to \$2.50 for old grass cows.

There is still a good demand for stockers. They bring from \$3.25 to \$4.50.

Milk cows are not wanted quite so much, but good ones can always demand a good price.

Although there was a pretty liberal run of calves the market was firm at \$5 to \$5.50. Sheep were steady, but the trade in them is quiet at present. There has been a scarcity of good quality lambs this spring, which makes a wide range in the prices.

All the hogs were taken for the local trade at unchanged prices, namely, \$6 fed and watered off cars Toronto, and \$5.75 f.o.b.

STURGEON LAKE GOLD.

Samples That Assay Seventy Dollars to the Ton.

A despatch from Port Arthur says: A rich gold find is reported from the vicinity of Sturgeon Lake, where four prospectors, Messrs. T. Fay, H. Bell, C. Hickler and P. Hassard, have been working. The former two came in on Thursday, bringing with them some fine samples of quartz, and have registered claims in the name of their syndicate. The assays show \$70 to the ton. Fifteen veins have been found on their claims, one of which is eight feet wide, and can be traced for two hundred yards.

During four days the Japanese forces in Korea fought 26 engagements with the insurgents, and took 26,000 prisoners.

ers; it is impossible to have anything finer for the tailored suit than the fine faced cloth for the frock.

Most of the firms are now showing inexpensive but pretty waistcoats of coarse colored linen, bound with braid or a contrasting linen, and these are nice for morning wear, with a tailory belt to match, just as the brocade waistcoat and flowered hat are pretty for the afternoon.

Net frocks are delightfully cool and attractive. Sensible women have made a practice of always having one white cotton net frock for summer wear. It goes to the tub like muslin is unlined, and when worn with colored sash or belt is pretty enough for any evening occasion.

The Brenton sailor with slightly rolling brim is a perennial favorite, and comes this year in Panama in an ecru shade that is cool looking. This is massed with wild flowers, buttercups, English daisies and cowslips, the soft greens of their foliage harmonizing with the pale tan of the straw.

Long spiky Mephistopheles quills are a recent addition to the millinery market. These quills were more or less in evidence in the early winter, but no one dreamed that they would be exploited at the new season. However there have been so many surprises in the last few weeks that now we need not be surprised at anything.

JAPANESE HONOR RUSSIAN DEAD.

Monument Amidst the Graves of Over 14,000 Soldiers.

A despatch from Port Arthur says: A monument to the Russian dead at Port Arthur was unveiled here on Wednesday. The memorial has been erected by Japan. It stands at Antzeshan, in the midst of graves of more than 14,000 Russians, who lost their lives in the defense of the fortress. It has taken two years to erect the monument. Detachments of Japanese and Russian troops took part in the dedication ceremonies. The Russian detachment came down from Harbin at the invitation of the Japanese military authorities. The Emperor of Russia was represented by General Gerngross, and the Emperor of Japan by General Nogi.

WARSHIP ALMOST SANK.

Narrow Escape of the British Battleship Irresistible.

A despatch from London says: The battleship Irresistible had a narrow escape from sinking in Portland harbor on Tuesday. The crew were engaged in testing the Kingston flooding valves, which finally refused to close. The vessel began to fill rapidly, listing heavily to starboard and it was necessary to call for assistance of tugs. The guns were quickly trained to the port side in order to restore the balance of the warship. Divers and pumps were set to work as speedily as possible, under the superintendence of Admiral Lord Charles Beresford, and finally the leakage was stopped by collision mats. The vessel has a heavy list, but the danger of her sinking has been avoided.

FREE TRADE WITH DOMINION.

600 Millers at Detroit Cheer the Proposed Policy.

A despatch from Detroit, Mich., says: The 600 millers from all parts of the country who are attending the 60th annual convention of the Millers' National Federation in this city applauded loudly the address made before them on Thursday by ex-congressman Wm. C. Maybury, of this city, in which he declared for closer trade relations with Canada and an abolition of the duties between the United States and that country.

"Free trade is a misnomer," said Mr. Maybury, "let's make it fair trade instead, and by our actions have the Canadians join with us in free intercourse between the countries in every way, particularly from a commercial standpoint."

ACCUSED OF CAUSING FIRE

Chester Buckberough, Tillsonburg Blacksmith, Under Arrest.

A despatch from Tillsonburg, Ont., says: Chester Buckberough, a man about thirty years of age, and well known about town, was arrested by Provincial Detective Miller shortly after 2 o'clock Thursday afternoon on suspicion of being concerned in the burning of the Queen's Hotel on May 20 last, when three persons lost their lives and five others were seriously injured.

Detective Miller and Chief of Police John Thillot have been quietly working on the case ever since the fire, and believe they have a strong case against the prisoner. They have established a motive and possess evidence that points very strongly toward Buckberough. Last February, after Buckberough had been placed on the "list as a person to whom liquor must not be served," John Mero, proprietor of the burned hotel, had him arrested for trespass. It is said that the

man nursed a passionate desire for vengeance, and was heard by several persons to assert that he would one day "get even with Mero." At the time of the fatal fire Buckberough was observed hanging around the locality shortly after the alarm was given.

The prisoner was taken before Justices of the Peace Hills and Stinson and remanded for a week. He was then removed to Woodstock jail, and will be lodged there until Thursday next, when he will be brought back to Tillsonburg for preliminary hearing on a charge of arson.

Buckberough at the time of his arrest was working as a blacksmith, but is not noted about town for any regularity of occupation, and hotelkeepers were not allowed to supply him with liquor. He is married, but for some time has been separated from his wife.

YOUNG FOLKS

EXPERIMENTS.

Will had come home from college for a few days, and as it was a rainy day, he called his small sister into the library.

"Nothing doing to-day, Bess," he said. "Don't you want me to play with you?"

"You wouldn't care for any of the still games, like dolls and things," complained Bess.

Will thought for a moment. "No, I haven't played dolls since my freshman year in college," he said. "I think I'm rather too old for that now. But once, when I was sick, I got a lot of comfort out of just fussing round with things, and I learned to do some experiments— at least, I called them that—and I'll show some of them to you now. First run and get me a silver tablespoon and some string, and I'll teach you how to ring the 'Bells of Cologne.'"

When Bessie had brought them to her brother he took the spoon, tied the thread round the lower part of the handle, and wound the long ends round Bessie's fore-fingers.

"Now, just put your fingers tight in your ears," he said. "Then stand off, and hit the bowl of the spoon against the table!"

The little girl did as she was told, and her face lighted up with the happiest, most surprised smile! Any one in the room would have seen only a little girl knocking a spoon with a jingling-jangling noise; but in her ears sounded long, glorious peals of silver bells, each note different, and more beautiful, she thought.

"Do you hear it, Will?" she cried. "Do you hear it, too? Oh, isn't it lovely!"

Her brother smiled. "No, I can't hear what you do," he said. "You see, that's what they call an experiment in sound. The sound waves run up from the bowl of the spoon all along the string into your ears."

For a long while Bessie rang the "Bells of Cologne"; then Will showed her how a drop of mercury could be separated into a hundred parts, and yet join together again in a round, shining drop that ran round and round the saucer, "just like a quick little silver bug," Bessie said.

"I like experiments, Will," said Bessie. "Don't you know any more?"

"Not any I could do now," said her brother. "But some time, if you'll soak a piece of shoe thread all night in very salt water, and then dry it out, I'll tie a ring to one end of it, and the other end I'll fasten round the electric fixture. Then I'll light it, and let it burn all the way down, and still the ring won't fall."

"Why won't it, Will?" demanded his sister.

"Well, just because the salt crystals are so placed that they are strong enough to bear the weight even when the thread is nothing but ashes. That's all I can tell you now. You'll have to wait until you take a course in chemistry and physics before you really understand."

"And when I get to college I'm going to," said Bessie, as she ran back to ring again her new-found Bells of Cologne.—Youth's Companion.

PRESIDENT ROY ARRESTED.

Latest Move in the Bank of St. John Failure.

A despatch from Montreal says: An important move was made in the Bank of St. John affairs on Thursday night when Hon. Philippe Roy, former President of the bank, was arrested on a charge of making false returns to the Government. It is alleged that in the current loan columns of the returns sent to the Government were found promises notes long since outlawed and

NINE MEN WERE KILLED

Premature Discharge of Dynamite Causes Havoc on the Transcontinental.

A despatch from Kenora, Ont., says: Buried under an avalanche of rock from a dynamite explosion, nine men lost their lives at Simmons' sub-contract on the Transcontinental Railway construction, about two miles east of the Winnipeg River on Thursday afternoon. The dead are:—Harvey Bradley, George Munson, Thomas Burgess, Englishmen; Robert Gray, a Scotchman; Christopher Wagelin, a Dutchman; Dymytry Jehe-mac, a Russian, and Gelfilio Roberti, Pasqualate Trimble, Luigi Biribin, Italian, and Patrick Shorten.

All the dead men were muckers, working in a deep rock cut, while the two injured were engaged in loading drill holes at the top of the cut, when the explosion occurred. The holes, which were 18 feet deep, had been "sprung" on Monday, and should have been cool. At the time of the accident, nearly two boxes of dynamite had been placed in one of the holes. The load-

ers were using wooden tamp-sticks, and what caused the explosion is a mystery.

The force of the explosion was mostly expended at the bottom of the cut, and it seemed to shoot the rock right out on the unfortunate muckers, who were working there, and for this reason the two men at the top owe their escape from death. Eight of the men were killed outright, while the other man died while being taken to the hospital. McDonald and Shorten, the leaders, were thrown a few feet by the concussion, and were badly injured about the face and arms. They will recover, however.

The work of recovering the mangled bodies of the dead men from under the mass of rock under which they were buried took several hours.

A pathetic feature in connection with the accident, is that the wives of two of the Englishmen who were killed are now on the ocean on their way to Canada to join their husbands.

THEY ARE PHYSICALLY UNFIT

Immigration From the Factory Towns of Great Britain.

A despatch from Ottawa says: Evidence bearing on the medical regulations governing immigration was given by Dr. P. H. Bryce, Chief Medical Officer of the Immigration Department, before the Agricultural Committee on Wednesday. He stated that the greatest number of physically defective people came from the factory towns of Great Britain, and more particularly England. The present system of medical inspection was, in his opinion, as thorough as the present conditions warranted. Mr. Blain suggested that the Government should have a physician on board every vessel for the purpose of studying the health of the immigrants. Dr. Bryce thought that if the steamship companies provided a physician for each

ship he might be paid an extra sum to act for the Government. Dr. McIntyre (Strathcona) was opposed to this suggestion. It would be a case of the doctor serving two masters, and that would not be satisfactory.

Questioned with regard to trachoma, Dr. Bryce said there were not so many people in Canada suffering from that disease as was supposed. In this respect there had been a great improvement in recent years. Mr. Monk suggested that immigrants should be medically inspected before they left for Canada. Dr. Bryce said he had considered that phase of the question. He was of the opinion that nothing more effective could be done in that direction than was done at present at the ports of departure.

HEALTH

GALL-STONES.

An attack of gall-stone colic in its severest form is one of the most painful afflictions which humanity is ever called upon to endure. Fortunately it is not a very common affliction, and it is not always so painful, but one never knows when it may become so; hence the occurrence of one attack, however mild, is a danger-signal which the sufferer will do well to heed.

The pain is due to the passage of a gall-stone through the bile duct toward the intestine, and varies from mere discomfort to intense agony, according to the size of the stone. The pain usually begins suddenly, when the stone enters the duct leading from the gall-bladder to the intestine, and ceases with removal

HINTS ON HOT-WEATHER DIET.

Fresh green vegetables and fruits may be eaten as freely as one likes.

Pure water is excellent in the summer provided it is not taken when the body is overheated; it is really a food.

Sugars, starches, fats and oils, which are mainly fat-producing foods, should be taken in small quantities during the hot weather.

Weak tea, both hot and cold, and cold coffee are of the best summer drinks. Milk is not to be recommended as a thirst-quencher—it is too much of a food. Alcoholic drinks, on the other hand, as well as many of the so-called temperance beverages, only irritate the stomach, often producing catarrh.

The person who would be healthy must show his wisdom by altering his diet to some extent when the hot weather is setting in. Our diet depends a great deal of our happiness, since according to the manner and quantity of our foodstuffs is our physical well-being maintained, and no one, of course, can be really happy without a strong, healthy body, so we seek this

killed her husband and five children and then committed suicide, on Saturday.

Fred Sanschogan, arrested at Rouse's Point for being drunk, tried to burn the lockup door down and was himself burned to death, on Saturday.

Joseph Jakobe, a professional diver, fell a hundred feet into the water of Jamaica Bay during a performance on Saturday and was killed.

Two men are under arrest at Pittsburgh, Pa., charged with stealing diamonds worth \$75,000 from a Birmingham firm.

There were nine arrests for gambling at the Gravesend race track at New York on Friday.

Governor Hughes of New York has declined to accept the Republican nomination for Vice-President.

New York meat packers are complaining because the purchasers of meat by housewives have fallen 20 per cent.

A lion walked out of an unfenced cage at a circus in Greenwich, Conn., and was led back, more frightened than the people around.

Because many people at St. Charles, Mo., wanted to see both a picnic parade and a hanging, William Jeffries was reprieved three and a half hours.

GENERAL.

A growing state of anarchy is reported from Paris.

The people of northern Persia are in revolt against the Shah.

Five persons were killed in a railroad wreck in Belgium on Thursday.

The volcano Mu on Savaii Island, one of the Samoa group, is in eruption.

A petrified forest of two miles is reported from German West Africa.

Mulai Hafid, the insurgent Moroccan Sultan, has entered Fez with 12,000 men.

Nine Italian pilgrims were killed in a railroad wreck in the Province of Novara, Italy.

A Social Democratic deputy was suspended from the Duma for mocking at religion.

A plot to blow up the members of the Portuguese royal family has been discovered at Lisbon.

The net proceeds of the Casino, Monte Carlo, exceeded this year all records by \$100,000.

It is believed that eighty Chinese were drowned in the wreck of the British steamer Pow An off Lantao Island.

Emergency measures adopted by the Vice-regal Council in India provide stern penalties for bomb outrages and conspiracies.

A TOUGH AUTO TRIP.

Prussian Lieutenant, Crossing Africa, Has Reached Rhodesia.

A despatch from Bulawayo, Rhodesia, says: Lieut. Graetz, of the Prussian army, who started on Aug. 10 last to cross Africa from Dar-es-Salaam in a specially built automobile, reached Serenje, Rhodesia, on May 26 after a perilous passage. His route alternated with rocks, swamps and torrents. He was compelled to build a track for many miles. He was marooned for a month in the desert owing to his petrol becoming exhausted. He had to send a native guide to Serenje to obtain a supply. Lieut. Graetz's health is excellent.

CROPS ARE FLOURISHING.

Trip of C. P. R. Land Commissioner Through Three Provinces.

A despatch from Winnipeg says: Mr. J. Douppe, Assistant Land Commissioner for the C. P. R., has returned from a trip covering almost the entire three Provinces, and gives it as his opinion that he has never seen such magnificent crops nor the promise of such abundant yields. Out in Alberta the fall wheat is up from twenty-four to thirty inches, and in some places is in the shot blade.

A despatch from Lethbridge says: The benefit to the crops from the great rains will more than compensate for any loss from high water. Fall wheat can now get along without any more rain till the harvest time.

A despatch from Montreal says: An important move was made in the Bank of St. John affairs on Thursday night when Hon. Philippe Roy, former President of the bank, was arrested on a charge of making false returns to the Government. It is alleged that in the current loan columns of the returns sent to the Government were found "promissory notes" long since outlawed, and which are without any value whatever. The arrest was made through Crown Prosecutor Hibbard, who acted under instructions from the Attorney-General. Mr. Roy was allowed out on bail of \$2,000, and will be tried as soon as the necessary steps can be taken. It is said that the liabilities of the bank amount to over \$500,000, and the assets to not more than \$200,000. Mr. Roy is personally very wealthy, being the owner of the St. John's waterworks and electric light plant, and other industries in the town and Province. He was Speaker of the last Provincial Legislature, and ran for Mayor of Montreal last February, being defeated by Mr. Louis Payette.

MAY BUILD NEW WELLAND CANAL.

Important Statement by the Minister in the House.

A despatch from Ottawa says: In the House of Commons on Thursday morning Hon. Mr. Graham intimated that it was the intention of the Government to procure estimates of the cost of deepening the Welland Canal to a draught of 25 feet, and also of the cost of an entirely new canal.

He had been told by engineers it would be cheaper to build a new canal. In reply to Mr. Lancaster, Mr. Graham said he was prepared to say that if we were to carry our own traffic as well as American traffic the Welland Canal would have to be deepened.

As to the new canal, the scheme would reduce the number of locks 75 per cent., and though he could not say definitely, he thought the cost would approximate \$25,000,000 or \$30,000,000.

There were advantages in the new canal owing to the shorter distances and fewer locks.

ROBBERS WERE BOLD.

Terrified Mrs. Belisle and Robbed House—Husband in Garden.

A despatch from Montreal says: J. B. Belisle, a resident of St. Agatha, has reported to the Provincial police that on Monday night while he was sitting in his garden two masked robbers entered his house and secured \$3,500 which he had on hand to put through a business deal the next day. Mrs. Belisle was in the house, but was threatened with death if she raised an outcry. Two Provincial detectives have been sent to look for the men.

TWO LITTLE GIRLS DROWNED.

One Fell into Michel River and Other Attempted a Rescue.

A despatch from Michel, B. C., says: Two little girls, aged two and four years, children of John Latroo, miner, were drowned on Tuesday morning in the Michel River, near here. They were playing near the water, when the younger one fell into the raging torrent. The elder one attempted to save her little sister, and both lost their lives.

BIG JOB ALMOST OVER.

Double-tracking of C. P. R. From Winnipeg to Lakes.

A despatch from Winnipeg says: Excellent progress has been made on the double-tracking operations of the C. P. R. and grading will be finished this week. There are still seventy miles of steel to lay, but the officials of the company expect to be able to open the second track some time early in September.

is, a danger-signal which the sufferer will do well to heed.

The pain is due to the passage of a gall-stone through the bile duct toward the intestine, and varies from mere discomfort to intense agony, according to the size of the stone. The pain usually begins suddenly, when the stone enters the duct leading from the gall-bladder to the intestine, and ceases with equal suddenness when the offending body drops out of the bile duct into the intestine. The pain is sharp, usually continuous, but occasionally intermittent, and may last from a few hours to several days.

If the attack continues a long time, it is accompanied by vomiting and signs of collapse—pinched features, cold, clammy sweat, extreme restlessness, pallor or blueness of the skin, hiccough, rapid and feeble pulse, and chills. Jaundice is not uncommon, but is not always present.

There may be only one attack, but as a rule there is a succession of them, some mild, others severe. The treatment is therefore twofold—relief of the immediate pain and prevention of future attacks.

The sufferer should keep as quiet as possible, lying on the back with hips elevated. Sometimes a firm bandage encircling the abdomen affords great relief. The patient should take no food, not even milk, as long as the attack lasts. Fasting even for two or three days will do no harm. The popular fear of loss of strength from starvation in such cases is groundless.

Water, preferably hot, may be taken, unless, as sometimes happens, it increases the pain. Olive-oil in generous amount often seems to give relief and shorten the attack, although the belief that it dissolves the gall-stones is probably erroneous.

The bowels should be freely moved, preferably by an injection. Hot cloths laid over the region of the liver are usually grateful, and sometimes a hot bath acts well by relieving the spasm.

If simple remedies do not bring relief, more powerful, or even a surgical operation, may be necessary.

After the stone has passed, treatment should be instituted to prevent a return if possible. The patient should live chiefly on fruits, fresh vegetables, and a moderate amount of farinaceous foods, avoiding meat, especially fat meat, and highly seasoned foods of all kinds.

A course of treatment by such mineral waters as Vichy or Carlsbad is highly beneficial, and abundant exercise in the open air will assist greatly in the treatment.—Youth's Companion.

WIFE MURDER AND SUICIDE

Discarded Husband Perpetrator of Double Crime on Farm in New Ontario.

A despatch from Cobalt says: The village of Earlton, about 25 miles north of here, was stirred by a double tragedy on Wednesday afternoon, when Chas. E. Marshall, aged 32 years, shot and killed his wife, aged 24 years, and then shot himself, blowing the top of his head off. The tragedy happened on the farm of Mrs. Marshall's father, Absalom Gray, about one mile from the town.

Marshall first met his wife while he was attached to a regiment of the U. S. A., stationed in Fort Niagara, about five years ago. They were married at Lewiston, N. Y., about a year ago. They came to this country on a visit from Niagara Falls, and returned on Dec. 17th last to take up their abode. Marshall getting work on the farm of his wife's brother, James Gray.

About a week ago Marshall went back to Niagara Falls, his wife refusing to

live with him any longer. Shortly after he went away they received a letter saying that he would return if his wife would come back to him. The day before he came back he wrote and said he would be away for a year. He returned, however, on the Cobalt special on Wednesday morning. Instead of taking the road to the farm he struck off through the woods.

Marshall's father-in-law saw him coming and suspecting that something was wrong he started towards the house. When within a few feet of the building he heard four shots and on entering the house found Marshall lying on the dining-room floor dead with the top of his head blown off and his daughter in the kitchen dying. When he got to his daughter she said, "He killed me, father," and expired. She was shot through the arm, right thigh, and the breast.

HOME CURES.

For Indigestion.—Try the beaten white of an egg in a wine-glassful of water directly after meals.

A severe spasm of coughing may be relieved by drinking a teaspoonful of glycerine in a wine-glassful of hot milk.

If a speck or a splinter gets into the eye, simply lift the eyelid and blow your nose and the particle is forced out.

Headache Remedy.—Boil a rad with hot water and rub it with lemon juice until it smarts. Rest for a short time, and relief will usually follow.

To prevent hands from getting calloused wrap soft cloths around the handles of brooms, mop, carpet-sweeper, and iron handles.

For Prickly Heat.—Take two teaspoonsfuls of cream of tartar and pour upon it one pint of boiling water. Sweeten to taste. Drink frequently in small quantities.

For Weak Eyes.—Persons with defective sight when threading the needle with white thread should hold it over something black and when threading with black thread hold it over something white. It also applies to threading the machine needle.

Insomnia Cure.—One of the main causes of sleeplessness is an overabundance of blood in the head. Relief can be obtained by placing a cloth wrung out of cold water on the back of the neck and placing a hot water bag at the feet. The feet may be placed in a pail of hot water, if this is preferred.

EARL OF DERBY DEAD.

Was Governor-General of Canada From 1888 to 1893.

A despatch from London says: Frederick Arthur Stanley, sixteenth Earl of Derby, who was Governor-General of Canada from 1888 to 1893, bearing then the title of Lord Stanley of Preston, died suddenly here on Sunday.

The Song of the Hair

There are four verses. Verse 1. Ayer's Hair Vigor stops falling hair. Verse 2. Ayer's Hair Vigor makes the hair grow. Verse 3. Ayer's Hair Vigor cures dandruff. Verse 4. Ayer's Hair Vigor makes the scalp healthy, and keeps it so. It is a regular hair-food; this is the real secret of its wonderful success.

bill goes to the Senate, and must then receive the ascent of the Governor-General.

The system of obstruction practiced is the acme of political science. There is no apparent objection to passing the items of supply in committee (outside the interminable and utterly irrelevant questions asked and repeated ad-nauseum), but by making the reservations before alluded to and the prospective delay in concurrence, all of which prevents the passage of the supply bill itself, the main object of the obstruction is gained—that is, that the Government cannot see the money.

In reply to criticism, and to answer the charge that they alone are responsible for the non-payment of civil servants wages, the Opposition blandly say, "We have voted the money, what more do you want?" This is the scientific ingenuity adopted by the Opposition to make it appear they are not responsible for the delay, and are doing right by the civil servants.

Changed Their Tactics.

When the obstruction first commenced the Opposition stated openly that they would not vote any money for the public service unless certain clauses in the Election bill were withdrawn. This position they soon found was untenable and unpopular with the country, so they withdrew from it and adopted the course outlined here, which is even more pernicious in its effect than open and flat refusal to vote anything.

The people are not likely to be deceived by this when once the real facts are known. When Hon. William Paterson, Minister of Customs, made the statement in Brantford that his men to the number of 1,800 could not get their money because the Opposition refused to pass supplies, he said nothing more than the truth.

No Pay for Canal Men.

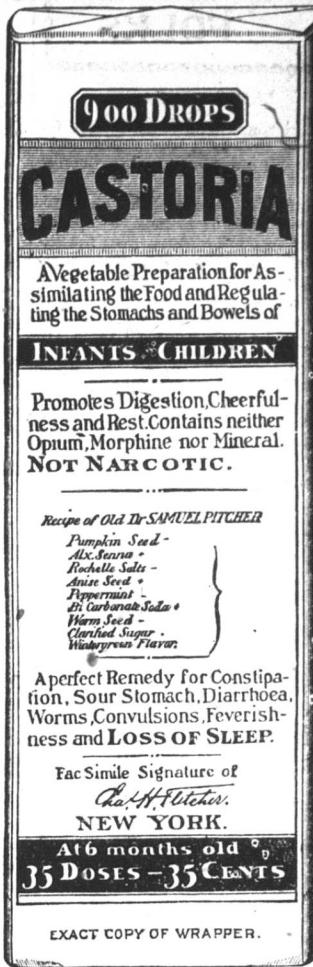

On Tuesday Hon. Mr. Graham, Minister of Railway and Canals, asked the Opposition to vote him the money for the canal service, making it very clear that until this was done the men could not be paid their wages, but the Opposition, in the person of George E. Foster, point blank refused.

The responsibility for non-payment of civil servants can be placed upon the Opposition in a more direct way. Some time ago Hon. Mr. Fielding, Minister of Finance, made application to the leaders of the Opposition to consent to an interim supply bill amounting to one quarter of the estimates. This was refused, and consent given for only one eighth. This has long since been exhausted. Subsequently application was made for a further supply bill on account. This also was refused. Had the request been granted every man would have been paid his money, and the present intolerable condition would have been avoided.

There Must Be Closure.

All of this leads to a solution which appears to be the only satisfactory one to relieve a state of things that is fast becoming unbearable. It points clearly to one remedy as being the most efficacious under the circumstances, and that is the closure. This has been openly advocated in the House by several members, and upon each occasion was received with applause. The time has come when there must be some effective method of stopping obstruction to the public business. A few men on the Opposition side monopolize the time of the House by delivering weary, meaningless speeches of interminable length upon every subject imaginable. In the meantime the business of the country is neglected, and the functions of the House of Commons are paralyzed.

If the matters spoken of were in any sense in the interest of the

Words of Praise

For the several ingredients of which Dr. Pierce's medicines are composed, as given by leaders in all the several schools of medicine, should have far more weight than any amount of non-professional testimonies. Dr. Pierce's Favorite Prescription has THE BADGE OF HONESTY on every bottle-wrapper, in a full list of all its ingredients printed in plain English.

If you are an invalid woman and suffer from frequent headache, backache, gnawing distress in stomach, periodical pains, disagreeable, catarrhal, pelvic drain, dragging down distress in lower abdomen or pelvic, perhaps dark spots or specks dancing before the eyes, faint spells and kindred symptoms caused by female weakness, or other derangement of the feminine organs, you can do no better than take Dr. Pierce's Favorite Prescription.

The hospital, surgeon's knife and operating table may be avoided by the timely use of "Favorite Prescription" in such cases. Thereby the obnoxious examinations and local treatments of the family physician can be avoided and a thorough course of successful treatment carried out in the privacy of the home. "Favorite Prescription" is composed of the very best natural medicinal roots known to medical science for the cure of woman's peculiar ailments, contains no alcohol and no harmful or habit-forming drugs.

Do not expect too much from "Favorite Prescription"; it will not perform miracles; it will not dissolve or cure tumors. No medicine will. It will do as much to establish vigorous health in most weaknesses and ailments peculiarly incident to women as any medicine can. It must be given a fair chance by perseverance in its use for a reasonable length of time.

You can't afford to accept a secret nostrum as a substitute for this remedy of known composition.

Sick women are invited to consult Dr. Pierce, by letter, free. All correspond-

Pringle's statements must be discounted heavily as will appear when he is answered to his face, as he will be should he enter the political field, where he has hitherto encountered conspicuous failure.

Dr. Reid Charged With Graft.

The case against Dr. Reid, Conservative M.P., for Grenville, was commenced in the Public Works Committee on Wednesday. It appears from the testimony of the ship's carpenter employed in the Government yards at Prescott, that Dr. Reid had his yacht Dack hauled up on the ways and repaired by three men at the Government's expense, and that this was done by permission of J. F. Fraser, commissioner of lights. One of the men the caulkers, appears to have been paid, but there still remains a substantial bill against Dr. Reid for expenses in connection with his boat.

Dr. Reid has been very active in the Public Accounts Committee, trying to prove that another vessel was repaired at the Government docks belonging to one Merwin. The evidence shows that Merwin paid all the expenses, but so far it does not appear that the people have been paid for the cost of repairing the Dack, the property of one of the Conservative critics. Dr. Reid also used the Government ways to haul out another boat of his for which service nothing was ever paid the Government.

Had such a thing been done by any Liberal member of Parliament, the welkin would have rung with charges of grafting, and another scandal would have been announced. As it is, the

Stop That Cold

To check early colds or Grippe with "Preventics" means sure defeat for Prevention. To stop a cold with "Preventics" is safer than to let it run on, and it is obliged to cure it afterwards. To be sure, "Preventics" will cure even a deeply seated cold, but taken early—at the sneeze stage—they break, or head off these early colds. That's surely better. That's why they are called Preventics.

Preventics are little Candy Cold-Cures. No Quinine, no physic, nothing sickening. Nice for the children—and thoroughly safe too. If you feel chilly, if you sneeze, if you ache all over, think of Preventics. Preventics will also save half your usual medicine. And don't forget you can't afford to be feverish, night or day. Heroin probably has Preventics' greatest efficiency. Sold in 25c boxes for the pocket, also in 25c boxes of 48 Preventics. Insist on your druggists giving you

Preventics

"ALL DEALERS"

for non-payment of Government employees rests on the Opposition. They and they alone are responsible. They delay the votes as far as possible by discussing affairs of no public interests and reserve part of the items for discussion at a later date, and this prevents the Government bringing in a supply bill. The same questions are asked the ministers over and over again until the patience of a Job would be exhausted. These same questions are repeated by the small fry and hour after hour is wasted for no other purpose than to block the business of the Government.

The time has come to deal with the men who monopolize the time of the House to the detriment of public business, and they will only have themselves to blame if they find a resolution introduced by the Government which will have the effect of changing the rules of the House so as to shut off the windy harangues of Geo. E. Foster and a few of his ilk.

If one feels dull and spiritless, in the spring or early summer, they call it "Spring Fever". But there is no fever—usually. It is the after effect of our winter habits. The nerves are mostly at fault. Tired, worn-out nerves leave us languid, lifeless, and without spirit or ambition. A few doses of Dr. Snop's Restorative will also surely and quickly change all of these depressing symptoms. The Restorative of course won't bring you back to full health in a day or two, but it will do enough in 48 hours to satisfy you that the remedy is reaching that "tired spot". Druggists everywhere are advising its use as a splendid and prompt general tonic. It gives more vim and more spirit to the spiritless than any other known nerve or constitutional tonic. It sharpens a failing appetite, aids digestion, frees sluggish livers and kidneys, and brings new life, strength and ambition. Test it a few days and be convinced. Sold by—**ALL DEALERS**.

HIS TURN CAME.

The Way the Liquor Man Got Even With the Bank Teller.

Many years ago there lived in Rutland, Vt., two men who bore the same name, which name we will call W. O. Jones. One of these men was a dapper young bank teller; the other was engaged in running a cigar store with a saloon attachment in the rear. This was in the days of prohibition in Vermont. Every three or four weeks the latter Jones would be haled into the police court and fined for liquor selling, which was chronicled regularly in the daily papers. The bank teller grew nervous about it, and one morning this announcement appeared: "W. O. Jones, the popular young bank teller of the Rutland National bank, wishes it to be understood that he is in no way con-

A KINGS' CARRIAGE.

Old Fashioned and Elaborate Vehicle Used in England.

England's state carriage is one of the most costly and splendid in the world. It was built in 1761 at a cost of \$30,000 on the occasion of the marriage of George III, and has ever since carried the English kings and queens on all high state occasions. Sir William Chambers designed the vehicle, which weighs four tons.

Despite its many years' service its great wheels, gear and body are said to be as sound as when built, and it looks as if it would go on forever. Steel springs were unknown when the coach was built, and its ponderous yet dainty, luxuriant body is suspended on leather braces, not unlike those of the old Concord stagecoaches of America. Its balance is so perfect that a touch of the finger is enough to set the body swinging on the big creaking straps which brace the carved and gilded tritons supporting the driver's seat and hammer cloth. The length of the vehicle is twenty-four feet, and it is twelve feet high.

The elaborate carvings cost more than the carriage proper, the coach builder's bill having been less than \$9,000, while that of the carver was more than \$10,000. Something of the character of the ornamentation may be guessed from the fact that the artist Cipriani received \$1,500 for painting the panels and that the late maker's charge was about \$4,000, the crimson satin interior of the carriage being most elaborately upholstered.

The preparation of the royal equipage for state occasions is a real sight. Six pairs of milk white horses from the royal stud are always used, and all wear false tails. The coachman, in powder and curls, mounts his seat with the aid of a ladder, but does not really drive, postillions on the horses and state grooms who walk beside them being in command of the team.

The Deacon and the Prayer.

"I didn't like your prayer very much this morning," said a fault finding deacon to his minister.

"What was wrong with it?"

"Well, in the first place it was too long, and then I thought it contained two or three expressions that were unwarranted."

"I am very sorry it meets with your disapproval, deacon," the good man responded, "but you must bear in mind that the prayer was not addressed to you."

THAT AWFUL DEPRESSION

Which Mrs. Grenery experienced is but the story that thousands could tell of their sufferings from Dyspepsia. Dr. Von Stan's Pineapple Tablets is the Panacea.

"I have proved Dr. Von Stan's Pineapple Tablets to be the only effective remedy for my dyspepsia. I have used most everything I could hear of, but these tablets 'touch the spot' and take away the awful depression and distress in almost quicker time than it takes to tell it. You may publish this that all sufferers from Indigestion and Dyspepsia may find the relief I did. Mrs. M. Grenery, 31 Alice St., Toronto. Sixty tablets, 35 cents. (7)

PSYCHIC FORCES.

Their Existence Proved, Yet Scientists Cannot Grasp Them.

I have seen enough to make me believe in Zollner's fourth dimension, but I don't. My mind is so constructed that such wonders as we meet in seances produce very little effect on me. They are as normal to me now as the popping of corn or the roasting of potatoes. But as for belief—well, that is not a matter of the will, but of evidence, and the evidence is not yet sufficient to bring me to any definite conclusion. In fact, in the broad day and especially the second day after I have been through one of these experiences I begin to doubt my senses. Richet speaks of this curious recession of belief and admits his own inability to retain the conviction that at the moment of the phenomenon was complete. "No sooner is the sitting over than my doubts come swarming back upon me," he says. "The real world which surrounds us, with its prejudices, its scheme of habitual opinions, holds us in so strong a grasp that we can scarcely free ourselves completely. Certainty does not follow on demonstration, but on habit."

Maxwell says: "I believe in these phenomena, but I see no need to attribute them to any supernatural intervention. I am inclined to think they are produced by some force within ourselves." Just what he means by that I can't precisely explain. It's harder to understand than the spirit hypothesis. He goes on to say that, while he is certain that we are in the presence of an unknown force, he is convinced that the phenomena will ultimately be found orderly, like all other facts of nature. "Some future Newton will discover a more complete formula than ours," he prophesies. "Every natural fact should be studied and, if it be real, incorporated in the patrimony of knowledge." He then adds, with the true scientist's humble acknowledgement of the infinite reach of the undiscovered universe, "Our knowledge is very limited and our experience young." —Hamlin Garland in *Everybody's Magazine*.

CUBE ROOT.

Do You Know the Method of Extracting It Without Pain?

Think of the inestimable value of knowing how to extract cube root! Ah, there is the priceless boon! Knowing that has saved us money many and many a time, to say nothing of the social blunders it has assisted us to avoid. Do I know yet how it was done? Certainly. I know it just as well as if it were yesterday that I studied it. You take the number whose cube root is painful it so that nothing but extraction can relieve it, put it down on a piece of paper or on your slate and divide it off into periods of three figures each. Write 4-11-44 to the left, multiply that by 300, divide it by something, then pour some red ink on your handkerchief, tell teacher you have the nosebleed and go home.

That's the way I usually did it. No doubt it is done much the same way by the ingenious youth of the present generation.

Is there a successful man living today and holding up his head among other successful men who cannot painlessly extract the cube root without giving the number an anaesthetic? If so, he should be ashamed of himself. He is a freak, and he attained distinction by a fluke. Some day the muck rakers will get to probing around, and when they discover that he can't extract the cube root of anything his career will be ended and his gray hairs will sink in sorrow to a dishonored

AS A WORKING TOOL

for the student and the writer, as an authoritative reference book for schools, teachers, families, business and professional men, there is one book which offers superior advantages in the solid value of its in-

nervous about it, and one morning this announcement appeared: "W. O. Jones, the popular young bank teller of the Rutland National bank, wishes it to be understood that he is in no way connected with the saloon keeper and hopes their names may not be confounded."

Now, it transpired that a few months afterward this young teller failed to appear one morning at his accustomed window at the bank. Upon a hasty examination it was found that \$15,000 or more of the funds of the bank had also disappeared. The wires were called into requisition immediately, and after a few days he was located in Denver. It was the old story. He was brought back, incarcerated, tried, etc.

It was now the saloon keeper's turn, and this notice was duly published in the same paper that issued the previous one: "W. O. Jones, the widely known business man of Merchants' row, wishes it to be understood that he is in no way connected with W. O. Jones, the defaulting bank teller now in jail, and hopes their names may not be confounded."—Exchange.

THE TURNED UP MUSTACHE.

It Originated In Spain at the Court of Philip IV.

The German emperor, William II., is generally regarded as the inventor of the turned up mustache. This is true only as far as introducing it as a fashion. It was invented at the court of Philip IV., about 1625. That monarch was the first to wear his mustache turned upward. From the Spanish court the fashion spread over all Europe. Charles I. of England, Philip's brother-in-law, and many members of the Austrian Hapsburgs adopted it. It came to Belgium and was introduced into Germany by the Spanish soldiers during the Thirty Years' war.

It was also found in Sweden as well as in France under Louis XIII. Under Louis XIV. the beard went out of fashion, and during the time of Rococo the elegant world knew only clean shaven faces until the French revolution brought the mustache again into use. But nowhere except in its Spanish home did the mustache rise so extravagantly as with the German emperor and his imitators.

In Spain all kinds of artificial means, such as bandages and coverings, were employed to compel the mustache to keep this unnatural upward position, and in looking at the paintings of Velasquez or Murillo one can easily understand that without such coercive measures a true full blooded Spaniard could never have realized his ideal mustaches.

FARMER AND HIS WIFE PRAISE ZAM-BUK.

As a family balm and salve Zam-Buk is unequalled, and should be on every Canadian farm. Mrs. C. E. Tibbs of Oak Vale Farm, Winnipeg Beach, writes:—"We have found Zam-Buk a wonderful healer. I used it for a very bad burn on my hand, and by the next day the pain had gone and the wound well on the way to healing. My husband also used Zam-Buk for a nasty flesh wound on his arm, which it healed. In several ways we have found Zam-Buk so healing and soothing that we would not like to be without it in the house. Before we could get Zam-Buk in Canada, we used to write to England for it we thought so much about it."

This great skin healer is sold by all druggists and stores at 50c. a box.

EVERY HOME NEEDS ZAM-BUK!

Face Nearly Every Day.

It will come as a shock to some readers to learn that one of the most serious occupations of a nineteenth century wife was to protect her husband from fleas!

Taking into consideration, however, the horror with which the people of those days regarded cold water and clean clothes, it is not surprising to learn that the question of exterminating these insects made life a burden.

Cleanliness was not only looked upon as a dangerous custom, but a positive sin. The soul alone was regarded as of any importance, so that the neglect of the body became so much a virtue that a bath was only allowed in cases of illness. At any rate, water had no place in the toilet of the grand monarque. His valet after pouring a flask containing spirits of wine over the hands of his majesty passed a comb through his hair, thus completing his toilet for the day.

In the seventeenth century, however, cleanliness was carried to such an excess that an English dandy was expected to wash his face "nearly every day." So rapidly did the custom spread that it was necessary to issue a solemn warning that the practice of using water for this purpose "injures the eyesight, engenders toothache and catarrh, renders the complexion colorless and makes the skin susceptible to cold in the winter and heat in the summer."

Washing seems to have been more popular in the eighteenth century in France than in England, this in spite of the fact that water was forbidden in the former country.

A lost art, according to M. Franklin in "La Civilite du XIII. au XIX. Siecle," is that of blowing one's nose. Today it is a mote or less perfunctory necessity, but in the seventeenth century it was an accomplishment. One person imitated the blast of a trumpet, another the swearing of a cat. Possibly snuff taking, which was the fashionable habit of that day, had something to do with its accomplishments, perfection in which consisted in snuffing "neither too much nor too little noise."

Another noteworthy fact on the etiquette of those days is that nobody ever knocked at the door. The correct thing was to scratch softly with the nail of the finger, which the dandies of the day kept extremely long. Etiquette was so right, in fact, that it is said that the Duchesse de Montpensier spent a quarter of her life in mental torture as to whether different individuals admitted to her presence were entitled to sit on chairs with backs or only on stools.

Origin of Myths.

The human mind, whether that of the savage or the civilized man, is naturally a thinking machine. In early times, before science was born, the phenomena of nature required an explanation, and the savage beholder shaped the myth, which satisfied his untutored mind. It is out of man's natural craving to know the "reason why" that all myths are born. As the distinguished anthropologist, Tylor, puts it, "When the attention of a man in the myth making stage of intellect is drawn to any phenomenon which has to him an obvious reason, he invents and tells a story to account for it." In such way all mythology originated.

The Literary Sweatshop.

Fair Visitor—Why, I had no idea that novels were written in this way. Foreman of Six Best Seller Factory—Oh, yes! At these machines they punch in the plots, across the room they stitch in the description, the dialogue is put in by hand, and the whole then goes to the finishing room, where it is sawed into chapters.—Puck.

tion by a muck raker. Some day the muck rakers will get to probing around, and when they discover that he can't extract the cube root of anything his career will be ended and his gray hairs will sink in sorrow to a dishonored, Jimson grown grave. The jails and asylums are filled with vacant faced and craven hearted wretches who never learned the way to remove a cube root, no matter if the number containing it was threatened with blood poison. They don't know whether to run a horsehair loop down its throat, as in the case of gapes, or whether to use tweezers.

Let us try to impress upon our children—by precept—the importance of cube root extraction, but let us have business elsewhere in case they ask us to show them how.—Strickland W. Gilligan in Chicago News.

A Genuine Grouch.

A certain farmer noted for constant complaining was met by a friend one morning.

"Fine weather, James," said the latter.

"For them as ain't got to work," was the response.

"Your farm looks in fine condition."

"To them's as ain't got to dig in it."

"Well, James, I'm glad your wife's better."

"Them as don't have to live with her may be!"—London Family Herald.

The Rubicon.

The Rubicon was the small stream separating ancient Italy from Cisalpine Gaul, the province which had been allotted to Caesar. When Caesar crossed this stream at the head of an armed force he passed beyond the limits of his own province and legally became an invader of Italy.

A Doctor's Statement

Baie St. Paul, C. P., Que.

March 27th, 1907.
"Dr. T. A. Slocum, Limited,
Toronto, Ont.

Gentlemen:—

My many thanks for Psychnine and Oxomulsion. I have used them with very great satisfaction both in my own case and in that of my friends. It affords me much pleasure to recommend a remedy which is really good in cases for which it is intended. I am, yours very truly,

DR. ERNEST A. ALLARD.

Doctors recognize that Psychnine is one of the very best remedies for all throat, lung and stomach troubles and all run down conditions, from whatever cause. It is the prescription of one of the world's greatest specialists in diseases of the throat, lungs, and stomach, and all wasting diseases. Ask your druggist for it, at 50c and 1.00, or T. A. Slocum, Limited, Toronto.

Refrigerators, Ice Cream Freezers, Lawn Hose, Nozzles, Sprayers, Mowers, Rakes at BOYLE & SON.

an authoritative reference book for schools, teachers, families, business and professional men, there is one book which offers superior advantages in the solid value of its information, and the ease with which it is obtained.

One's admiration for Webster's International Dictionary increases daily as it comes to be better known. It never refuses the information sought and it never overwhelms one with a mass of misinformation illogically arranged.

The St. James Gazette of London, England, says: For the teacher, the pupil, the student and the litterateur, there is nothing better; it covers everything.

The New and Enlarged Edition recently issued has 25,000 new words, a revised Geographical Dictionary and a revised Gazetteer of the World, 2380 pages and 5000 illustrations. It has just received

THE GRAND PRIZE

(Highest Award) at the World's Fair, St. Louis.

Our name is on the copyright page of all authentic Webster's dictionaries.

FREE "A Test in Pronunciation," instructive and entertaining for the whole family. Also illustrated pamphlet.

PUBLISHERS,
SPRINGFIELD, MASS.

Fish Food and National Greatness.

There is not the smallest reason to suppose that a meat eating nation would be superior either in intellect or physique to a fish eating one. We as a race were never stronger than when we fed on fish to such an extent that the careful guardian of the newly entered apprentice commonly inserted a clause in his indentures stipulating that he was not to be required to eat salmon more than three days a week.—London Globe.

In the House of Commons.

In the days of Burke, Pitt and Fox members of the house of commons used to relieve the tedium of debate by sucking oranges and cracking nuts while lying full length on the benches, and Brougham made his great six hours' speech on law reform in 1828 with a hatful of oranges by his side for refreshment. Joseph Hume found solace in pears, which he took from his bulging pockets and munched by the hour, leaning the while against his favorite post. No wonder oranges were so popular, since their vendor (one of them, at any rate) was a picturesque girl who used to sit with her wares in the lobby, attired in a "sprigged muslin gown with a gauze neckerchief" or in the glory of "clean white silk stockings, Turkey leather shoes and pink silk petticoat, becomingly short."—Westminster Gazette.

Hennequin's Infant Tablets

Save Babies' Lives. For Babies and Small Children. (Made in France.)

Dr. Hennequin's Infant Tablets saved our little girl's life. Three doctors said she could not live. The Tablets cured her.—Mr. E. R. McBRIDE, Napanee, Ont.

My baby was so weak from sickness that he could hardly walk. We thought he would die. We could find nothing to help him. I was given a sample package of three Hennequin Tablets; we used them; I saw a change at once. We secured the Tablets and our baby improved every day, and is now a bright, fat, good natured boy; you could not believe he was the same child. They certainly cured my baby and saved his life. I believe them to be the best Tablets.—Mrs. JAMES RIDDELL, Barrydale, Ont.

We have hundreds of such letters. If the Tablets were not what you need we would not offer to give them away and prepay them. If your baby is not well send for trial package.

Hennequin Tablets have the letter "H" stamped upon them—this is your guarantee.

All dealers, 25c per package, or 5 for \$1.00 sent postpaid to any address.

EAT ORANGES

IF YOU WANT TO KEEP WELL

Careful tests have proved beyond question that orange juice has clearly defined medicinal virtues. Those who suffer with Indigestion—are compelled "to diet"—find that after eating oranges regularly for breakfast there is no distress, no palpitation.

Where there was a tendency towards constipation, the eating of oranges regulated the bowels.

In skin troubles, those who began the morning meal with an orange were noticeably improved.

There is, however, a quicker way to get better results. This is to take one or two "Fruit-a-tives" tablets at bedtime in addition to the juice of an orange before breakfast the next morning. "Fruit-a-tives" are the juices of oranges, apples, figs and prunes, in which the medicinal action is many times intensified by the special way of combining them. Valuable tonics are then added.

Take the juice of an orange before breakfast—take "Fruit-a-tives" at night and you will quickly be rid of Indigestion. Stomach Troubles, Constipation and Biliousness. "Fruit-a-tives" are sold by all dealers at 50c a box, 6 for \$2.50. Sent on receipt of price by "Fruit-a-tives," Limited, Ottawa.

The Tarantula.

Whether the tarantula is ever a death dealer or not is a disputed point. However, there seems to be no doubt that the bite of this spider-like creature inflicts one of the most painful wounds that the human body can endure. Stoic Indians who have borne the tortures of the sun dance without flinching have been known to roll upon the ground and shriek in agony when bitten by a tarantula, which leaves a livid scar that never grows dim. It is possible that the tarantula bite sometimes proves fatal, although it is difficult to find a well authenticated instance of this kind.

Merely a Sample.

"What is the matter, little boy?" asked the professor. "Have you the measles?"

"Nope," answered the boy. "I've got the measles. They's only one of 'em."

"That's singular!" mused the professor.

Sign of Precocity.

Editor—Magazine Editor—I believe my youngster is cut out for an editor. Second Editor—Why so? First Editor—For everything he gets his hands on he reads and throws into the wastebasket.

Bray's Mythical Vicar.

It is curious to reflect that there are scattered about the world many scores of places whose chief claim to distinction consists in their association with some famous ditty or other. Take, for example, the village of Bray, in Berkshire, always associated with the world famous "Vicar of Bray." The most curious part of the business is that, though Fuller, in his "Worthies of England," asserts that the cleric who is the hero of the song was one Simon Alleyne, careful search of the parish registers has failed to substantiate the story.—London Musical Home Journal.

A Strenuous Task.

"Your honor," said the witness, "can't you order a recess?"

"A recess?"

"Yes, sir. I've stood on this stand and told the whole truth two hours on a stretch, and I'm teetotally wore out! I never told the truth that long before—not in all my life!"

Shattered Hopes.

He (anxiously)—I understand your father speaks very highly of me? She—Yes, but he doesn't mean a word of it. He—Are you sure of that? She—Certainly. He does it just to torment mother.

An Eyewitness.

"Have you any witnesses of the accident?" asked the Brentford county court judge recently.

"Yes," was the reply, "my uncle. He is no hero because he is blind."—London Telegraph.

Take Care of the Pennies, Etc.

"Make anything on that deal?" Goldie inquired.

"Only a million," Myduss gloomily replied.

"Well, every million counts."

Grief should be like joy majestic, equable, serene.—Aubrey de Vere.

OH! THE MISERY.

Mrs. Galbraith of Shelburne, Ont., was a Great Sufferer from Indigestion, the Bane of so many Lives—South American Nervine Relieved Its Hold—It Relieves in one Day.

"I was for a long time a great sufferer from indigestion. I experienced all the misery and annoyance so common to this ailment. I spent a great deal on doctors without receiving any permanent benefit. I was strongly recommended to try South American Nervine. After using only two bottles I am pleased to testify that I am fully restored to health, and I have never had the slightest indication of a return of the trouble. I recommend it most heartily."

Baking Powder

Absolutely Pure

Not only for rich or fine food or for special times or service. Royal is equally valuable in the preparation of plain, substantial, every-day foods, for all occasions. It makes the food more tasty, nutritious and wholesome.

TOWNSHIP O

SOUVENIR FANATICS.

Nothing Is Safe From Those Afflicted With the Craze.

In these enlightened days, anything from the limb of a tree to a table napkin is liable to be carried away as a souvenir.

A western girl with a well defined case of the souvenir habit, sojourning in New York, was dining at a fashionable cafe and, being prepossessed in favor of the cunning pewter cream pots with which the tables were supplied, calmly carried one away in her muff. Can you imagine her self valuation when upon examining her prize later on she discovered carved across the bottom, "Stolen from M. S.?"

A Pittsburgh bachelor, wandering into a restaurant, came upon a friend just settling himself with two ladies. The bachelor was invited to join the party and, at the end of the luncheon insisted upon paying the costs. The bill being wrong, he went to the cashier's desk to personally adjust the discrepancy, where he was informed that the extra charges were for spoons which the ladies had put in their hand bags. And that was the first time he had ever met them!

Upon the occasion of the presentation of a handsome silver service by one of the United States to a battleship which was being christened in her honor an elaborate banquet was served aboard ship, at which the service was used. Society came en masse from the town near which they were anchored, and after the function was over there were not enough forks and spoons with which to lay the tables. And yet these souvenir fanatics would draw their moral skirts aside for fear of contamination with a real thief.—Bertha Reynolds Macdonald in Bohemian.

The Council met at Selby.

The members present were Messrs Alf McCutcheon, E. R. Sills, C. H. presiding.

The minutes of the last meeting were read.

CULTURE OF HAIR

THE EVANS VACUUM CAP is a practical invention constructed on scientific and hygienic principles by the simple means of which a free and normal circulation is restored throughout the scalp. The minute blood vessels are gently stimulated to activity, thus allowing the food supply which can only be derived from the blood, to be carried to the hair roots, the effects of which are quickly seen in a healthy, vigorous growth of hair. There is no rubbing, and as no drugs or chemicals of whatsoever kind are employed there is nothing to cause irritation. It is only necessary to wear the Cap three or four minutes daily.

60 DAYS' FREE TRIAL!

The Company's Guarantee.

An EVANS VACUUM CAP will be sent you for sixty days' free trial. If you do not see a gradual development of a new growth of hair, and are not convinced that the Cap will completely restore your hair, you are at liberty to return the Cap with no expense whatever to yourself. It is requested, as an evidence of good faith, that the price of the Cap be deposited with the Chancery Lane Safe Deposit Company of London, the largest financial and business institution of the kind in the world, who will issue a receipt guaranteeing that the money will be returned in full, on demand without questions or comment, at any time during the trial period.

The eminent Dr. L. N. LOVE, in his address to the Medical Board on the subject of Alopecia (loss of hair) stated that if a means could be devised to bring nutrition to the hair follicles their roots, without resorting to any irritating process, the problem of hair growth would be solved. Later on when the EVANS VACUUM CAP was submitted to him for inspection, he remarked that the Cap would fulfil and confirm in practice the observations he had previously made before the Medical Board.

Dr. W. MOORE, referring to the invention, says that the principle upon which the Evans Vacuum Cap is founded is absolutely correct and indisputable.

An illustrated and descriptive book of the Evans Vacuum Cap will be sent, post free, on application.

THE SECRETARY, EVANS VACUUM CAP CO.,
LIMITED.

The Story of a Berlin Shrew and Her Likeness in Stone.

This quaint equivalent of the German term *neidkopf* is applied by travellers to an effigy carved in stone and fixed in a niche in the second story of a house in the Heiligengeiststrasse in Berlin not far from the emperor's palace. The *neidkopf* represents a hideous, harpy-faced woman with snake-like curls and tongue protruding in mocking derision.

One day some 200 years ago, the legend runs, Frederick William of Prussia, more familiarly known as Old Fritz, was walking about the streets of the city in the unconventional way he affected when he chanced to look through a window and observed a hunchbacked goldsmith hard at work. The king entered the little shop for a chat.

The result of his interview was an order for a gold table service for the royal household, an order that made the fortune of the hunchback. Later his majesty made other visits to the shop to see how the work was advancing, and on one of these occasions he observed a woman in the window of the opposite house contorting her face in the most hideous grimaces and pointing with derisive finger at the crippled workman.

To the king's query as to what ailed the old woman the goldsmith replied: "It is envy, sire. She is the wife of a rival goldsmith, and ever since your majesty so graciously gave me the order she and her daughter have reviled me."

Frederick William, paternal in punishment as well as in reward, at once investigated as to the ownership of the house in which the shrew lived. He found that it belonged to her husband and therefore reasoned that there was little likelihood of the family moving, an idea that seemed greatly to please his majesty. His next move was to consult a sculptor, whom he commanded to make the bust of a woman with the most shrewish, Xanthe-like face he could imagine. The king then bought and renovated the house in which the hunchback had his workshop, presented it to him and caused the bust to be placed conspicuously above the workroom window. Thus whenever the envious woman across the street looked forth from her casement the first object on which her eyes fell was this intended portrait of her amiable self.

For more than a hundred years the *neidkopf*—spiteful vixen head, as one would say in English—stood in proud prominence, a reproach to the envious woman and her descendants. It afterward mysteriously disappeared, but in 1840 or thereabouts it was found in a forgotten collection of bric-a-brac. Frederick William IV. bought the bust for a large price and had it replaced in its original niche, where it stands today.

The Senate Band.

The press gallery of the senate does not look unlike a band stand, with its elaborately decorated front, and it is never occupied by the scribes prior to the opening of the proceedings. A young lady seated in the gallery opposite the press gallery had been looking intently at the empty seats for quite awhile. Her curiosity got the better of her, and, going to the doorkeeper, she said, "Mister, will you please tell me when the band begins to play?" The doorkeeper was amazed. "No, band will play, miss," said that gentleman. "There is no band. Why do you ask?"

The young lady looked disappointed and embarrassed when she said, with hesitation, "Isn't that the band stand?" pointing to the press gallery.—Washington Herald.

anchored, and after the function was over there were not enough forks and spoons with which to lay the tables. And yet these souvenir fanatics would draw their moral skirts aside for fear of contamination with a real thief.—Bertha Reynolds MacDonald in Bohemian Magazine.

He Didn't Care.

A Georgia man tells of the meeting of a negro "literary society" in that state. During the consideration of the business part of the club's programme some one had proposed that the regular time of meeting be changed from Tuesday to Friday, and this proposition provoked much disputation. Finally, the president of the society being appealed to for his opinion, that official declared with much gravity:

"Membahs of de s'ciety, pussonally, now, pussonally, I don't care which night de s'ciety meets, but fo' myse' I prefers Tuesday."—St. Paul Pioneer Press.

HOUSE WORK

Thousands of American women in our homes are daily sacrificing their lives to duty.

In order to keep the home neat and pretty, the children well dressed and tidy, women overdo. A female weakness or displacement is often brought on and they suffer in silence, drifting along from bad to worse, knowing well that they ought to have help to overcome the pains and aches which daily make life a burden.

It is to these faithful women that

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

comes as a boon and a blessing, as it did to Mrs. W. Barrett, of 602 Moreau St., Montreal, who writes to Mrs. Pinkham:

"For years I was a great sufferer from female weakness, and despite every remedy given me by doctors for this trouble, I grew worse."

"One day a friend advised me to try Lydia E. Pinkham's Vegetable Compound. I did so, and am thankful to say that it made me strong and well."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

THE PRINTING OFFICE TOWEL.

When I think of the towel,
The old-fashioned towel,
That used to hang up by the printing-
house door,
I think that nobody
In these days of shoddy
Can hammer iron to wear as it wore.

The tramp, who abused it,
The Devil, who used it,
The make-up and forman, the editor
(poor man.)
Each rubbed some grime off
While they put a heap on.

In over, and under,
'Twas blacker than thunder,
'Twas harder than poverty, rougher
than sin;
From the roller suspended,
It never was bended,
And it flapped on the door like a banner
of tin.

It grew thicker and rougher,
Harder and tougher,
And daily put on an inkier hue,
Till one windy morning,
Without any warning.
It fell on the floor and was broken in
two.—Burdette.

A Tart Answer.

A young and newly married couple were entertaining their friends, and among the guests was one whose continued rudeness made him extremely objectionable to the rest of the company. His conduct, although most unbearable, was put up with for some time until at supper he held up on his fork a piece of meat which had been served to him, and in a vein of intended humor he looked round and remarked:

"Is this pig?"

This immediately drew forth the remark from a quiet looking individual sitting at the other end of the table:

"Which end of the fork do you refer to?"—London Graphic.

A. WINTERS,

Tp. Clerk.

In 1882 Sir John Macdonald was a candidate for two constituencies—those of Lennox and Carleton. It was expected that he would have a walk-over in Lennox, but the Opposition developed such strength that the old chieftain felt compelled to spend the greater part of the two weeks before election in that constituency. It was a hot contest and excitement ran high. Many of the older residents had known Sir John from boyhood—some when

ONE OF THE HAPPY HOMES IN CANADA
WHERE PE-RU-NA IS USED IN THE FAMILY.

A Great Many Mothers Have Discovered That a Few Doses of Peruna Given at The Right Time Prevent Much Sickness.

The fatality of acute diseases during hot weather among children, is well-known to the medical profession. From year to year the average practicing physician changes his tactics and his remedies. One year the physician uses certain remedies with confidence and enthusiasm. The next year he is liable to adopt new remedies. But through all the changing vicissitudes of the medical profession in their treatment of infantile ailments, Dr. Hartman has clung with unwavering confidence to Peruna. Thus it is that Peruna has become a household word in many thousand families. In catarrhal derangements of the bowels resulting in summer complaint, diarrhoea and sometimes cholera infantum, a few doses of Peruna given in the early stages check the disease before it has reached a threatening severity. Many mothers, from Canada to Mexico, give cheerful testimony to the benefit of Peruna in the many catarrhal ailments to which the family is liable, both summer and winter.

when she began to improve in strength
and appetite.

"Now she has a good appetite and is a picture of health."

Baby With Indigestion.

Mrs. J. M. Brown, Dunnegan, Mo., writes:

"My little daughter, three years old, was troubled with a very bad cough, which remained after an attack of catarrhal fever, which was a great deal worse at night. She would wake up out of her sleep and cough until I feared she could not stand it. Nothing that we gave her seemed to do her any good.

"I then concluded to send for Dr. Hartman's book, entitled 'The Ills of Life,' which I promptly received. I at the same time commenced giving her Peruna. She has taken one bottle in all, through which she has obtained a complete cure.

"She also since her birth was troubled with indigestion, but since she has taken Peruna she can eat almost any kind of food without any bad results.

"She is now as well and happy as any little girl can be. When our friends say how well she looks, I tell them Peruna did it. I shall always be a friend of Peruna, as I consider it the best medicine for coughs and indigestion we have ever tried, and will recommend it to any one similarly afflicted."

Child Benefited by Pe-ru-na.

Mrs. Fritz Roethe, Pinckneyville, Ill., writes:

"I feel real well, and am glad I am able to say this. One of my children had a fever for five months, nothing would help him. The doctor said it was malarial fever, but his medicine did not help him at all.

"I then gave him Peruna, and it helped him immediately, and so far as he has not had another attack of it.

"When I wrote to Dr. Hartman I was unable to do my housework, now I am entirely relieved."

Mrs. Etta Booker, Dundurn, Sask., N. W. T., Can., writes: "I suffered with internal catarrh until I wrote to Dr. Hartman, and after taking treatment as he advised I can say I am now cured of this most trying affliction, for which I am truly thankful. I think Peruna the best medicine for catarrh. I never felt better in my life than I do at present."

In a later letter Mrs. Bookers says: "I can truthfully say from experience Peruna is a most wonderful medicine, and in the case of my little daughter, Elsie Booker, it did all I could wish for, and I am entirely willing that you may publish a testimonial in regard to her cure."

Ailing Children.

Mrs. Schopfer, 5920 Prescott Ave., St. Louis, Mo., writes:

"In the early part of last year I wrote to you for advice for my daughter Alice, four years of age. She was a puny, sickly, ailing child since she was born. She had convulsions and catarrhal fevers.

"I was always doctoring until we commenced to use Peruna. She grew strong and well.

"Peruna is a wonderful tonic; the best medicine I have ever used.

"I was in a very wretched condition when I commenced to take Peruna. I had catarrh all through my whole body, but thank God, your medicine set me all

right. I would not have any other medicine.

"Peruna cured my baby boy of a very bad spell of cold and fever. He is a big, healthy boy fifteen months old. I have given him Peruna off and on since he was born. I think that is why he is so well.

"I cannot praise Peruna enough. We have not had a doctor since we began to use Peruna—all praise to it."

Child Now Healthy.

Mrs. G. W. Heard, of Howth, Texas, writes to Dr. Hartman in regard to her baby girl, Ruby:

"My little girl was two years old this January. She had some derangement of the bowels. She was a mere skeleton, and we did not think she would ever get well.

"She had been sick three or four months, and after giving her less than one bottle of Peruna she was sound and well.

"I found the Peruna splendid for wind colic, with which she was troubled

the murder and made him believe he was equally guilty in law.

Clark's disappearance was not noticed for a day or two. Then the people from whom he had "borrowed" jewelry and plate began to make inquiries. Suspicion was directed to Aram in some way. The village authorities searched his house and found a bundle containing battered plate and clothing stained with blood. Notwithstanding this, no action seems to have been taken by the authorities, nor was it suspected that Clark had been murdered. The neighbors began to jeer at the learned schoolmaster, however, and Aram suddenly left his wife and child.

Speech in his own defense has come down complete—a masterly attack on circumstantial evidence, showing the intellectual power of the man. Aram made a half confession the night before his execution, followed by an attempt at suicide. According to the custom of the time, his body was hanged in chains, and it swung in Knaresborough forest until 1778. Years later, when the details of his crime were dim, his remarkable career attracted Hood and Bulwer, and thus the obscure, talented, perverted man became a part of English literature.—Exchange.

EUGENE ARAM'S LIFE.

The Remarkable Career of This Famous Murderer.

A SCHOLAR AND A SCOUNDREL

The Hero of Bulwer's Novel and Hood's Poem Was Really a Vile Criminal Who Abandoned Wife and

pected that he would have a walk-over in Lennox, but the Opposition developed such strength that the old chieftain felt compelled to spend the greater part of the two weeks before election in that constituency. It was a hot contest and excitement ran high. Many of the older residents had known Sir John from boyhood, some when he "clerked" in a store in East Napanee, and others when he was barefooted school boy in Adolphustown. Among the latter was a retired farmer of the U. E. Loyalist stock, whose name was "Gus" Q.— He was a very strong Reformer and ready at all times to discuss politics.

Sir John had an excellent memory for old acquaintances, and he never met one without a greeting of some kind. Passing the office of the Express, the local Liberal newspaper in Napanee, one morning shortly before election day, he saw Gus standing in the doorway talking with some friends. "Hello, Gus; you alive yet?" was Sir John's greeting, adding, "I thought you bad enough Grit to be dead and buried long ago."

"Yes, Sir John, I'm alive yet, and expect to live long enough to put a nail in your political coffin."

Some further sallies passed between the two, when finally Gus got off this shot:

"Sir John, when you and I went to school in Adolphustown you were the worst boy in the section, and I'm darned if you haven't grown up to be the worst man in Canada."

Sir John gave vent to a merry laugh and in passing on remarked, "The same old Gus."

A SCHOLAR AND A SCOUNDREL

The Hero of Bulwer's Novel and Hood's Poem Was Really a Vile Criminal Who Abandoned Wife and Children and Knew No Remorse.

Eugene Aram, the scholar and murderer who inspired two of the masterpieces of English literature—Hood's poem and Bulwer's novel—was hanged on Aug. 6, 1756.

Aram was born in 1704 in Yorkshire. By the time he was fourteen years old he was regarded in the neighborhood as a prodigy of learning. His fame for piety and gentleness as a scholar spread, and as a result he was invited to Knaresborough to open a school in 1734. There a strange development took place in Aram's character. He formed an association with a drinking, turbulent crowd of men, the opposite of himself, among them Daniel Clark, who kept a little cobbler's shop, and Richard Houseman, a flax dresser.

In 1745 Clark married a woman with a small fortune of \$1,000. Immediately he and his companions devised a scheme to rob her and her friends. Clark was to obtain all the goods he could on credit and hand them over to Aram and Houseman, who were to deposit them in a safe place. Then after securing the plunder Clark was to decamp, leaving his wife to shift for herself, and the property was to be sold and divided among the three men.

Clark went about procuring a wide variety of articles on credit. He pretended he was about to give a great wedding feast and borrowed silver tankards, salvers, spoons, etc., from whoever would lend them. As fast as the different articles were obtained Clark, accompanied by Aram and Houseman, carried them to a place called St. Robert's cave.

When Clark had "borrowed" about everything valuable his acquaintances had to lend, the plotters decided it was time for him to disappear. So in the early morning of Feb. 8, 1745, he, Aram and Houseman went to the cave to divide the spoils before Clark left. Aram and Clark had quarreled a good deal during the progress of predatory operations. At the entrance to the cave the quarrel was renewed, and Aram pushed Clark away and rained down tremendous blows on his head and chest. Clark fell dead.

Houseman, terrified at the sight and, as he said, afraid of meeting the same fate, turned and ran away. Aram did not show a particle of remorse or fear. He gathered up the booty and carried it to his house, where he buried part of it in the garden. He buried Clark's body and heaped stones over the grave. In the afternoon he went for Houseman and threatened him if he disclosed

Children Enjoy It

"I have used Coltsfoot Expectorant with the greatest satisfaction with my children. It is a wonderful cure for colds and sore throat. I believe it saved the life of my little son, who was very sick from a protracted cold on his lungs."

MRS. ANNIE BRAMBLER, Orangeville, March 15, 1907.

"I am greatly pleased with the good results we got from Coltsfoot Expectorant. I get great comfort with it for my children."

MRS. WALTER HAMMOND, 171 Argyle St., Toronto.

Coltsfoot Expectorant is the greatest home prescription for all throat and chest troubles in the world. No home should be one hour without it. You can have free sample by sending name to Dr. T. A. Slocum, Ltd., Toronto. All good druggists keep it. Price, 25c.

Send for Free Sample To-day.

a bundle containing battered plate and clothing stained with blood. Notwithstanding this, no action seems to have been taken by the authorities, nor was it suspected that Clark had been murdered. The neighbors began to jeer at the learned schoolmaster, however, and Aram suddenly left his wife and children and walked to London.

For fourteen years his family heard nothing of him. He spent the greater part of the time wandering about from place to place, at last finding a situation as usher in a school at Lynn. In June, 1758, a horse dealer who had known him in Knaresborough met him in the Lynn market. Aram denied his identity. By a singular coincidence, almost the day the horse dealer accosted the now gray haired schoolteacher, a skeleton was found by some workmen digging a pit in Thistle hill, in Knaresborough.

A country town has a keen recollection of everything that has occurred to disturb it, and immediately the disappearance of Clark fourteen years before was remembered. Houseman still alive, got drunk first and then joined the crowd of villagers looking at the exhumed skeleton. "Clark," he said with drunken gravity, "was never buried here."

The latter, still too drunk to realize the gravity of his position, muttered that Clark's body would be found in St. Robert's cave. The crowd made a rush for that place, and soon a skeleton was exhumed.

"I did not kill him!" gasped Houseman, now thoroughly sober and terrified. "It was Aram. I had no part."

Houseman was taken to the village jail, and a warrant was sworn out for Aram. When the officers took him away from the school the pupils cried. The government used Houseman as a witness to convict Aram. The latter's

Piles are easily and quickly checked with Dr. Shoop's Magic Ointment. To prove it I will mail a small trial box as a convincing test. Simply address Dr. Shoop, Racine, Wis. I surely would not send it free unless I was certain that Dr. Shoop's Magic Ointment would stand the test. Remember it is made expressly and alone for swollen, painful, bleeding or itching piles, either external or internal. Large jar 50c. Send by— ALL DEALERS.

Knaresborough forest until 1778. Years later, when the details of his crime were dim, his remarkable career attracted Hood and Bulwer, and thus the obscure, talented, perverted man became a part of English literature.

A PECULIAR SPIDER.

He Catches Birds as Big as Larks in His Mammoth Web.

Far up in the mountains of Ceylon there is a spider that spins a web like bright yellow silk, the central net of which is five feet in diameter, while the supporting lines, or guys, as they are called, measure sometimes ten or twelve feet, and, riding quickly in the early morning, you may dash right into it, the stout threads twining round your face like a lace veil, while, as the creature that has woven it takes up his position in the middle, he generally catches you right in the nose, and, though he seldom bites or stings, the contact of his large body and long legs is anything but pleasant. If you forget yourself and try to catch him, bite he will, and, though not venomous, his jaws are as powerful as a bird's beak, and you are not likely to forget the encounter.

The bodies of these spiders are very handsomely decorated, being bright gold or scarlet underneath, while the upper part is covered with the most delicate slate colored fur. So strong are the webs that birds the size of larks are frequently caught therein, and even the small but powerful scaly lizard falls a victim. A writer says that he has often sat and watched the yellow monster—measuring, when waiting for his prey, with his legs stretched out, fully six inches—striding across the middle of the net and noted the rapid manner in which he winds his stout threads round the unfortunate captive.

He usually throws the coils about the head until the wretched victim is first blinded and then choked. In many unfrequented dark nooks of the jungle you come across most perfect skeletons of small birds caught in these terrible snares.

NERVOUS DEBILITY

OUR NEW METHOD TREATMENT will cure you and make you of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches and ulcers heal up; the nerves become strong & active so that nervousness, bad-temper and despondency disappear; the eyes become bright, the face full and clear, energy returns to the body, and the moral, physical and mental systems are invigorated; all drains cease, no more vital waste from the system. The various organs become natural and healthy. You feel young, full of vim and vigor, a ringing cannot be a failure. We invite all to inquire to consult no confidant and free of charge. Don't let quacks and fakers rob you of your hard-earned dollars.

NO NAMES USED WITHOUT WRITING CONSENT.

THREATENED WITH PARALYSIS.

Peter E. Summers, of Kalamazoo, Mich., relates his experience:

"I was troubled with Nervous Debility for many years, but had no relief until I used Coltsfoot Expectorant in early youth. I became very despondent and did not care whether I worked or not. I imagined everybody who looked at me guessed my secret. Inevitable dreams at night, weak-kneed—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were weak, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, who were unable to help me. I used Coltsfoot Expectorant to Mt. Clemens for baths, but received little benefit. While at Mt. Clemens I was induced to consult Drs. Kennedy & Kennedy, though I had lost all faith in doctors. The improvement was like magic. I could feel the vigor going through the nerves. I was cured mentally and physically. I have sent them many patients and will continue to do so."

CURES GUARANTEED OR NO PAY

We treat and cure VARICOCELE, STRICTURE, NERVOUS DEBILITY, BLOOD AND URINARY COMPLAINTS, KIDNEY- AND BLADDER DISEASES and all Diseases peculiar to Men. CONSULTATION FREE. BOOKS FREE. If unable to call write for a Question Blank for Home Treatment.

Bear the Kind You Have Always Bought

Charles Fletcher

CANNING and PRESERVING

"A Resolution to Do Our Own Preserving."

THE enforcement of the new pure food law has made some strange revelations. We may have suspected that we were eating adulterated jams, jellies and preserves, but we seldom put the suspicion into words. When we read on the label of a jam jar that the contents are prepared with glucose and other ingredients which, to our minds, have no business there, the concrete fact is a trifle staggering.

One of the results of this discovery is a resolution in the minds of most of us to do our own preserving and canning and jamming at home. The resolve is strengthened by the indisputable fact that home-made jams and the like taste far better than any one can buy for a reasonable price. Of course, there are certain varieties of these dainties which are put up by private persons for the public market, but the price of these is enough to deter the housemother from purchasing them for daily use. The laborer is worthy of her hire, and the woman who gives her own time and work to the preparation of pure conserves is justified in charging a sum for them adequate to recompense her for the labor she has put into the task. But while one can put up her own fruits at home for less money and with better results, both in taste and in wholesomeness than when she buys the ordinary conserves, she makes a mistake if she depends upon store products for her preserved sweets.

The receipts given below will, I believe, be of service to those who in the early spring plan for the contents of their winter store closets.

Canned Strawberries.

To every pound of hulled strawberries allow a quarter of a pound of granulated sugar and let the sugar and berries stand together in an earthen vessel for an hour. Put into a preserving vessel with a pinch of alum and let them simmer quietly for fifteen minutes. Dip out the superfluous juice, turn the fruit into cans, filling them to overflowing, and seal at once.

(2) Canned Raspberries.

Allow a gill of water and a half pound of sugar to every quart of raspberries, and, after having covered the berries with the sugar, let them stand for an hour. Put them over the fire, heat slowly and bring to a hard boil. Turn into cans and seal at once.

(3) Canned Gooseberries.

Allow a pound of sugar to every

"Weigh the Perfect Berries and Allow Equal Weight of Granulated Sugar."

"The Indisputable Fact that Home-Made Jams Taste Best."

covered while the fruit is cooking, and be careful that it does not cook long enough or hard enough to break the berries. Seal while boiling hot.

Canned Cherries.

Wash and stem good tart cherries and to every pound of them allow half a pound of granulated sugar. Put with the sugar enough water to dissolve it and boil to a thin syrup, skimming off the scum as it rises. After skimming the syrup turn the cherries into it and boil for five minutes. Take out the cherries with a spoon, pack them into pint jars, fill with the boiling syrup and screw on the lids of the jars, making them air-tight.

Canned Rhubarb.

Cut rhubarb into inch lengths without peeling, allow three-quarters of a pound of sugar to each pound of the rhubarb and proceed as with canned cherries.

Jelly of Small Fruits.

Wash and pick over the fruit, put it over the fire in a preserving kettle and heat very slowly. It is a safe precaution to lay an inverted plate of thick stoneware in the bottom of the kettle. When the fruit has cooked until well broken take from the fire and squeeze it, a small portion at a time, in a jelly bag. Measure the juice and to each pint of this allow a pound of granulated sugar. Put the juice back on the fire and set the sugar in the oven in a large shallow pan. Let it heat, but watch that it does not burn or candy. After the juice has boiled twenty minutes skim it and put in the sugar. Stir until the sugar is dissolved, bring the liquid to a boil, take at once from the fire and put into jelly glasses.

sugar. Put the berries over the fire alone and let them come to the boil very slowly. If there is too much juice, dip out some before putting in the sugar. The berries and sugar should cook together for fifteen minutes and then be canned immediately.

Canned Gooseberries.

Allow a pound of sugar to every

granulated sugar and let the sugar and berries stand together in an earthen vessel for an hour. Put into a preserving vessel with a pinch of alum and let them simmer quietly for fifteen minutes. Dip out the superfluous juice, turn the fruit into cans, filling them to overflowing, and seal at once.

(1) Canned Raspberries.

Prepare and cook as in the preceding recipe.

2. Canned Raspberry.

Allow a gill of water and a half pound of sugar to every quart of raspberries, and, after having covered the berries with the sugar, let them stand for an hour. Put them over the fire, heat slowly and bring to a hard boil. Turn into cans and seal at once.

Canned Blackberries.

To every quart of fruit allow a heaping tablespoonful of granulated

sugar. Put the berries over the fire alone and let them come to the boil very slowly. If there is too much juice, dip out some before putting in the sugar. The berries and sugar should cook together for fifteen minutes and then be canned immediately.

Canned Gooseberries.

Allow a pound of sugar to every pound of fruit and stew both together until the berries are clear and the syrup thick. Leave the saucepan un-

and set the sugar in the oven in a large shallow pan. Let it heat, but watch that it does not burn or candy. After the juice has boiled twenty minutes skim it and put in the sugar. Stir until the sugar is dissolved, bring the liquid to a boil, take at once from the fire and put into jelly glasses.

Rhubarb Jelly.

Cut the rhubarb into inch lengths and put over the fire, allowing a small cup

THE HOUSEMOTHER'S

I CANNOT help replying to the \$3.00 menu published some time ago, having waited to see if somebody else would not take the lead in commanding upon it.

Out of cents' worth of milk a day she has enough for breakfast cereal, coffee and pudding for luncheon.

I know one woman who, out of a pint of milk and twenty-five oysters, could make two steaks and a fry. But her son was her milkman and always contended that she must have made the steaks. She prepared out the oysters and fried them. She cooked her dinner at the same time with her breakfast to save coal. It was merely warmed up for dinner.

To return to the menu: As flour and lard are not counted in under groceries but for the week, of what did she make her piecrust? Nor is mention made of rice, potatoes, etc. She used good deal of rice, cheese, nearly every day, potatoes every day, and for luncheon. She certainly received the value of her money in meat. Where did she get potatoes, rice, etc.? They are not counted in under the \$3.00.

ONE WHO WOULD LIVE ON \$3.00 IF SHE COULD

I have already taken the liberty, as a lover of fair play, of pointing out to those who claim to live upon less than \$5 a week, and furnish menus showing how it is done, that it is not just to draw upon stores in cupboard, garden and refrigerator unless the price of these be added to the week's expenditures. Here is the weak spot in nearly all the lists of expenses sent in. Count in the cost of each article bought and each ingredient used in cookery for the week. Or, if you buy at wholesale, distribute the sum expended for such purchases among the days that follow until all are used up.

A Savory Dish

If the young lady in the province of Ontario had but chance to try this, she will recommend the name at once, and it will be a reminder of a very happy winter spent by her in Northern Manitoba.

It is the desire of that young lady to do justice to the gentlewoman of this district give the dish the name it now

bears. I hope it will be of use to "M. E. B." and others. ANOTHER YANKEE.

Ontario Liver.

Use calf's, beef or lamb's liver. Boil the liver whole until tender. While it is warm, mash it fine with a wire potato masher; then add to it a pint of milk, a few minced onions. Meanwhile, scald one quarter as much oatflakes as the bulk of the liver and let it cook thick but not too soft. Mix the porridge with the liver, stirring in well, and pack in a mould. When cold and firm, cut into slices and fry.

A savory breakfast or luncheon dish that reminds one of the far-famed Philadelphia scrapple. We join with you in hoping that the young lady from Ontario will see and recognize her good work.

Making Good Butter in Town

I have had so much benefit from the members who write for the Exchange that I should like to tell them how, living in town, I yet make good butter. We can hardly get nice dairy butter and that from the creamery is so flat.

To begin with: Never use soap in cleaning a milk pail, with cold, scalding water, then with cold—in summer especially.

We use a barrel churn because the butter comes quickly in it and it is easily cleaned. When the butter has "come," draw off the buttermilk, then pour into cold water to wash out the milk. Transfer to a bowl and work out the water. Then flatten down with the ladle. If you have ten pounds of butter, add four small teaspoonsful of salt, work in with a ladle, never with a wooden spoon. That is all the grain.

After working in the salt, set to one side, where it will cool, and leave it alone for three hours. Work over again to get out all the water, pack hard, and you will have butter that is no softer, know what makes butter that is no softer, know what I am saying, nor we live on a farm thirty years, made butter and sold it for 25 to 40 cents a pound. Now that we live in town all our old customers tell us they never eat such butter, we wonder.

If you churn in winter, always do it in the morning. Then you may work the butter over again and pack before night.

Time was when "we" made butter in our country home. That was so

long ago that I have a hazy idea as

to proportions. But a cupful of salt for a pound and a quarter of butter sounds "strong" to one who prefers her butter without salt—what is sold in this country as "sweet butter," and is found on every table abroad as "fresh." Traveling Americans generally add salt at table, much to the amusement of the natives, who consider salted butter fit for cookery alone. This may be one reason why I half doubtfully over your formula.

It may be all right. Will other butter-makers speak?

A Few Helps

May I send a few wee bits of helps, just to show my good will?

To Clean Dress Goods.

Have ready enough gasoline to cover the stain and a bar of white soap. Put in the garment, "good" side up, lay upon it, rub every part is touched by it; soap and rub until the gasoline is "suds." Wring out as dry as you can; rinse in a fresh supply of gasoline and wring again; another

hand on a

FAMILY MEALS FOR

SUNDAY

BREAKFAST.

Fruit, cracked wheat and cream, breakfast stew of beef, cornbread, stewed potatoes, toast, tea and coffee.

LUNCHEON.

Jellied chicken, egg sandwiches, grapefruit salad, crackers and cheese, berries and cream cake, iced tea.

DINNER.

Cream of tomato soup, braised veal a la jardinier, green peas, kale, cream pie, black coffee.

MONDAY

BREAKFAST.

Fruit, cereal and cream, baked eggs, white and brown bread, toast, tea and coffee.

LUNCHEON.

Barbecued ham, thin brown bread, lettuce and tomato salad, crackers and cheese, cake and marmalade, tea.

DINNER.

Asparagus soup, scalloped veal (a leftover), souffle of green peas (a leftover), new potatoes, custard pudding (cold) with cream, black coffee.

TUESDAY

BREAKFAST.

Stewed prunes, honey and cream, bacon and green tomatoes (fried), brown and

white bread, toast, tea and coffee.

LUNCHEON.

Savory stew (a leftover), Saratoga chips, quick biscuits, lettuce salad, crackers and cheese, gingerbread and jam, tea.

h beasts if we do not reach out with mind and heart to know all that may be known of this way of life? What are we better than broken spirited slaves if we dare not look up and out for our selves and see this goodly universe and wondrous life of all as the Lord of all has planned it?

HENRY F. COPE.

THE DUTY OF THINKING

The Need Is That Men Should Think Deeply and Thoroughly in Everything.

"Thinking these things," Phil. iv. 8.

Philosophers are the bane of to any degree of power to any kind of progress. No man can now entirely uninformed hold his views, if they are but in wolfish, not manly, exclamation of any other possible views; in my opinion, well turned to, to speak to shield you from the consequences of your ignorance and folly.

If there is any such thing as the devil, certainly he sought to strike when he could when he could men and induced them to believe that it was a sin to think, led them to concepts of religious truth as something fixed and immutable, and then split up the religious world into warring camps, each fighting for its own fixed views.

At first, when one confronts religious prej^d—he is inclined to ask, What is he of that? Why worry at all about doctrines and creeds? Yet, while philosophy is not the most important thing, it is to life and action as root to fruit. As a man thinks in his heart, so is he in his life.

It is of no little importance, then, that there should be right, clear thinking. In fact, the habit of clear thinking is of greater value than the results of such thinking when formulated in

CREEDS OR DOCTRINES.

It is not only a question as to what you are thinking about and what your conclusions may be; there is the deeper question whether you have the energy and courage to think through your problems at all.

Intellectual cowardice and mental sloth are serious foes of high character. Yet religionists are still often ready to hurl their denunciations at those who have the temerity to think about sacred subjects.

Intellectual stagnation and sloth frequently calls itself spiritual fidelity. They who are too lazy to step out and conquer new territory are busy holding the fort, defending doctrines long since outgrown; instead of fighting the foes of all mankind they are hurling edifices and anathemas at those who have disturbed their mental slumbers by dur-

ing to think the thoughts of the infinite in this new day.

It is to be feared that there are self-appointed defenders of the faith who, if they ever arrive in paradise, will bring nothing but their wings along, all other affairs, such as heart and brain, having perished from disease. Yet to-day such men, thinking that they are the oracles of the Most High,

There never has been a time when there were no heretics. Lenders always must walk alone while the mob abuses them for their temerity. The world never has been entirely without those who saw that each day brought some larger light. But the declaration of this still sits those who love darkness better than light to these tactics of persecution that are as

OLD AS RELIGION ITSELF.

Every man must summon up the energy to do some of his own thinking and the courage to stand by that which he thus obtains for himself. There can be no living faith without freedom in thinking. We need not only to insist on this right for ourselves but to maintain and protect the right of all men to liberty of conscience, to discover and hold their own beliefs.

No man can be a true man who is afraid of the truth. No religion can endure long that flies from investigation. Only the friends of darkness and those who love its deeds fear the light. The foes of religion are its friends who will put faith into fixed forms, who fear the future's larger life.

Religion is the art of living in the light of infinite relationships. Intelligence is a means of knowing these relationships. What are we better than

h beasts if we do not reach out with mind and heart to know all that may be known of this way of life? What are we better than broken spirited slaves if we dare not look up and out for our selves and see this goodly universe and wondrous life of all as the Lord of all has planned it?

HENRY F. COPE.

THE S. S. LESSON

INTERNATIONAL LESSON, JUNE 21.

Lesson XIII. Second Quarterly Review.

Golden Text, John 20. 31.

QUESTIONS FOR SENIOR SCHOLARS.

With what beautiful discourse did our Quarter's study begin? What do we know about our Lord's friends in Bethany—about Mary? about Martha? about Lazarus? How does the miracle wrought upon Lazarus compare with other miracles of our Lord? How is the physical act here the type of the spiritual lesson? What did the anointing of Jesus by Mary really mean? What triumphal event occurred between Lessons III and IV? How did Jesus teach humility in Lesson IV.? Where and when were the words of Lesson V. spoken? Of Lesson VI. Recount the incidents of the betrayal and arrest of our Lord as told by the four evangelists. Recount the incidents of his condemnation and crucifixion. How many appearances of

of water to every two quarts of the rhubarb. Simmer until very soft and squeeze in a jelly bag, a little at a

time. Boil this for ten minutes, adding a little lemon juice, and at the end of twenty minutes stir in the sugar and proceed as in the preceding recipe.

ON THE FARM

RAPE AS A FORAGE CROP.

Pastures will, in many districts, be short this year, owing to failure of the clover seeding last year, and the stock being turned out earlier this spring than usual, because of the shortage of feed in the barns. It will, for these reasons, be necessary, in many cases, to provide some forage crop to supplement the grass pasture and the hay crop as well. For the latter purpose, millet, or a mixture of oats and peas, will probably be as suitable and profitable as anything available, but the seeding of these will be more expensive than usual on account of the advanced market prices. For forage, there is no seeding as cheap as rape, the seed of which seldom rules higher than eight to ten cents per pound, while two or four pounds per acre is a sufficient seeding. For hogs, lambs and calves, or other young cattle, there is no better pasturage than rape, though it is not suitable for milking cows, owing to its effect upon the flavor of the milk. The seed of rape is almost exactly similar to that of turnips, and may be sown with a turnip drill or the grass-seeding attachment of a grain drill, or broadcasted by hand or with the grass seeder. If sown in drills, with the grain drill, all the openings except two must be plugged, and the rubber tubes for these directed to the hoes the proper distance apart, say 24 to 30 inches, to admit of horse hoeing, which will greatly help the crop and keep it free from the robbery of moisture by weeds. Rape may be sown any time in June or July, and, in good soil, well prepared, in a favorable season, will be fit for pasture in six to eight weeks. It is well not to turn stock, except hogs, on it till it is eight or ten inches high, and better for cattle and sheep if higher than this, as it is when the stalks attain the size of a man's finger, that the feed is the most palatable and nourishing. It is especially useful as a late fall pasture, lambs and calves flourishing on it right up to snow fall, as frost does not injure, but rather improves its feeding value. On rich clean land a good crop of rape may be obtained by sowing the seed broadcast and covering it lightly with the harrow. For this seeding, about four pounds per acre is necessary, but when sown in drills two pounds is quite sufficient. From the middle of June to the first of July is, as a rule, the best time to sow, but in a showery season a barley stubble plowed down after the crop is harvested, and the land brought to a fine tilth by rolling immediately after the plow, and repeated use of the harrow and roller, may produce a considerable crop of rape for late pasture. Rape may be successfully grown on an upturned sod prepared by rolling immediately after the plowing and harrowed repeatedly to secure a fine seedbed rolling again before sowing. A thinly covered grass pasture, after being eaten down, may, in this way, be utilized for a crop of rape. Stock should at first be turned on rape when it is free from dampness from dew or rain, and when the animals are not hungry, as otherwise, bloating may occur; but when they become accustomed to it, they may safely be kept constantly upon it, though it is well, where convenient, to allow them, also, the range of a grass pasture. Ewes or older sheep are more liable to bloat on rape than are lambs, which are very seldom affected in that way. If rape is sown in drills, and there is no better plan than by riding the land with a double-mouldboard plow, cultivation by means of the horse hoe should commence as soon as the plants are easily traced in the line of the row. This will destroy all weeds while young, and will stimulate the rapid growth of the crop. Shallow but frequent cultivation should follow at intervals.

THE DAIRY COW A WONDERFUL CREATURE.

DINNER.

Potato and tomato soup (a left-over), scallop of halibut (a left-over), potato puree (a left-over), string beans, berries and cream, cake, black coffee.

our Lord after his resurrection from the dead are recorded in the Gospels?

QUESTIONS FOR INTERMEDIATE SCHOLARS.

Lesson I.—Jesus the Good Shepherd.—What is the first verse of the twenty-third Psalm? In this lesson what does our Lord call himself? How does he describe his sheep? Whose voice do his sheep recognize? What other kinds of shepherds does the Master allude to? What is the final proof of the Good Shepherd's devotion?

Lesson II.—The Raising of Lazarus.—What noted family lived in Bethany? Where was this town? Why did Jesus wait several days before starting to Bethany after he heard that Lazarus was sick? What did the sisters say to him when he arrived? What is the shortest verse in the Bible? Why did he weep? What divine power did Jesus show in this chapter?

Lesson III.—Jesus Anointed at Bethany—When was this feast given? What noted guests were there? What did Martha do? What did Mary do? Who complained? Why? What praise did the Master bestow? What did he say of the poor?

Lesson IV.—Jesus Teaches Humility.—When did this event take place? What two things is it said that Jesus knew just at this juncture? What act of service did he perform? What does the scene teach us?

Lesson V.—Our Heavenly Home.—With what verse does this lesson open? What cure does the Master give for heart troubles? What has he prepared for his followers? Of what does he give assurance in this lesson? What great gift does he promise?

Lesson VI.—The Mission of the Holy

Let them stand until they are cool enough to be handled comfortably. Then seed as usual. Repeat the scalding if they are not soft.

Advice for Traveling

My husband and I contemplate a trip to Europe this summer. It is our first, and we have no idea where to stay in the different cities we hope to visit.

Our idea is to rent furnished rooms and to take our meals at restaurants wherever we may chance to be. What I want to know is—do you know of any book or catalog of different pensions and rooming houses in the principal cities of Great Britain and the Continent?

If you could inform me of such a book, I should be greatly obliged.

Any good guide-book—to be obtained at the station of any place you visit—will give you a list of lodging-houses and pensions. Baedeker lists hotels and pensions. But your best plan would be to apply at the office of a first-class travelers' agency in this country for the books you wish to have. Bon voyage!

Recipe for "Amy"

"Amy" wishes to have a recipe for timbale shells. I send it with pleasure.

Timbale Shells.

Mix three-fourths of a cup of flour with half a teaspoonful of salt; two-thirds of a cupful of milk and one egg slightly beaten. When these ingredients are perfectly smooth, add a teaspoonful of oil. Dip a hot timbale iron into the mixture and fry the batter that clings to the iron in boiling fat deep enough to cover it. The shells may be filled with oysters, mushrooms, sweetbreads or peas. If the batter be not perfectly smooth, strain it.

Several other recipes for making the timbale cases have been received in response to "Amy's" request. They will be printed in later issues. An-

Spirit.—By what name is the Holy Spirit called here? What other terms help us to understand the meaning of that word? Of what does he convince the world? Why was it better for the disciples that Jesus should go away and leave them? What is the great sin, according to this chapter?

Lesson VII.—Jesus Betrayed and Denied.—Who plotted to destroy the Master? Who betrayed Jesus into their hands? In what place did the betrayal occur? At what time? What prompted Judas to do this thing? Who followed Jesus afar off? Who denied him? How many times? What motives led him to do this act? What differences do you see between the sin of Judas and that of Peter?

Lesson VIII.—Jesus' Death and Burial.—What Jewish officials sat in judgment on the Saviour? On what grounds was he condemned? Who gave final sentence that he should die? What title was written over his cross? What two rich men buried him? For whom did he die?

Lesson IX.—Jesus Risen From the Dead.—On what day of the week was Jesus crucified? On what day did he rise from the dead? What effect did his death have upon his disciples? Who were last at the cross and first at the tomb?

Who first received a message that Jesus was risen? Did the disciples believe the testimony of the women? What three truths does the resurrection of Christ make clear and sure to us?

Lesson X.—Jesus Appears to the Apostles.—When was this first revelation of Christ made to the apostles? How many of them were there? Where was Judas? Where was Thomas? Why did not Thomas believe the testimony of his fellow-disciples? Did they cast

other query of hers is answered below.

"Amy, of Fairbank, Iowa," desires a recipe for nut bread. Herewith find one I can recommend as delicious and trustworthy—superior to any other I have used:

Nut Bread.

One-third of a package of breakfast food; one-half cake of yeast; one pint of tepid water. Let it rise overnight. In the morning add salt, two cups of flour and two-thirds of a cupful of chopped nuts.

Form into two loaves, putting butter between them; let them rise, and then bake one hour in a moderate oven.

This makes perfectly delicious sandwiches, especially toasted sandwiches, and may be lightly spread with cottage cheese, or with cream cheese.

Preserving Eggs

Some time ago I noticed in the Exchange a formula for preserving eggs. I thought I had saved it, together with other valuable recipes. Now that I want it I can't find it. Will you kindly print it again? Eggs are cheap now, and fresh; so, perhaps, others may be benefited by the repetition. Can you tell me what "water glass" is? Also, what is "land plaster"?

The formula to which you refer has an ugly way of getting lost. Ten "Constant Readers" have written to me for it.

Dissolve one part of silicate of soda in fourteen parts of water. Leave all night. Next day, pack the eggs in a stone crock, small ends downward, and cover with the solution. Fit on a close cover and keep in a cool, dry cellar.

"Water glass" is a name sometimes given to silicate of soda.

"Land plaster" is rock gypsum, ground into powder. It is the "lime" of commerce, sold by the ton for spreading upon sour or heavy soil.

him out of their company for his unbelief? What happened a week later? Was Thomas present? When he realized that he actually saw his Master alive again, what did he say? Of what account is it to us that a man like Thomas was a disciple of Christ?

Lesson XI.—The Risen Christ by the Sea of Galilee.—Where did the third manifestation of the risen Christ to his disciples occur? Why was this region beloved by them all? In what plight did he find seven of his disciples? What had he prepared for them? Of what was the draught of fishes a pledge and sign? What did he say to Simon Peter? What was the apostle's final reply? How many times had he denied his Lord? How many times does he now acknowledge him? What is the Golden Text of the Review Sunday?

STRIKING AN AVERAGE.

The children were not allowed in the kitchen, but nobody had ever forbidden their sniffing outside the door to catch the delicious odors which could be obtained by a close application of a small nose to a crack.

"Why, Ethel," said Mrs. Harwood, who discovered them in the entry just outside the kitchen door one Saturday morning, "Why are you twitching Tommy and slapping him?"

"Cause he isn't playing fair, mother," said Ethel. "He's had five smacks and I've only had four, and it's my turn."

"I am, too, playing fair," asserted Tommy, his utterance smothered as he again applied his nose to the crack. "I've got an awful cold, and I can't smell half as much as she can!"

in the line of the row. This will destroy all weeds while young, and will stimulate the rapid growth of the crop. Shallow but frequent cultivation should follow at intervals.

THE DAIRY COW A WONDERFUL CREATURE.

Building up a dairy herd is not so easy to a man who has not the things ready, made to his hands. It is this representative of the great American class of farmers, who is earning his bread in the sweat of his face, who can ill afford to make mistakes. He is the average, brave hearted, struggling burden bearer who ever should have concern that any message that is sent may reach him, says W. F. McSparran, Penn. "To this man I have heard given the advice to sell and invest the proceeds in as many good cows as they will buy; but buying is the very last way to get good ones. My advice to such a man would be to get into shape to feed those cows a good full ration for a whole year.

A cow may be better than she looks or worse than she looks; the only way to tell one is to live with her. Get rid of the poor ones—they take the bread out of our mouths but the more promising ones may surprise you, with judicious feeding. Put them to the test! shelter them from storms; be kind to them; don't try to half starve them on a half dry pasture but give them full round year ration. Send your scrub bull to the butcher and get the best bull of your breed that you can buy. The dairy cow is a wonderful creature. From the food she eats she must maintain her physical well being, nourish her young and furnish milk for her master.

There is a broad look in that last sentence, which if the farmer will take it, will help wonderfully in indicating to him how he should treat his cows. It ought to sink deep into the mind of every farmer. We will repeat it:

"From the food she eats she must maintain her physical well being, nourish her young, and furnish milk for her master."

"CENTRIFUGALIZED MILK."

Japanese English as It Is Printed in a Kobe Newspaper.

If you don't know what "centrifugalized" milk is go to Kobe, Japan, and there sit at the feet of Tamero Hanamiya, "dealer in milks," and drink in wisdom spiced with sweet phraseology. Here is an advertisement sent out by Mr. Hanamiya and copied in an English newspaper published in the Japanese port:

I have the honor to write a letter for you that we have now established the Japan milk Sanitary Laboratory and its branch or special milk delivering office, as which caused our dairy men are very poor to deliver an unsanitary or tuberculous and even bad cow's milk bacteria and milk constituents before their delivering and even for their cow's health, under and food, and in this branch or milk delivering office their pure milk is again filtered through the Bundo's method's apparatus till the bacteria is all out, and we can deliver their pure milk with the satisfactory proof, as the seal is on the bottle, and now your drinking milk or city's milk is all about when danger comes, as their milk is included many dirts and air bacteria, but you are very hard to see them well with your naked eyes, and if you can often through pass the flannel or cotton covered with linen or if it be centrifugalized which is very easy well to see with naked eyes if always. I beg if you are sanitary man or baby and sick man have, you must have the pure sanitary milk and take your health. If you can make me for order to have the sanitary milk sooner as possible you should soon write me without your servant or make your order for my delivering boy who can always ask you. Please make me your order with kind regards.

"And I am the very first you have loved, Bertha?" "Of course you are! How tedious you men are! You all ask me the same question!"

HEN FRUIT FOR ENGLAND

THE DEMAND IS FAR IN EXCESS OF THE SUPPLY.

England Consumes 4,400,000,000 Eggs a Year, Best is Raised in France.

Raising eggs for the English market offers a great future to French farmers, according to an article by G. Labadie-Lagrange published in a recent number of the Paris Figaro. England consumes 4,400,000,000 eggs a year, he says, and the demand for real new laid eggs is far in excess of the supply. This is where the opportunity for France comes in, he thinks.

The hens of England itself, after reserves have been set aside for new crops of chickens, send 2,270,000,000 eggs to market every year. The balance of 2,130,000,000 comes from abroad. It is a fiction of London dealers that they come from Belgium and Holland. They don't, Lagrange says, they come from almost any other country, even Egypt, Morocco and Siberia. They are called Belgian because Belgium is so near they can pretend to be fresh.

USED ON LEATHER.

As a matter of fact, the African eggs are not imported to be eaten, "even by the poor." They are chiefly sold to bookbinders, who use them, Lagrange says, to make the leather they use more supple. But eggs from Italy and Hungary and vast quantities from Russia, even from Siberia, are sold for consumption as German or Swedish, and are bought at low prices by bakers and confectioners who are not particular.

The fine West End bakeries in London advertise that they use only English eggs and they generally live up to their declarations. But for some classes of confectionery the Spanish egg is in special demand. It has a yolk of deep orange hue and when used in cakes gives them a richness of color and flavor that cannot be attained in any other way. They are the product of the black Andalusian hen and expeditious methods of shipment are used to get them to London.

There are several retail purveyors in London whose trade calls at least

40,000 FRESH EGGS A WEEK.

The surplus from the British henries when the rest of the country is provided for is totally unequal to supplying the demand. Sweden, being cold, is not a first rate egg producing country, and the steamer service to England is inadequate. Germany is a great eating country and practically uses up all she produces. America can send inferior grades, but of course not newly laid eggs. Holland and Belgium produce only a few millions annually above their own needs. Danish eggs are not popular in England because of their peculiarly pale color.

Thus the consumption of fresh eggs is actually restricted in England by the present impossibility of supplying the market. Lagrange therefore urges the small French farmers within a couple of hundred miles of the Channel ports to go heavily into chicken raising with a view to the production of eggs. He urges them further to raise hens of black or brilliant plumage so as to get eggs with dark yellow shells and yolks, as these sell in London at from eight to ten cents a dozen at wholesale in advance of the pale varieties.

COLLEGE OF THIEVERY.

Theory and Practice of Art From Shop-lifting to Burglary Taught.

A flourishing "academy," equipped on the most modern lines, for the training of thieves, has just been discovered at Toulouse, France. The Fagin of the establishment appears to have been an upholsterer, named Clovis Rondo, aged 22.

The "academy" carried on business in premises that had once been occupied

HUSKY VEGETARIANS.

Can Crook Their Fingers Many More Times Than Meat Eaters.

Two Belgian physicians who have been experimenting with the results of vegetarianism report in favor of that practice. They have published a pamphlet tracing the personal history of forty-three vegetarians of Brussels. "For the most part," say the authors, "the vegetarians appear younger than their age; notably the ladies are distinguished by their clear and fresh complexion."

According to Science very little difference was discovered between vegetarians and meat eaters so far as strength was concerned. In endurance, on the other hand, a very remarkable difference was found, the vegetarians surpassing the meat eaters from 50 to 200 per cent., according to the method of measurement.

The method of measuring endurance used by the Belgian investigators was by means of the Mosso ergograph. One of the fingers is used to raise a weight as far as possible. As the experiment proceeds and fatigue sets in the height to which the weight can be raised is gradually reduced until no further contractions are possible.

If a curve be constructed representing the height of the successive contractions it is called a curve of fatigue, and it is found that this curve is different for different individuals, but is constant for the same individual from one day to another, and even after an interval of several years, if the conditions of the experiment remain the same.

The authors compared the endurance of seventeen vegetarians, six men and eleven women, with that of twenty-five meat eaters, students of the University of Brussels. Comparing the two sets of subjects on the basis of mechanical work, it is found that the vegetarians surpassed the meat eaters on the average by 53 per cent.

Comparing the two groups on the basis of the number of contractions—or, what amounts to the same thing, the length of time during which the ergograph could be continuously operated—it was found that the vegetarians could work on the ergograph two or three times as long as the meat eaters before reaching the exhaustion point.

The Brussels investigators found also that the vegetarians recuperated from fatigue far more quickly than the meat eaters, a result also found in the Yale experiment.

TONBS OF SPANISH ROYALTY.

Most Gorgeous Burial Vaults—Marble Effigies of Children.

The escurial in which for nearly three centuries the Kings and Queens of Spain have been buried is said to be the most gorgeous burial vault in the world, says London Tit-Bits.

It is an octagonal chamber, thirty-six feet across, with its walls, save where the collins stand, entirely overlaid with precious marbles. The staircase which leads to it is of marble with jasper walls. The general effect is unspeakably splendid. In the midst of this magnificence are the massive black marble caskets let into the walls, containing the bodies themselves. They are all exactly alike, inscribed simply with the names of the different kings and queens. There is room for just six more monarchs and their consorts.

Of another character altogether is the vault devoted to Spain's royal children—princes and princesses. Here white marble rules, and very charming are some of the effigies over the tombs. The local name for the vault is "the place of the little angels," and though many of the princes who lie here were not at all angelic in their lives the impression left by the white marble wings of the statues is one of spotless purity.

One unfortunate Spanish King, Don Jaime II. of Aragon, is daily on view in the cathedral of Palma, in Majorca. The sacristan of the place takes you to a yellow marble monument in the choir, opens a cupboard, and pulls out a very ordinary coffin with a glass lid. As poor Don

ROMANOFF'S VAST RICHES

THE WEALTHIEST ROYAL FAMILY IN EUROPE.

Several Sources By Which the Czar's Great Income is Made Up.

The imperial family of Russia is the richest royal family in Europe, and derives its wealth from three sources—the State treasury, the imperial domains (formerly Church lands), and the so-called "Cabinet properties." The State treasury provides for the Czar as the Sovereign, the imperial domains are the joint property of the members of the House of Romanoff, but administered by the head of the house; the "Cabinet properties" are the personal possessions of the reigning sovereign as such.

No data of any kind are available for estimating the amount of property held by the Czar and other members of his house in their private capacity as individuals. It is known to be very considerable in land and in gold, says the Pall Mall Gazette, but is very rightly treated as such.

A PURELY PRIVATE MATTER.

The State treasury pays out a million and a half sterling a year for the needs of the imperial house, principally for the maintenance of the palaces and the officials and servants attached to them. The reigning Empress for example has an allowance of £20,000 a year, the Dowager Empress the same. Every child born to the Czar receives from birth to the age of 21 nearly £4,000 a year, while the heir to the throne receives annually, in addition to maintenance of palaces, £10,000. Daughters receive a dowry of one million rubles, or a hundred thousand pounds, when they marry. The figures under this head are comparatively modest, and the total expenditure charged to the treasury is less than 1 per cent. of the annual budget.

The imperial domains, the main source of the wealth of the Romanoffs, were originally Church lands. In the Middle Ages the Church in Russia was not only the repository of all the learning of the land, but its bankers and usurers also, and the wealth, amassed in the course of centuries was enormous. The Russian Church is poor now, but the bulk of its possessions passed to the House of Romanoff a century ago. The imperial domains comprise 21,328,000 acres, an area

LARGER THAN ALL IRELAND.

About two-thirds of this area is forest, out of which a good revenue is made; the timber exported from Archangel is known all over the world, while the estate of Bleovezh, that magnificent forest where are still preserved herds of the aurochs, annually provide for sale 2,000,000 cubic feet of timber; another estate in the Vologda province produces annually for the imperial sawmills there.

The other third of the area comprised in the imperial domains, something larger than all Wales, is highly cultivated land. The largest vineyards, producing the best wine in Russia, belong to the domains, and about a hundred and fifty thousand pounds worth of wine is sold annually from this source. In the province of Samara is a sugar plantation the factory on which produces 1,500 tons of sugar every year.

Mineral wealth is worked in a hundred spots; 1,500 flour mills, a thousand fisheries, not for sport but as an article of trade, hundred wharves on various rivers and 850 trading concerns of various kinds are among the minor undertakings belonging to the imperial domains. But the greater part of the cultivated area is rented to others, 15,000 lots for purely agricultural purposes, and 10,000 for the higher forms of cultivation,

FRUIT, VINEYARDS, &c.

The clear profit derived from these various sources is over two millions sterling per annum. During the past hundred years, since the Church property was converted to the imperial use, a sum of

BITS OF INFORMATION.

Little Chunks of Knowledge About Most Everything.

Some of the icefields of Greenland are believed to be a mile and a half in thickness.

A cheque for \$10, written on a strip of leather, has been presented and cashed at a Pittsburg bank.

In Persia the man who laughs is considered effeminate, but free licence is given to female incontinence.

Criminals in Buenos Ayres who are sentenced to long terms of penal servitude are frequently released on parole for certain hours each day, so that their private business will not suffer.

When the telephone wires are overland the speed of transmission is at the rate of 16,000 miles a second; where the wires are through cables under the sea the speed is only 6,000 miles a second.

Robert P. Peters, of Sioux, Iowa, who has just celebrated his ninety-fourth birthday, has been in the city police for seventy-five years, and claims the record as the oldest municipal officer in the United States.

Miss Innes Schaeffer, a well-known leader of New York society, has just paid \$5,000 for the famous English bulldog Mahomet. This lady is building kennels at her residence in Maryland which will cost \$25,000.

The Prince of Monaco possesses one of the most valuable collections of autographs in the world. An entire wing of His Highness's palace at Monaco is reserved for the display of documents written by celebrities.

Naval experts put down the active life of a modern battleship at about fifteen years. A hundred years ago battleships lasted almost six times as long, and were on active service nearly the whole time of their commission.

Whenever an intoxicated man is conveyed to the Denver Police Station his photograph is taken, and the next morning he is shown how he looked the night before. The photograph cure, the police say, is accomplishing wonders.

Cyclists will be interested to hear that a doctor has been investigating the proper nourishment for a long distance ride, and has concluded that no meat or other nitrogenous food should be taken while doing the day's work, but that the ideal refreshment is fruit and milk.

Exeter, England, has long possessed the heaviest ringing peal of bells in the world. The tenor Grandison, so named after a former Bishop of the diocese, has been recast and its weight increased, so that it is now about 3 tons 13 cwt., or, roughly, half a ton heavier than the tenor of St. Paul's.

A man eighty years of age and a woman of seventy-two eloped from a home for old people at Dornbirn, a little town near Bregenz, Germany, because they were refused permission to marry. A week after they returned to the establishment, stating that they had been married and had spent all their money in having a good time.

The railway stations of Berlin are shortly to be provided with automatic machines which, on the insertion of two shillings and a penny, will deliver an umbrella. A ticket will also drop out, and, on presenting it within two days to an office of the automatic society, 1s. 8d. will be paid back in return for the umbrella.

A noted firm of fire-extinguisher manufacturers in Finsbury Square, London, doing extensive business in Germany, have decided that all their clerks, from the office-boy upwards, must acquire a knowledge of German. Tuition is given in that language during business hours. Half the staff collect in a room apart for an hour's instruction, at the end of which they resume their ordinary duties, and the rest take their turn in "going to school."

CARRIED OFF BY A TIGER.

A Hunter in Burma Describes His Awful Experience.

It is not often that a person who has been in the claws of a tiger can tell later how the experience seemed to him. Mr. John Bradley, an English sportsman, had

the most modern lines, for the training of thieves, has just been discovered at Toulouse, France. The Fagin of the establishment appears to have been an ex- upholsterer, named Clovis Rondo, aged 22.

The "academy" carried on business in premises that had once been occupied by a religious association. Theoretical and practical instruction was given in every known form of thieving, from shoplifting and pocket-picking to house-breaking, each class being in charge of a "professor" who had graduated at the "school."

A course of physical exercises formed part of the curriculum, and a very fine gymnasium was fitted up on the premises. Here the pupils, who number about fifty, hardened their muscles, and at the same time were taught the most efficacious methods of escalading garden walls and like obstacles.

Working models of every known variety of safe and strong box were among the equipments of this institution.

The students passed qualifying examinations. Entering as "apprentices," they became successively "workmen" and "masters." By the way of a closer insight into the practical side of their calling, those qualifying in the burglary sections were taken on night excursions, and actually assisted in the robbery of dwellings.

The band, by its audacity, had terrorized Toulouse and the surrounding country for a long time. Until the other day the police sought in vain for the headquarters of the criminal "association." Then a piece of paper, on which was scrawled a portion of an address in Toulouse, picked up at the scene of a burglary, gave them the clue they wanted. The school was promptly raided, and "professors" and "pupils" captured en masse.

GOLD TURNED TO LEAD.

How a Credulous French Peasant Was Robbed.

A clairvoyant named Mme. Salmon, who swindled a credulous peasant living near Bourges, France, of the whole of his savings, was sentenced to five years' imprisonment, besides being condemned to pay a fine of £120.

The victim had been affected by gout. Despairing of obtaining a cure, he was led to consult Salmon, who enjoyed a local reputation as a "healer." She told him that he would be able to dance a polka in a week provided he followed her instructions. The peasant agreed.

"All you have to do," she said, "is to put a hundred louis under the mattress of your bed, and sleep on them for eight days." It so happened that the man did not possess the needful sum. He, however, converted all his savings into gold and handed the amount to the woman. In his presence she apparently put the gold into a box which she afterwards placed under the mattress. The peasant's state of health did not improve, and at the end of the specified time, growing dissatisfied with the method of treatment, he opened the box. All it contained was a quantity of white lead wrapped in paper.

LAUGHING BIRD OF AUSTRALIA.

To the outside world the greatest ornithological oddity in Australia is the kookaburra. In earlier times it was known as the "settler's clock," from a belief that its joyful peans were vented regularly at morn, noon and dusk, being quiescent through the heat of the forenoon and the wane of the afternoon. That belief has long been shattered. The kookaburra laughs just when the fit takes it, particularly when excited, and it laughs as readily at the violent death of its mother-in-law as it does at the enraged settler, when he falls off his haystack. A wounded bird makes a demoniacal roar, which will bring all others within hearing into the neighboring tree, and these at once set up an echoing cackle that is reported again and again.

A single orange-tree produces during its life 20,000 oranges; and a lemon-tree, 8,000 lemons.

is one of spotless purity.

One unfortunate Spanish King, Don Jaime II. of Aragon, is daily on view in the cathedral of Palma, in Majorca. The scristian of the place takes you to a yellow marble monument in the choir, opens a cupboard, and pulls out a very ordinary coffin with a glass lid. As poor Don Jaime died in the fourteenth century, he is not now at all a lively spectacle. His mummy is made gay, however, with imitation royal robes—cottony ermine, and so forth.

POLICE METHODS IN WARSAW.

Arrested All the Men of a Certain Name and Imprisoned Them.

Sherlock Holmes would not find much to praise in the methods employed by the Warsaw police when trying to trace criminals. An instance of their brilliance is now making all those not immediately concerned therein laugh. Some time ago Mr. Hautke, a manufacturer, was shot while leaving his works, and the murderers could not be found, writes a Warsaw correspondent of the *Pall Mall Gazette*.

The other day rumors ran through the town that one of the criminals was named Malicki. The police heard this rumor, obtained the addresses of all males in Warsaw bearing this name from the municipal address bureau, and arrested them without delay.

Then they sent for the murdered man's relatives, confronted them with some hundred Malickis in turn, and asked, "Is this the man who murdered Mr. Hautke?" As none of Mr. Hautke's relatives was with him at the time of the murder, their answers were, without exception, "I cannot say," and they were finally dismissed.

But the Malickis were not so fortunate, and are still under arrest pending further inquiries. Some of them begged the relatives to say they were implicated in the murder, so that they could at least be let out on bail. As it is, though they declare they know nothing of the crime, they are packed in cells like herrings in a barrel, and are likely to remain there till the real culprits appear.

The incident sounds more like one of Gogol's satires on Russian bureaucratic methods than of plain facts. All the Malickis vow they will employ their first hours of liberty in tracing and lynching those who floated the story of their implication in the murder.

SIGNS OF RAIN.

The hollow winds begin to blow,
The clouds look black, the glass is low;
The soot falls down, the spaniels sleep.
And spiders from their cobwebs creep.
Last night the sun went pale to bed,
The moon in halos hid her head.
The boding Shepherd heaves a sigh,
For, see, a rainbow spans the sky.
The walls are damp, the ditches smell,
Closed is the pink-eyed pimpernel.
Hark! how the chairs and tables crack;
Old Betty's joints are on the ruck;
Load quacks the ducks, the peacocks cry;
The distant hills are looking high.
How restless are the snorting swine!
The busy flies disturb the kite;
Low o'er the grass the swallow wings.
The cricket, too, how sharp he sings.
Puss on the hearth, with velvet paws,
Sits wiping o'er her whiskered jaws.
Through the clear stream the fishes rise
And nimbly catch the incautious flies.
The glowworms numerous and bright
Illumed the dewy dell last night.
At dusk the squallid toad was seen,
Hepping and crawling o'er the green;
The whirling wind the dust obeys,
And in the rapid eddy plays;
The frog has changed his yellow vest,
And in a russet coat is dressed;
Though June, the air is cold and chill,
The mellow blackbird's voice is shrill.
My dog, so altered in his taste,
Quills mutton bones on grass to feast;
And see you rooks, how odd their flight
They imitate the gliding kite,
And headlong downward seem to fall
As if they felt the piercing ball.

"I will surely rain; I see with sorrow,
Our jaunt must be put off to-morrow.

—From an Irish Reader of 1840.

purely agricultural purposes, and 10,000 for the higher forms of cultivation.

FRUIT, VINEYARDS, &c.

The clear profit derived from these various sources is over two millions sterling per annum. During the past hundred years, since the Church property was converted to the imperial use, a sum of twenty-five millions sterling has been paid out to various members of the imperial house. Under the head of imperial domains is also included certain capital accumulated by various emperors, and to this must be added the five and a quarter millions sterling received from the peasants who were serfs on the imperial domains as the price of their freedom.

The third source of income is the "Cabinet properties," which belong to the reigning Czar personally as Czar. The only figures obtainable for assessing the value of this, the greatest source of present and future wealth, is the area of the land property, which is 115,000,000 acres, or about the size of France. This property is almost entirely in Siberia, but it includes the best and largest of the gold and silver mines, worked and unworked, besides a fabulous amount of unexplored wealth both above and below the surface. Copper, iron, platinum and other ores, besides gold and silver, are only awaiting the opening up of this unexplored territory, the size of France, to yield many more millions annually.

GAVE HIM PIECE OF SHROUD.

Scotch Family Followed Custom of Fourteenth Century.

Some time ago the New Kilpatrick parish church minister, Rev. J. H. Dickie, attended, in a ministerial capacity, a funeral in Glasgow, and he was somewhat surprised when the chief mourner handed him a small cutting of the shroud. Naturally he asked the reason of the gift, but the mourner could not tell him, merely remarking that it had been an old custom of her family to present the minister with a bit of the shroud on similar occasions. An antiquarian friend has been looking into the matter, and finds that away back in the thirteenth or fourteenth century an act was passed for the purpose of encouraging the wool trade in Scotland, which ordained that every corpse be shrouded in a woolen garment, and to make certain that the order was attended to, it was made the duty of the parish minister to examine the shroud before the coffin lid was "screwed down." In the event of the minister not being able to be present, a "swatch" of the dead person's garment had to be cut off and handed to the clergymen who officiated at the "lifiting." The fact that the old custom has been preserved in the mourner's family showed that their genealogical tree had a fairly respectable antiquity.

A SOUNDLESS ROOM

The Physiological Institute of the University of Utrecht, Germany, possesses one of the most remarkable rooms in the world, a chamber about seven and a half feet square, which is said to be absolutely noiseless, as far as the entrance of sounds from outside is concerned. It is on the top story of a laboratory building, and is an inside room, but is so arranged that it can be ventilated and inundated with sunshine. The walls, floor and ceiling each consist of half a dozen layers of different substances, with air spaces and interstices filled with sound-deadening materials. Some persons when in the room experience a peculiar sensation in the ears. While every effort has been made to exclude sounds that are not wanted, of course the object of constructing this singular room was to experiment with phenomena connected with sound. Some of the sounds employed are made in the room itself; others are introduced from outside by means of a copper tube, which is plugged with lead when not in use.

Mother—"Why are you crying, Teddie dear?" Teddie—"Cause brudder slapped me." Mother—"What did he slap you for?" Teddie—"Cryin'!"

CARRIED OFF BY A TIGER.

A Hunter in Burma Describes His Awful Experience.

It is not often that a person who has been in the claws of a tiger can tell later how the experience seemed to him. Mr. John Bradley, an English sportsman, had the good luck to escape with his life from such a predicament, and in his "Narrative of Travel and Sport" tells what the sensation was like. He was hunting tigers in the eastern part of Burma when he met with the adventure. Two other Englishmen were with him at the time.

We marched along carelessly without observing order or caution, and were not prepared to take advantage of Akbar's warning, when he exclaimed, "Beware, sahib!" and a full-grown tiger went past us at a gallop.

A straggling volley was fired after it, and although evidently not struck, the beast stopped, and rearing up on its hind legs, clawed the bark of a tree just as a cat scratches the leg of a chair or a table.

Mr. Grant and I fired simultaneously, but without effect, and before a thought of the creature's intention had time to flash through my mind, I was down under its paws.

Seizing me by the left thigh, the tiger shook me as a dog shakes a rat, and then, growling horribly, dragged me at a tremendous rate through the thick undergrowth of the forest. I heard the frightened shouts of my companions and the report of several shots, and then a dizziness came over me; but I did not lose consciousness.

As I was pulled through the forest, I several times caught hold of the trees; but the tiger, growling fiercely, shook me free in an instant. All this time, although quite calm and collected, I felt a strong desire to preserve my existence, and never for a moment experienced that apathy with regard to the danger that some persons have described under similar circumstances.

How long I was in the jaws of this brute I cannot tell. It seemed to me an age before the creature stopped. My companions afterward declared that I had been dragged at least half a mile from the spot where I was first seized. They followed as fast as they could run, and although I was unaware of it at the time, never lost sight of the beast. To this circumstance I undoubtedly owe my life, for had there been any delay in rendering me assistance, it must have been fatal to me.

The moment the tiger halted it released my thigh, and seemed to be attracted by the approach of my companions, although as yet I did not see them myself. Taking advantage of this release, I tried to escape to the shelter of some tall bushes near at hand.

In an instant and with a terrible roar the creature pounced upon me, seizing me this time by the shoulder, and at the same time lacerating my chest with its claws.

A shot was fired, and I heard the bullet whistle overhead. Fear of hitting me had caused them to aim too high. A second and third shot were equally unsuccessful; and the tiger again releasing me, began to lick up the blood which oozed through my jacket. I began to feel very faint, and could not suppress a groan. Several times the tiger dabbed his paws, apparently in play, about my face, but did not use its claws; fortunately for me.

Presently the beast seemed to be seized with a sudden rage, and began to snarl like an angry cat; I could hear, but whom I could not see, owing to my position. For I was lying flat on my back. There was the sharp snap of a rifle close to my head, a heavy weight fell across me, and then I comprehended that my friend was pulling me from under the dead body of the tiger.

RIGHT.

All men may be born equal, but it isn't long before one-half of the world is pulling the other half's leg.

OPERATIONS ON ANIMALS

PROVIDING A CANARY WITH A WOODEN LEG.

Recent Instances of Animal Surgery in London and New York Which Proved Successful.

One of the ostriches at the Zoological Gardens, which stands 6 ft. high and weighs 250 lbs., was afflicted with paraparesis of one of the legs. He was taken in hand by the authorities, and placed in a sling, which fitted his body very comfortably by means of pads. A gentle application of electricity was then made to his leg, which at first seemed of very little value. But in the course of several days, and after a number of applications of the battery, some signs of animation were seen, and presently the treatment succeeded and the big ostrich was able to stand on his own legs again, and to indulge in that swaggering gait which the children who visit the Zoo so much delight to contemplate.

One day lately a cab drove up to the Bellevue Hospital, one of the best institutions in New York, and a gentleman stepped out and subsequently produced from his pocket a tiny white kitten, explaining that it had fallen downstairs, dislocated its shoulder and broken a leg. It was pointed out to him that the hospital was for humans and not for felines, but, as the gentleman was a generous contributor to the funds of the hospital, his insistence eventually prevailed upon the surgeons to accept the case.

THE SHOULDER WAS SET,

the leg put into splints and then bandaged, and the kitten was given a bed in a tent on the lawn, where the little creature remained until its cure was completely effected.

A pretty canary belonging to a lady residing in the neighborhood of Hyde Park fell from its perch and broke its leg. The lady took a tiny Japanese toothpick, slit the thicker end with a knife, and, inserting the end of the broken leg in the divided part, connected the point of the toothpick with the upper part of the broken leg, with several wrappings of fine cotton. Long before the leg was healed the canary became as lively as ever, and was not only able to hop about the cage on its wooden leg, but was able to jump from one perch to another without ever missing its footing.

A gentleman residing in the North of London took his Japanese collie to the surgery of a local doctor to undergo an operation for abscesses which had formed in both ears. During the operation it was found necessary to tie the patient to the operating table. On the following morning the dog escaped from home, traversed the mile which separates his master's house from the surgery, and, running into the room, sprang upon the marble slab and lay down.

WAITING FOR TREATMENT.

A newspaper man who had heard of this story and doubted it called on the doctor, and got him to send a message to the dog's master, asking that the dog might be released. Twenty minutes later it rushed into the surgery and sprang upon the operating table. The doctor took a small bottle of lotion and held it up to the dog's nose, and immediately it began to growl and show its teeth. The doctor then poured the lotion into the collie's ear, and without any growling now it turned its head for the other ear to be treated. When the operation was all over it shook its head vigorously and bounded away.

That scourge of recent years, influenza, attacked a female elephant last winter, and the seizure was a very bad one, the animal suffering intense agony. Very drastic treatment was considered necessary to save the creature's life, and in the course of one day no less than half a barrel of mustard was applied externally. In the same time the elephant consumed ten gallons of whisky! This heroic treatment, which would surely

PERSONAL POINTERS.

Interesting Gossip About Some of the World's Prominent People.

Lady Colebrooke, famous alike for her beauty, accomplishments, and skill as a political hostess, possesses a wonderfully complete carpenter's and wood-carving shop at Abington, Lanarkshire, Scotland. Here she has not only turned out some clever pieces of work, but has also taught some of the village girls on her husband's estate how to fashion wood by hammer and chisel. Lady Colebrooke is a clever sculptor too, and shares with her husband a love of all that is artistic and beautiful.

The new King of Sweden has few hobbies, but, curiously enough, is very fond of lawn-tennis, at which game he excels. He is frequently to be seen mixing with the ordinary players at a tennis club, and he is always eager for any hints or information they may be able to give him. A short time ago an international tennis tournament was held at Stockholm, and the then Crown Prince gave a banquet in honor of the players in his own private apartments. Each guest on arriving was presented with a handsome blue and gold badge ornamented with a crown and two crossed tennis racquets, which entitled him to honorary life membership of the Crown Prince's club.

Of the thousands who have worn and still wear the Royal Humane Society's decorations for life-saving, Lieut.-General Sir George Bryan Milman, K.C.B., Major of the Tower of London, who has just celebrated his eighty-fifth birthday, is the only man, it is said, who has been awarded its gold medal, and that close on sixty years ago. It was on June 25th, 1858, at the Mauritius, that he was the means of saving the lives of five officers of his regiment, the 5th Fusiliers, who, together with himself, went for a sail. A storm arose and the boat was capsized. Milman, then a captain, swam to the shore, some miles away, procured another boat, put off, and rescued his brother officers, who had clung to the keel of the coracle. Ten years later he was with Campbell at the relief and capture of Lucknow, and was mentioned in despatches.

It is a wonder that the poor little Grand Duke who is the heir to the dignity of Czar is not already overwhelmed by his titles. He is nearly three and a half years old. He is Hetman of All the Cossacks, chief of the Regiment of the Guard of Finland, colonel of the 51st Regiment of Infantry of Zitovsk, of the 12th Regiment of Infantry of Eastern Siberia, of the Corps of Cadets of Tashkend, and captain of the 4th Battery of Horse Artillery. Notwithstanding these dignities, it is said that his greatest joy in life is a golly-wog dressed in blue and red, for possession of which he occasionally fights with his youngest sister, Princess Anastasia, who is six years old.

There is no more tragic figure among the prominent people in the world than the Emperor Francis Joseph, ruler of Austria. His whole life and reign have been bound up with sorrows and tragedies. He was called to the throne during civil strife, in which the Minister of War was hanged on a lamp-post, and because his uncle abdicated and his father refused the Crown. His brother Maximilian was executed by his captors in Mexico, whether he had gone to fight; his son, the Crown Prince, put an end to his unhappy marriage by shooting himself; and his wife, the Empress, was assassinated on the shores of Lake Geneva in 1898.

Sir A. H. Fairbairn, the third baronet, is probably the only bearer of an hereditary title born deaf and dumb. He has devoted his life to the succor and relief of those who are similarly afflicted but less well off than himself. He hunts, fishes, shoots, and cycles, but his main hobbies are travel and the collecting of objects of art. Sir Arthur tells, with great glee, a story of an occasion when a friend had invited him to dinner at his club. Two other guests, strangers to each other, had likewise been bidden to the dinner, each of whom had been told that he would meet a deaf and dumb man. Sir Arthur, arriving late with his host, was astonished to see other guests by the fire talking laboriously on their

ROYALTY ABOARD SHIP PHOTOGRAPHS IN COLORS

THE WAY BRITISH BLUEJACKETS WELCOME BLUE BLOOD.

Routine Which Must Be Always Observed When Royalty Visits a Warship.

Bang! Bang!! Bang!! "Twenty-one guns!" counts the man in the street. "My word, but I'd like to have all the money spent on saluting in a year!"

But even if the man in the street had his wish, he would not reap the golden harvest he imagines, for, as a matter of fact, saluting costs the country practically nothing.

In the first place only the smallest guns are used for this purpose—usually the twelve-pounders—and even if they used good ammunition, the cost would be very small. Secondly, the powder actually employed has already been condemned as unfit for service, and if not used in this way it would only be thrown overboard.

Of course, if there is time, a man-o'-war is painted from stem to stern, inside and out, in preparation for a Royal visit. But as a rule, the cost of the paint comes out of the commander's own pocket, for he wants his ship to look well, and the Government supply is insufficient to keep the vessel always spick and span.

ON THE EVENTFUL DAY.

Labor, of course, is free, and on the eventful day all hands are busy from early dawn scrubbing and polishing, and endeavoring to make the decks a trifle more showy or the brasswork more brilliant than usual. After nine o'clock nobody is allowed on the quarter-deck except the officers and the side-boys, who are employed continually "trimming" the awning to satisfy the commander's critical taste.

Somewhere about eleven o'clock the Marine guard assembles on the half-deck to be inspected by its officers; the guns' crews fall in round the guns detailed for the salute, and the remainder of the ship's company prepare to "man" the yards, or line the ship's side, standing at arm's length, holding hands.

The signalmen on the bridge have been keeping a sharp look-out, and as soon as they see any signs of activity on shore, or on board the Royal yacht, they pass the word to the commander. Then the guard is marched on to the quarter-deck, where it forms up with the band in rear; and the officers troop up the ladders, in cocked-hats and swords, to form a glittering group opposite the ladder up which the visitor is expected.

As soon as the Royal barge is under weight, the salute booms out from the guns selected for the purpose. There is supposed to be an interval of one minute between each round, and the duty of maintaining the rate of fire falls to the ship's gunner—a warrant officer. And the duty is by no means so easy as it sounds. In the first place, Jack is so accustomed to firing at high rates of speed that he gets impatient when he has to wait, and so he needs careful watching, or the intervals will be too short. On the other hand, the defective powder often misses fire, and when this happens, another gun has to fire quickly, or the interval will be exceeded.

AS THE VISITOR APPROACHES.

It is also important that the first gun be not fired too late, otherwise the Royal barge would have to wait motionless until the salute were finished, for it is not etiquette to board a ship until the twenty-one rounds have been fired.

Arrived at the ship the Royal visitor steps out of the barge first, and ascends the ladder to the accompaniment of the bo'sun's pipe. This "piping" is a very old custom, probably a survival of the days when officers of superior rank were hoisted on board in a chair to save them the trouble of climbing, and the bo'sun gave the signal for the men to haul together.

NOW SAID TO BE AN ACCOMPLISHED FACT.

Paris Photographer, After Fourteen Years' Work, Gets Successful Results.

Pictorial photography is the most modern of arts in that it is most truly of our own time. Fettered by no superannuated methods, keeping ever in touch with the newest developments in all fields of science, it is fitted to record and interpret the varied and multi-colored life of to-day. While it has never been the aim or ambition of the advanced pictorial photographer, deeply cognizant of the true significance of the camera, to compete with the illustrious names in art, comparisons became inevitable because of the absence of a better standard by which to judge his work; and by reason of certain established prejudices, pictorial photography was as bitterly opposed as its relation to our own time was vaguely understood.

Step by step, however, it has come to occupy its rightful position, and gradually its opponents have ceased their scoffing. But though art bodies and even painters were willing to accord pictorial photography a place among the arts, and even to admit that in some of this work there was a beauty, a grace and a truth different from what had before been presented in all the realm of chiaroscuro, they still postulated that color would always remain solely the sphere of the painter.

PROCESS IS PERFECT.

The crude attempts at color photography that appeared from time to time only served to discredit the possibility of anything worthy ever being achieved in this field of photography. To-day colored photography is an accomplished fact, thanks to the untiring efforts of Antoine Lumière and his sons, whose newly discovered autochromatic plate records the most delicate shades of color with simplicity and absolute certainty.

During the last eighteen months those on the inside in the photographic world have had intimations that Lumière had actually overcome the most important difficulties in the way of a truthful representation of the color of natural objects, and that the process was soon to be made known to the world. The sub rosa announcements met with the usual skepticism on the part of even the most expert and advanced photographers.

But when the first results of this process were shown last June in Paris the doubting Thomases became enthusiastic believers. After fourteen years of experimenting Lumière and his sons have finally succeeded in making a plate that will faithfully produce with the most exquisite subtlety the gradations of color in nature, and to France must be accorded the honor of having contributed to the world a new discovery in the scientific application of light, second in importance only to the initial discovery of Daguerré.

HOW WE USE OUR EARS.

Hear One Sound With One Ear, Another With the Other.

The unity of action of the two eyes is obtained by having the filaments of the optic nerve separate in the brain, part of each nerve going to the right and part to the left. Thus the vision centre of each side of the brain receives impulses from both eyes.

The ears are arranged in different fashion, being perfectly distinct in action, so that at all times we have double senses of hearing, each quite separate from the other. We can by voluntary effort direct both our mechanisms for hearing towards catching the same sound, but frequently our two ears are engaged listening to widely different noises.

Delicate experiments have been made showing that when a number of different qualities of sounds fall on the ears

animal suffering intense agony. Very drastic treatment was considered necessary to save the creature's life, and in the course of one day no less than half a barrel of mustard was applied externally. In the same time the elephant consumed ten gallons of whisky! This heroic treatment, which would surely have been sufficient to kill twenty men, saved the animal's life. Her appetite returned and she was then able to dispose of thirty rolls and a hundred-weight of hay per day, washed down with suitable drinks!—London Tit-Bits.

FOUND MONEY IN DREAM.

Roll Lost in Chelsea Fire Discovered in Sleep.

How by a dream he found \$400 lost in the recent fire at Chelsea, Mass., is related by George T. Roberts, treasurer of the County Savings Bank. The money, which belonged to a Chelsea real estate association, was in a small safe in the bank building. As soon as the fire ruins cooled Mr. Roberts had the safe opened and found other money safe, but \$400 missing.

That puzzled Roberts very much. He concentrated his mind on the situation and carefully reviewed all of the details of the opening of the safe. The second night he says he dreamed that the money was stuck against the inside of the door. Roberts was so impressed with the idea that next morning he went again to the ruins. When he lifted the door he found the roll stuck to it just as he had dreamed.

During the fire the safe fell into the cellar, landing face down, so that the money fell against the inner door, sticking to the melted varnish and rubber. The door was removed and laid down without being turned over, the bills being hidden from the workmen who opened the safe.

STOLE THE PIG'S FOOD.

Terrible Destitution of Families at Newcastle, England.

The distress is pitiful in the districts affected by the shipbuilding dispute at Newcastle, England. Hundreds of men are walking the streets idle. The Newcastle Distress Committee has resolved to apply to the Estate and Property Committee for further relief work, and that application be made to the Local Government Board for further financial assistance.

Councillor Adams, a well-known local social reformer, told a shocking story of destitution. An owner of pigs at Walker, he said, was suspicious that the food of the animals was being interfered with, and secreted himself one night to see if anyone went to the sty. He saw a man and a boy go to the pigs' trough, take out the husks that the swine were to have eaten, and go away.

He followed them to a house, and afterwards went inside, and there saw the man, his wife and children devouring the pigs' food. There were stories also of children born under circumstances of great destitution.

WHERE BIRDS DRINK WINE.

The Beverage is Plentiful About Lake Maggiore.

Wine is so plentiful at the present moment on the shores of Lake Maggiore, Italy, from the village of Broine to Orselina, that it is given freely to tramps who ask for a drink.

The poorest people leave a bowl of wine on the window-sill for all comers. It is frequently refilled, and even the birds share the hospitality. The farmers, in order to make room for the coming vintage, are getting rid of their ordinary wine at nominal prices.

Parents freely give the wine to their children, and teachers complain that many of their pupils arrive at school in an inebriated condition. It is rare to see a child in the district without a little gourd of wine slung across his shoulders for personal consumption.

great glee, a story of an occasion when a friend had invited him to dinner at his club. Two other guests, strangers to each other, had likewise been bidden to the dinner, each of whom had been told that he would meet a deaf and dumb man. Sir Arthur, arriving late with his host, was astonished to see other guests by the fire talking laboriously on their fingers, each thinking that the other was Sir Arthur Fairbairn.

Mr. John Ringling, America's "Showman King," has proved so successful as a circus proprietor that he has absorbed Barnum and Bailey's show, and travels in a motor-car worth some thousands of pounds. It is said that even John Vanderbilt envies him. John is one of five brothers—the grandsons of a famous English juggler who settled in America. Their father lost "a pile" of money in a fire; and the brothers started concerts to replenish the depleted exchequer. Then they launched out into circus work, became formidable competitors with Barnum's, and finally absorbed that famous show. Now there are over 3,000 employed by the firm; they own 400 railroads, cars, and will pay any price for a novel-

THE MILK IN THE COCONUT.

There is No Pleasanter or More Refreshing Drink.

"Husking a coconut is one of the simplest-looking operations in the world, but I have not yet seen the white man who could do it effectively," writes Beatrice Grimshaw in her book, "In the Strange South Seas." Every native of Tahiti is apparently born with the trick.

A stick is sharply pointed at both ends, and one end is firmly set in the ground. The nut is then taken in the hands, and struck with a hitting and tearing movement combined, on the point of the stick, so as to split the thick, intensely tough covering of dense coir fiber that protects the nut.

The nut comes forth white as ivory, about the same shape and size as the brown old nuts that go by ship to England and America, but much younger and more tender, for only the smallest of the old nuts, which are not wanted in the islands for copra-making, are generally exported.

A large knife is used to crack the top of the nut all round, like an egg-shell, and the drink is ready, a draft of pure water, slightly sweet and just a little aerated, if the nut has been plucked at the right stage.

There is no pleasanter or more refreshing draft in the world, and it has not the least likeness to the "milk" contained in the cocoanuts of commerce. No native would drink from old nuts, for fear of illness, as they are considered both unpleasant and unwholesome. Only the milk of half-grown nuts is used for drinking, and even these will sometimes hold a couple of pints of liquid.

The water of the young coconut is food and drink in one, having much nourishing matter held in solution. On many a long day of hot and weary travel I had cause to bless the refreshing and restoring powers of heaven's best gift to man in the tropics, the never-failing coconut.

LIFE UNDER THE MICROSCOPE.

Everybody who has used a microscope has no doubt regretted the difficulty of seeing small insects, and other living objects not of mere microscopic dimensions, magnified while alive and moving freely in the field of view. A recently invented English instrument, called the vitascope, is said to supply a desideratum in this respect. It is shaped like a telescope, a foot long when closed, and an inch and a half in diameter. The lenses are so combined that an object 20 inches away may be magnified 12 diameters. At a distance of 5 inches the magnification is 60 diameters.

A squadron consists in the Army of two troops of men, of from sixty to one hundred each; and in the Navy, of a section of a fleet on special duty under a flag officer.

steps out of the barge first, and ascends the ladder to the accompaniment of the bo'sun's pipe. This "piping" is a very old custom, probably survival of the days when officers of superior rank were hoisted on board in a chair to save them the trouble of climbing, and the bo'sun gave the signal for the men to haul together.

As soon as the top of the visitor's hat appears over the ship's side, the officer of the guard gives the order: "Royal salute! Present arms!" As the rifles clatter into position the band strikes up the National Anthem, and the officers stand at the salute.

It is also important that this order be given promptly, and that the guard return to the slope immediately the band has finished playing. Otherwise the visitor would have a long wait in the gangway with his hand to his hat, as he cannot step on board until the salute is finished.

A CUSTOM THAT HAS DIED.

Then he steps forward and shakes hand with his host, and is introduced to the senior officers. After this, he usually inspects the guard. At one time it was the custom for foreign Royalties to give the officer commanding the guard some little token as a memento of the occasion. Thus, the King of Italy used to give a silver cigarette-case, made of pliable scales, with a sapphire clasp, and suitably engraved; the German Emperor has often decorated the officer with the order of the Red Eagle, while the Sultan of Zanzibar used to bestow the glittering Star of Zanzibar as a mark of his favor. But now the custom has fallen into abeyance, and the Royal approval is displayed in a handshake.

The inspection over, the visitor descends the ladder into the captain's private cabin, where he stays a few minutes, having refreshments and congratulating his host on the appearance of the ship. In the meantime the lesser members of the suite are entertained by the officers in the ward-room. Sometimes the visitor expresses his wish to see round the vessel, in which case the lower decks are cleared.

SPEEDING THE PARTING GUEST.

Otherwise, he returns to the deck—again being saluted as his head appears over the top step. The bo'sun pipes shrilly as he descends the ladder, and as soon as the barge has got clear of the ship, the order is given for three cheers. Led by the commander, the men lining the ship's side take off their hats, and cheer as only sailors can. The barge pulls speedily away, and when it is out of danger the guns again thunder out the salute. With the last gun, hands are "piped down to dinner," and the Royal visit is at an end. But as far as Jack is concerned the best part is yet to come, for it is customary to "make and mend" after a Royal visit—in other words, Jack gets a half-holiday.—London Answers.

BLESSINGS ON NEW BUILDINGS.

Russian Custom That Got a Scoffer Into Trouble.

It is a custom in Russia to open all new buildings and institutions, public or private with a religious dedication, writes the Odessa correspondent of the London Standard.

Even the proprietary builder of a small cottage or workshop who cannot afford to pay for the attendance of a priest to bless and sprinkle with holy water a new structure always hoists a wooden cross, nailed to the topmost pole in he scaffolding, as his dwelling or workshop approaches completion, symbolic of an appeal for God's blessing upon the new premises.

This custom appeared somewhat incongruous on the establishment of the Government liquor monopoly, when every vodka store was solemnly opened with religious ceremony.

At Kishineff last week when a new opera house was opened with the usual religious function, the local journal, Besarabian Life, made some scoffing remarks, for which the proprietor editor has been sentenced to four months imprisonment.

of hearing, each quite separate from the other. We can by voluntary effort direct both our mechanisms for hearing towards catching the same sound, but frequently our two ears are engaged listening to widely different noises.

Delicate experiments have been made showing that when a number of different qualities of sounds fall on the ears of a man with normal hearing apparatus the sounds will be roughly grouped in their reception, so that those of one character will be listened to by one ear and the others by the second ear. Thus one ear will receive the sounds of a person talking while the other will hear the noise of traffic in the street.

While it has been claimed that both ears listening to the same sound will double the power of hearing, it is a fact that with most people the sound, even if more intensified, is less well defined. Hence if differentiation of sound rather than mere recognition of the fact that a sound is being produced is required, one ear acting alone is more accurate than two.

SHORTEST HOUR IN DAY.

Business Man Says Time Goes Most Quickly Between 2 and 3 p.m.

"What is your shortest hour of the day?" asked a business man of an acquaintance. "Don't say you have none. You have, although you may not know it. Everybody has. Of course, reckoned by actual measurement, each hour is composed of 60 minutes, yet notwithstanding that chronological exactness, the hours vary in length. My shortest hour is from 2 to 3 o'clock in the afternoon. I find upon inquiry that is the fleetest period for many people. In my case so swiftly do those 60 minutes hurry by that I try to crowd into them as many of the disagreeable, yet inevitable things of life as I possibly can. If I have to interview a bore I see him then! If I have to visit the dentist I do it then. That hour is bound to slip away quickly, no matter what happens; therefore the agony of disagreeable scenes seems of shorter duration."

STRUGGLE WITH A TIGER.

The Strange Story of a Homeric Contest From India.

Two brothers, Khuda Bakhs and Sheikh Abdul Ghani of Moradabad, were despatched recently to Rampur on an errand, and while entering a grove at Khadpura a tiger sprang upon Khuda Bakhs, who, being an athlete, warded off the blow, aimed at him with his right hand and caught one of the paws with the other and maintained his hold, though the tiger was mauling the other hand, says the Indian Daily Telegraph.

Abdul Ghani now rushed up with a stout stick, which he forced down the tiger's throat, making it release his brother's hand, when Khuda Bakhs seized another paw with his wounded hand, forcing both the paws back. He wrestled with the tiger, keeping it down by sheer force, while Abdul Ghani labored it with his lathi and killed it.

The tiger was carried by the brothers to his Highness the Nawab of Rampur, who kept the skin as a momento and sent Khuda Bakhs to the state dispensary for treatment."

MOLLY'S MUSIC.

When Molly plays, then is the time A thought steals over me sublime; The harmonies she brings forth fill My very soul, and make it thrill—

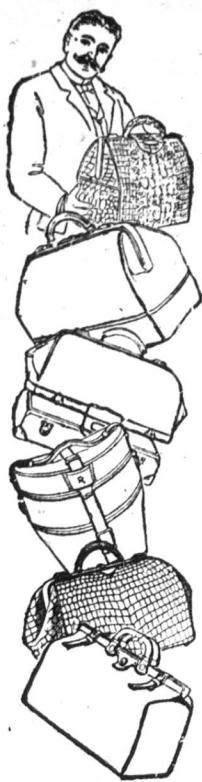

When Molly plays!

When Molly plays, 'tis then I sigh, And long for other fields, and sky Of dainty blue, where I can dream Beside some softly-rippling stream—

When Molly plays!

When Molly plays, 'tis then, oh, then Too much for ears of mortal men! It's something awful! That is why For other haunts I long and sigh—

When Molly plays!

Travelling Goods.

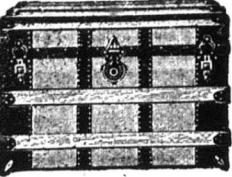

This week we are making a special display of New Trunks, Suit Cases and English Club Bags. You are invited to drop in and look over large assortment.

TRUNKS over 75 to choose from, prices range from **\$2.00 to \$17.00.**

SUIT CASES Imitation Leather at **\$1.25, 1.50, 1.75**
and up to **\$3.00.**

SUIT CASES in Solid Leather at **\$4.50, 4.75, 5.00**
and up to **\$10.00.**

English Club Bags
\$2.50 to \$11.50.

Largest Dealers in this Section of Canada.

THE BEST FLOUR.
DAFOE'S NONESUCH
DAFOE'S MANITOBA PATENT

By numerous tests by the best Bakers the above mentioned grades have been proven to be the best Flours in the market.

When buying Flour ask for Dafoe's, and patronize your home mill, thereby producing Bran and Shorts that you can purchase cheaper than the product of the Western mills, which has to be transported thousands of miles at great expense, and usually, when it reaches you, of inferior quality.

The grocer complains if the farmer or the mechanic sends to Toronto or to outside points for an article he can get at the home store just as good, but he does not hesitate to buy Flour from mills hundred of miles away, and sell you an inferior Flour for more money than you can purchase the home product for, every bag of which is guaranteed.

CHOICE CORN MEAL and BUCKWHEAT FLOUR always on hand.

FEED GRINDING a specialty, with the best feed mills known to the trade.

A full stock of the best ANTHRACITE COAL. Also in the market for the purchase of all kinds of Grain.

Ask for prices at the big Mill before purchasing your Flour, Feed or Coal.

The Social Event of the Season.

An invitation is extended to our town people and friends by the Hospital Aid Society to spend a delightful evening at the home of Mrs. C. H. Wartman, on Tuesday, June 23rd, at 8 o'clock. Refreshments will be served, and during the evening ice cream and home-made cake will be for sale. Trinity church orchestra assisted by Miss Kimmerly and others, will add greatly to the evening's enjoyment. As this is an object that all are interested in, we expect to be favored with a large attendance.

Drowned at Deseronto.

A sad drowning accident occurred at Deseronto, on Saturday afternoon, when "Jack," the thirteen-year-old son of Dr. Newton, mayor of the town, met a watery grave. A passer-by discovered the boy's clothes lying on the shore, but could find no trace of the lad. The clothes were recognized as young Newton's, and a search made for the missing boy. He was found lying on the bottom of the river. The body was hastily recovered, and several physicians, including the stricken father, worked for hours in a vain effort to bring about resuscitation. The deceased was well developed for his age, and popular in the town. The people of Deseronto express deep sympathy with Dr. Newton in his sad loss. Many a boy, given up as drowned, has been brought back to life by his efforts and skill after hours of hard labor, and it is hard to realize that though he saved others he could not save his own. Young Newton, after leaving his companions, had started for home alone. It is thought that the water tempted him to indulge in a plunge. The cause of his drowning however, will probably never be explained.

Mr. N. B. Miller brought to our
office on Friday last a few samples of
peas grown by Messrs. Wm. Joyce,
Milford Dupree and Dan McCarten for
the Napanee Canning Co. The peas
are in pod and the stalk measured 28
inches in height. A remarkable
growth for this season of the year.

South Napanee Conservative, feeling
very good on election night, amused
himself with setting off fire crackers
in front of his neighbors' houses, some-
what to their discomfort. His occupa-
tion is given on the voters' list as
gentleman, but his neighbors think it
should be changed.

A large crowd of people visited Napanee
on Thursday for the purpose of attending
Cole Bros. circus. The circus is a good
one. Their street parade is grand and the
performance inside the big tents is almost
equal to any circus which has ever shown in
Canada. The attendance at both perfor-
mances was large.

To stop any pain, anywhere in 20 minutes
simply take just one of Dr. Shoop's Pink
Pain Tablets. Pain means congestion—
blood pressure—that is all. Dr. Shoop's
Headache—or Pink Pain Tablets—will
quickly coax blood pressure away from
pain centers. After that, pain is gone.
Headache, Neuralgia, painful periods with
women, etc. get instant help. 20 Tablets
25¢. Sold by—ALL DEALERS.

One evening last week a number of
young ladies helped themselves to
some of Mr. Henry Spencer's flowers.
Mr. Spencer has secured the names of
the parties and purposes to push
the matter in order to stop the robbing
of flower gardens, by young people of
the town. A large number of residents
who have gardens have complained
of having their flowers stolen and a
stop should be made to this practice.

In several towns in Canada the
school children have organized what
they call the "Remember Club." They
go up or down a street and count the
houses or the telegraph poles in so
many blocks. They look into show
windows and take notice of the things
displayed. They count the number of
children at school or Sunday school.

They count all the white or black
horses they see in a day or a week.
They look at people on the street and
try to remember how they were dressed.

They take notice of everything
going on, and then meet of a Saturday
afternoon and compare notes. The
boy or girl who remembers the most is
given a prize of a box of candy.

The idea is a fine one. It is the
right way to cultivate both observation
and memory, and good will come
of it. If you ask the average boy or
girl how many blocks he or she lives
from the post-office or city hall, not
two out of ten can answer you without
waiting to count. Many a man in
public life has found it of the greatest
benefit to remember names and faces.
—Brooklyn Junior Eagle.

Cord wood and Block wood
for sale. Robt. Light

It is but a few weeks since his wife
passed away suddenly with the same
disease. Two young daughters are left
orphans. The funeral took place at
Oshawa on Tuesday.

The official returns handed out by
Returning Officer Preston on Monday
gives T. G. Carscallen, the Conservative
candidate, a majority of fifteen. In our issue of last week we made the
majority twelve, the mistake occurring
in polling subdivision No. 5 Odessa.
The returning officers report, sent to
each candidate, gave Carscallen 100, and
Madole 62, but the 62 for Madole was
written in such a way that it might easily be taken for 65, and hence
the difference in the majority.

A quiet wedding took place at the
residence of Rev. J. Boyd, B. A., Kingston,
Wednesday, May 20th, when Miss Ella Jane Dawson, daughter of
Mr. and Mrs. George Dawson, of Fellows,
was united in marriage to Henry
Thomas Jones, only son of Mr. and
Mrs. J. Reives, Livingston avenue,
Kingston. The bride wore a suit of
cream panama, with a white silk
blouse, trimmed with chiffon and
applique, and wore a very becoming hat
to match. Mr. and Mrs. Jones will
take up their residence in Kingston.
Their friends wish them a happy and
prosperous married life.

Bowmanville, June 11—The closing
day's sessions of the branch meeting
of the Bay of Quinte Woman's Missionary
Society were held to-day. The morning session was occupied principally
in the election of officers, which
resulted as follows:—President, Mrs.
G. D. Platt, Picton; Vice Presidents,
Mrs. S. Gibson, Napanee, and Mrs.
(Dr.) Harrison, Keene; Recording
Secretary, Mrs. G. H. Copeland, Campbellford;
Corresponding Secretary, Mrs. A. W. Grange, Napanee; Treasurer,
Mrs. Jas. Kendry, Peterboro; Mission
Band Corresponding Secretary,
Mrs. W. H. Ashton, Campbellford;
Superintendent Systematic Giving,
Mrs. J. R. Real, Napanee; Auditor,
Mrs. A. R. Campbell, Peterboro.
The invitation to meet in Lindsay next
year was accepted.

It was a shock to the citizens of Napanee,
when it was learned, Friday morning,
that Donald Daly, son of Denis Daly, had passed away at an
early hour. Although he had been in
poor health, and had been to Philadelphia
for the past two months undergoing an operation it was thought
that after the shock of the operation
he would recover. He returned from
Philadelphia a couple of weeks ago,
and never rallied but gradually grew
weaker. Deceased was a clever young
man, barely twenty years of age. Last
summer he went to British Columbia
in the hope that the change would
benefit him, but he returned during
the early winter not at all benefited
by the change. Besides his sorrowing
parents, two brothers, Arthur and
Roland, and one sister, Kathleen, are
left to mourn. This is the second
time within two years that Mr. and
Mrs. Daly have been bereft and the
sympathy of the whole town goes out
to them in their affliction. The funeral
took place on Sunday afternoon at
2:30 o'clock to the Eastern cemetery.

Spent Eighteen Dollars

"Gentlemen—I have pleasure in
stating that I have used \$18.00 worth of
Psychine, and as a result was cured of
very serious throat and lung trouble.

My case was a most difficult one, and
the doctors had practically said that I
could not get well. I tried Psychine,
and it did me so much good that I con-
tinued its use until I had taken \$18.00
worth, with the result that I am now
a new man physically. I have gained
thirty-five pounds.

"It is with the greatest confidence
that I recommend Psychine to all who
are afflicted with throat or lung trouble.

Yours truly, C. A. PINKHAM,
Scotstown, Que., Sept., '07.

This man speaks from experience.
Psychine cures all throat, chest, lung
and stomach troubles and gives renewed
strength and vitality to run-down people.

Wedding Bells.

The marriage of Miss Margaret E.
Loretta Meagher, only daughter of
Mr. and Mrs. Jno. C. Meagher, Marysville,
and Byron Scanlin, of North Bay, son of James Scanlin, Enterprise,
was quietly celebrated on Monday, June 8th, at St. Mary's church, Marysville,
Rev. Father Meagher performed the ceremony, after which the Nuptial
Mass was celebrated. The bride was given away by her father and was costumed
in grey silk column over taffeta with large picture hat to match and
carried a beautiful bouquet of white roses. The bridesmaid, Miss Anna Scanlin, Enterprise, was attired in blue
voile with hat to match and carried white and pink carnations. The
groomsmen being John Meagher, brother of the bride. The groom's
gift to the bride was a lovely gold bar
pin set with pearls, to the bridesmaid a pretty ring and to the best man a tie
pin. After the ceremony the bridal
party with their intimate friends re-
paired to the home of the bride's parents,
where a dainty wedding breakfast was served, after which the happy couple left on the eleven forty-
five train for Montreal, Quebec, etc. The bride's going away gown was of
brown broadcloth with jaunty little
Tuscan hat. After their return they
will reside at Moor Lake where the
groom has an appointment with the

Mrs. Chas. Fanning, Olean, N. Y. is the guest of Mrs. Jas. Hosey having brought the remains of her grandmother here for interment.

Mr. Garrett Vanalstine, Palace Road, is very low and slight hopes are entertained of his recovery.

Mr. and Mrs. J. T. Bowers, of Winnipeg, assistant postmaster) visiting Mr. and Mrs. Perry Ham, John street, Napanee, left for a trip down the Rideau to visit his father's family.

Mr. Harold Cowan, son of Dr. Cowan, of Napanee, is travelling for the Cowan Co., of Toronto, and was in Calgary last report.

BELL ROCK

The road across the long bridge to Moscow is much improved by the work put on it recently.

A shade of gloom was cast over the community on Sunday morning by the death of Arthur Grant. Arthur was an exceptionally bright boy of a gentle and kind disposition and a favorite of old and young.

Miss Stella VanVolkenberg is spending a few days at Hartington.

Miss Goldie Sanborn made a short visit at home last week.

Visitors: Clare Meeks, Sharbot Lake, at J. Meeks; Mrs. A. Parker, Mountain Grove, at Mrs. Martin's; Mrs. W. Burley at J. York's; Mr. and Mrs. J. French at S. Grant's.

Weak women should try Dr. Shoop's Night Cure. These soothing, healing, antiseptic suppositories go direct to the seat of these weaknesses. My "Book No. 4 For Women" contains many valuable hints to women, and it is free. Ask Dr. Shoop, Racine, Wis., to mail it. Ask the Doctor in strictest confidence, any questions you wish answered. Dr. Shoop's Night Cure is sold by ALL DEALERS.

TAMWORTH.

Rev. Mr. Dixon will preach to the Free Masons next Sunday afternoon at 2.30 p.m. in the Methodist church.

Mr. John Mitchell and daughter, Roanbeck Man., are visiting her parents, Mr. and Mrs. Jas. Ayworth.

Mr. Harry Wheeler, of Buffalo, is visiting her parents, Mr. and Mrs. Miles Wagstaff.

One of the biggest events of the season will be a grand Methodist picnic in Coxall's grove on July 1st. Base ball match, sports and games of all kinds will be indulged in. Everybody come and enjoy a good day's outing.

All stores in Tamworth will be closed every Wednesday afternoon during July and August.

The last rain has brightened up the crops and everybody is looking forward to a good harvest.

Messrs. Gilmour and Reid have the contract of putting on a new cornice on the Rose block, which adds much to the appearance.

George Connor, of Lindsay, visited his mother on Tuesday last.

Mrs. James Ryders called at Messrs. Sam and William Shannons' one day this week.

All the principal stores in Tamworth will be closed on July 1st, as a general holiday.

Mrs. George Pope and son, of Peterboro, are visiting her parents, Mr. and Mrs. L. Way.

Tamworth and Erinville played base ball on Saturday, score 11-16 in favor of Tamworth.

Go to Floyd & Co. for the best boots in town.

Not Beaten Yet.

There has been nothing better produced as yet for floors than Prism Brand Floor Paint. It dries hard quickly and has a good gloss. The Medical Hall—Fred L. Hooper, sole agent for Napanee.

THE HINDOO FAKIR.

His Patience and Skill in the Bag and Spear Trick.

The feat known as the bag and spear trick has been considered one of the greatest of the Hindoo magician's art. In this trick, says a writer, the Hindoo fakir has his assistant get into a sack, the mouth of which is firmly secured, and then unceremoniously hurls his helpless victim to the ground. Without a sign of warning the fakir drives his spear through the center of the bag.

After withdrawing his weapon, upon the point of which no blood stain appears, the fakir stands and gazes dreamily over the heads of the spectators. The body within the bag founders about as if in mortal agony. At last, when the occupant is apparently dead, the fakir again plunges his spear into the motionless body. The same

Even Buds Grow Old.

According to a government botanist at Washington, there is reason to believe that buds share in the growing old of the parent plant. He illustrates his meaning in this way: Suppose the average life of an individual plant—say a tree—to be 100 years; then a bud removed when the parent plant is fifty years old will also be virtually fifty years of age and if transplanted by grafting will be able to live on the graft only fifty years more.

She Knew.

Applicant—No, ma'am; I couldn't work in a house where there were children. Mrs. Keehouse—But we advertised for a girl who understood children. Applicant—I do understand 'em, ma'am. That's why I won't work where they are.

They purpose firm is equal to the deed.—Young.

Killed on the Track.

Tuesday afternoon shortly after one o'clock Richard Holland, an old gentleman, aged eighty-three years was struck by the Deseronto train when about three miles from Napanee on its run to Deseronto and instantly killed. Nearly every bone in the man's body was broken by the shock besides being badly mangled. He was walking on the track going to a neighbor to do some work, and being very deaf, did not hear the approach of the train. At the time of the accident he was standing on the track, and with a hoe he was carrying over his shoulder, was examining a dead turtle just at the edge of the track. No inquest was held as it was shown beyond a doubt that no person was responsible for the accident which caused his death. The remains were brought to Napanee to the home of his daughter, Mrs. John W. McCumber, and on Wednesday interred in the Eastern cemetery. Four children survive him, two boys and two girls. They are Mrs. J. W. McCumber, Miss Carrie Holland, and Messrs. George and James Holland.

Dominion Day at Napanee.

The large bills for the horse races and a day of sport at Napanee, on Wednesday, July 1st, have been posted up this week. Napanee has the reputation of having one of the fastest tracks in this section of Canada, and always have the best races, and this year will prove no exception to the rule. \$7000.00 in purses is being offered for the following classes: 2 1/2 class, purse \$200; 2 2/5 class, purse \$200; three minute class, purse \$200; named race purse \$100. Horses eligible May 24th. Races open to pacers and trotters. The lovers of baseball will be entertained by a first-class exhibition between Napanee and Kingston teams. There will also be lots of first-class music. Special rates on all Bay of Quinte and Grand Trunk railway trains. The Napanee Driving Park grounds are the finest in Ontario and a good day's outing is assured. Excursions will be run by bay boats from Trenton, Belleville, Deseronto and Picton.

CASTORIA.

Belleville Wins First.

The first game in the Eastern Ontario Base Ball League was played at Belleville on Wednesday afternoon, between Napanee and Belleville, and resulted in a win for the Belleville players by a score of 5-1. The match was decidedly interesting from start to finish and was anybody's game right up until the last ball was pitched. Napanee scored their only run in the third inning. Belleville got one in the first and one in the second, and this ended the run getting until Belleville got one more in the seventh and two in the eighth. The Players:

Belleville—Gerow 1b, Campbell 3b, Watkins 1f, Brennan ss, O'Neil rt, Smith p, John cf, Bathurst c, Reeve 2b.

Napanee—Rose c, Shorts 1b, Shultz 2b, Warner rf, Allison tr, Trumble ss, McNeil cf, Derry 3b, Wood p. Score by innings—

Napanee—0 0 1 0 0 0 0 0 0 1

Belleville—1 1 0 0 0 1 2 x 5

On Wednesday afternoon next Gananoque and Napanee play at the Napanee Driving Park. A large crowd will certainly be present, and by their presence encourage the Napanee team in its struggle for victory.

Hoeing Your Face.

This is what a great deal of shaving amounts to. We have just received a supply of the new Auto Stop Safety Razor with patent honing outfit, the most complete thing of its kind yet produced. Also "RubberSet" shaving brushes guaranteed not to shed. The Medical Hall—Fred L. Hooper.

entertained of his recovery.

Mr. and Mrs. J. T. Bowers, of Winnipeg, (assistant postmaster) visiting Mr. and Mrs. Perry Ham, John street, Napanee, left for a trip down the Rideau to visit his father's family.

Mr. Harold Cowan, son of Dr. Cowan, of Napanee, is travelling for the Cowan Co., of Toronto, and was in Calgary last report.

Mr. Henry Blewett, of Boston, was in town this week.

Miss Gladys Grange, of Napanee, made a trip to Boston this week. She left on Tuesday and arrived home on Thursday.

Miss Helen Finkle, of Newburgh, was visiting friends in Napanee on Thursday, and took in the circus.

Mr. Ross Guess, of Yarmouth, N. S. is the guest of his father, Mr. C. W. Guess, Bridge Street.

Mr. and Mrs. W. H. Davis, Picton, were here on Tuesday having come over to visit her father, Mr. Garret Vanalstine.

Miss Ada Smith is home from Rochester, visiting her parents, Mr. and Mrs. J. F. Smith, South Napanee.

Saturday Callers: A. W. Abbott, Selby; E. J. Harrison, Tainworth; Jas. Windover, Forest Mills; Mr. and Mrs. Robt. Reid, Enterprise.

Mrs. John B. Vanalstine, Centre street, and little grand-daughter, Helen Vanalstine, left on Sunday for a visit with friends in Toronto, Hamilton and Grimsby.

Mr. and Mrs. Jas. Windover, Forest Mills, were in town Saturday and were callers at this office.

Mr. W. A. Shaw, of Toronto, was in Napanee Wednesday.

Mr. and Mrs. Mark Maybee and son, of Melita, Man., are guests of Mr. and Mrs. Wm. Norris, Deseronto Road.

Mr. Will Garrett and Mr. Johnson, of Toronto, spent last Sunday with friends in Napanee.

Mrs. J. W. Cooke and two children, Denver, Colo., are guests of her mother, Mrs. John G. Smith, South Napanee.

Mrs. G. L. Ham and Miss Ena Ham, Mexico City, Mr. Johnson, New York, and Mr. and Mrs. W. S. Herrington, Mrs. Burkitt, Mrs. McNaughton, Mrs. Lockridge, Miss Helen Herrington, and Mr. Edelstein attended a garden party at Mr. James Dawson's residence near Odessa on Friday evening last.

DEATHS.

DALY—At Napanee, on Friday, June 12th, 1908, Donald Aldworth Daly, son of Mr. and Mrs. Denis Daly, Piety Hill, aged 20 years and 3 months.

Everybody is coming to Napanee for Dominion Day Celebration.

Yes.

We want you to come and see us and bring along your cash, and we think we can show you that you can save money by buying from us. We are offering a big discount off all lines of crockery and glassware in order to reduce our stock, which is far too large for this season of the year. You will find a good value with us in all lines of groceries etc., as any where in town. Our tea at 25c, has them all whipped in the cup. Will pay highest price for eggs.

THE COXALL CO.

Rheumatism's Ruthless Hand Clutch-ed him for Five Years—Two Bottles of South American Rheumatic Cure Gave him his Liberty.

William McAteer, Farmer, Cree-more, P.O., writes: "For years I have been a sufferer from acute rheumatism. At times I have been completely laid up with it—could not put on my clothing without assistance. Before I had completed the second bottle of South American Rheumatic Cure I was a well man. If those two bottles had cost me \$50.00 I would have considered it cheap medicine."

South American Kidney Cure relieves in 6 hours.

Sold by T. B. Wallace

After withdrawing his weapon, upon the point of which no blood stain appears, the fakir stands and gazes dreamily over the heads of the spectators. The body within the bag flounders about as if in mortal agony. At last, when the occupant is apparently dead, the fakir again plunges his spear into the motionless body. The same antics are repeated. Then the fakir releases his attendant from the bag, and he steps out without a scratch upon his body.

Although the trick is performed with all the carelessness imaginable, it calls for more patience, skill and exactness than any of the so called black art achievements. From the time the attendant enters the bag both fakir and assistant count every breath they take. When a stated number of breaths have been taken the fakir makes his thrust, and the occupant in the bag is prepared to avoid it. Then the count begins again, and at the proper time the spear is driven through the bag a second time. In order to evade the spear and make it appear to pass through his body the assistant doubles up in as small a form as possible. His legs are drawn up close, with the chin resting upon the knees and the arms folded round the lower limbs across the shins. When in this position, at the fiftieth breath, the spear passes under the attendant's arms between the abdomen and the thighs.

The slightest miscalculation by either the fakir or his assistant would mean a serious if not a mortal wound for one and an unheard of disgrace for the other.

That fakir and attendant are able so to train themselves to breathe in perfect unison while giving one of these performances, when the slightest variation in time by either would be fatal, is certainly wonderful.

Didn't Want to Be Singular.

It was in the drawing room after dinner that they discussed an absent maiden friend's bad points with the usual grim and scathing glee. Having thoroughly dissected her personal appearance, they next paid attention to her mental shortcomings.

"She is a very singular girl," spoke the one.

"Yes, indeed," responded her companion. "But, then, that is not her fault, for I never saw a girl so anxious to be plural."—Argonaut.

Diamonds are about the only thing whose value does not fluctuate.

To purchase one of our Diamonds at present prices not only gives you a thing of beauty, but is a remarkably good investment.

Smith's Jewelry Store

TO WHOM IT MAY CONCERN

Be it known that the Council of the United Townships of Denbigh, Abinger, and Ashby intend to open up by By-Law the road allowance between Lots No. 16 in the 14th Concession and Lot No. 16 in the 15th Concession of the Township of Abinger and to sell or otherwise dispose of the unused Road Allowance between Lot No. 15 in the 8th Concession Lot No. 15 in the 9th Concession of the Township of Denbigh.

Parties objecting to the above, are requested to file their objections with the Undersigned not later than the 26th day of June next or appear in person before the Council at its next session which will be held at the Denbigh House in the Village of Denbigh on Saturday the 27th day of June 1908.

At the same session By-Law No. 75 of this Municipality will be amended by adding thereto or inserting therein, That all cattle within this Municipality are to be enclosed at night and kept off of the Public Roads from 7 o'clock in the evening until 6 o'clock in the morning.

PAUL STEIN,

Township Clerk,

Dated at Denbigh this First day of June 1908.
